What We Owe Each Other Minouche Shafik, 2022-08-23 From one of the leading policy experts of our time, an urgent rethinking of how we can better support each other to thrive Whether we realize it or not, all of us participate in the social contract every day through mutual obligations among our family, community, place of work, and fellow citizens. Caring for others, paying taxes, and benefiting from public services define the social contract that supports and binds us together as a society. Today, however, our social contract has been broken by changing gender roles, technology, new models of work, aging, and the perils of climate change. Minouche Shafik takes us through stages of life we all experience—raising children, getting educated, falling ill, working, growing old—and shows how a reordering of our societies is possible. Drawing on evidence and examples from around the world, she shows how every country can provide citizens with the basics to have a decent life and be able to contribute to society. But we owe each other more than this. A more generous and inclusive society would also share more risks collectively and ask everyone to contribute for as long as they can so that everyone can fulfill their potential. What We Owe Each Other identifies the key elements of a better social contract that recognizes our interdependencies, supports and invests more in each other, and expects more of individuals in return. Powerful, hopeful, and thought-provoking, What We Owe Each Other provides practical solutions to current challenges and demonstrates how we can build a better society—together.

Abandoned Julie Miller, 2008-04 In *Abandoned*, Julie Miller offers a fascinating, frustrating, and often heartbreaking history of a once devastating problem that wracked New York City. Filled with anecdotes and personal stories, Miller traces the shift in attitudes toward foundlings from ignorance, apathy, and sometimes pity to recognition of their plight as a sign of urban moral decline in need of systematic intervention.--Back cover.

Why Mothers Kill Geoffrey R. McKee, 2006-03-16 Few crimes generate greater public reaction than those where a mother murders her child. We are repelled, yet mesmerized, by the emerging details of cases such as Andrea Yates and Susan Smith. Annually, hundreds of infants and young children perish at the hands of their mothers. How could a mother destroy the first and most fundamental relationship we experience? In *Why Mothers Kill: A Forensic Psychologist's Casebook*, Geoffrey R. McKee, Ph.D. uses more than a dozen case studies from his 29-year forensic psychological evaluation practice to help us, and most importantly, prevent these horrific events from occurring. He applies current research findings to analyze, explain, and suggest practical interventions to alter the personal, familial, and situational circumstances that may influence some mothers to kill. With an emphasis on prevention, Dr. McKee sets out specific strategies that might have been employed at various risk intervention points occurring before the child's death. Through the use of extended narratives the author brings to life the thoughts and emotions experienced by women in each of the five categories of mothers he has identified from his years of practice. Additionally, the author presents the Maternal Filicide Risk Matrix which he developed to help mental health and medical professionals determine the risk and protective factors that lead mothers to kill their children. Students, as well as mental health and medical professionals will find this an important and unique resource.

Bioethics and Women Mary Briody Mahowald, 2006-10-05 All persons, while different from one another, have the same value: this is the author's relatively uncontroversial starting point. Her end point is not uncontroversial: an ideal of justice as human flourishing, based on each person's unique set of capabilities. Because the book's focus is women's health care, gender justice, a necessary component of justice, is central to examination of the issues. Classical pragmatists and feminist standpoint theorists are enlisted in support of a strategy by which gender justice is

promoted. Two features of the book are unique: (1) the topics presented cover the entire life span of women, not just those related to reproduction; (2) a range views about moral status are applied not only to fetuses but also to individuals already born. Attention to these features is intended to facilitate ethical consistency or moral integrity and respect for those who hold different moral views. While delineating and defending the book's perspective, the first section provides an overview of bioethics, critiques prevalent approaches to bioethics and models of the physician-patient relationship, and sketches distinguishing aspects of women's health care that are prevalently neglected. Positions about moral status are also presented. The second section identifies topics that are indirectly as well as directly related to women's health, such as domestic violence and caregiving. Brief cases illustrate variables relevant to each topic. Empirical and theoretical considerations follow each set of cases; these are intended to precipitate more expansive and critical examination of the issues raised. The last section is devoted to an egalitarian ideal that may be pursued through an ethic of virtue or supererogation rather than obligation. By embracing this ideal, according to the author, moral agents support a more demanding level of morality than guidelines or laws require.

Shadowlands: A Journey Through Britain's Lost Cities and Vanished Villages Matthew Green, 2022-07-19 One of Literary Hub's Most Anticipated Books of 2022 A “brilliant London historian” (BBC Radio) tells the story of Britain as never before—through its abandoned villages and towns. Drowned. Buried by sand. Decimated by plague. Plunged off a cliff. This is the extraordinary tale of Britain’s eerie and remarkable ghost towns and villages; shadowlands that once hummed with life. Peering through the cracks of history, we find Dunwich, a medieval city plunged off a cliff by sea storms; the abandoned village of Wharram Percy, wiped out by the Black Death; the lost city of Trellech unearthed by moles in 2002; and a Norfolk village zombified by the military and turned into a Nazi, Soviet, and Afghan village for training. Matthew Green, a British historian and broadcaster, tells the astonishing tales of the rise and demise of these places, animating the people who lived, worked, dreamed, and died there. Traveling across Britain to explore their haunting and often-beautiful remains, Green transports the reader to these lost towns and cities as they teeter on the brink of oblivion, vividly capturing the sounds of the sea clawing away row upon row of houses, the taste of medieval wine, or the sights of puffin hunting on the tallest cliffs in the country. We experience them in their prime, look on at their destruction, and revisit their lingering remains as they are mourned by evictees and reimagined by artists, writers, and mavericks. A stunning and original excavation of Britain’s untold history, *Shadowlands* gives us a truer sense of the progress and ravages of time, in a moment when many of our own settlements are threatened as never before.

Abortion Counseling Rachel Needle, PsyD, Lenore Walker, EdD, 2007-08-10 The majority of women who have had abortions report feeling happy, satisfied, and relieved following their abortion. Some few women who have had an abortion may experience some feelings of guilt and sadness; however, this rarely lasts longer than a few days. Those very few women who present with prolonged feelings of sadness and mental health problems are women who have either had these problems prior to their abortion, had other risk factors, or were influenced by frightening demonstrations and inaccurate biased information provided prior to the abortion. Through this book the authors hope to train general therapists and counselors in pre- and post-abortion counseling techniques--to avoid women experiencing unnecessary psychological problems created by those who insist that the non-existent post-abortion syndrome exists. Abortion counseling has a critical role to play in ensuring women's mental health is the priority and not the goals of a political agenda. Thus, Needle and Walker have taken on a complex, profound and essential task -- equipping therapists and abortion counselors with the knowledge and skills needed to help their clients -- and they have done it well. Readers of this book should [gain] an increased understanding of how women's diverse life circumstances affect their ability to cope with the difficult decisions and circumstances surrounding abortion. They will also be better able to build women's resilience and coping skills by having considered them both in the context of women's lives

(e.g., coping resources, social support, partner violence, incidence of depression), and in the context of socio-political agendas that seek to manipulate women's mental health in order to undermine women's reproductive rights....In the final analysis, it is important to remember that abortion counseling is not about abortion - it is about women confronting the decision to bear a child - with all of the profound and life changing commitments and responsibilities that entails. -- From the Foreword by Nancy Felipe Russo, PhD, Regents Professor of Psychology, Arizona State University

True Abandon Jeannine Colette, 2017-11-13 Trish Hogan's life was destroyed when she gave her trust to her high school boyfriend, Jackson, and he abused it, changing the course of her life forever. A decade later she's living in Manhattan -- she has a roommate, a steady boyfriend and a career. When a hurricane puts the city on lock down, Trish gets a message she never thought she'd receive: Jackson is dying and alone. In a city of millions, she is the only person who can sit by his side. Jackson Davis was once the golden child of a senator who went against his father's plans and became a musician. Tatted up and broken, he wakes up in a hospital only to see Trish -- the one person he needs to atone his sins to -- standing before him. He will recover from his injuries, but not from the pain he caused in the past. Trapped by the storm, they embark on a night of reckoning that has one running away to Hawaii and the other following in her steps. As the victim becomes the villain, the two are forced to face the past, live in the present and find a way to navigate into the future.

A Dictionary of Iowa Place-Names Tom Savage, 2007-08 Lourdes and Churchtown, Woden and Clio, Emerson and Sigourney, Tripoli and Waterloo, Prairie City and Prairieburg, Tama and Swedesburg, What Cheer and Coin. Iowa's place-names reflect the religions, myths, cultures, families, heroes, whimsies, and misspellings of the Hawkeye State's inhabitants. Tom Savage spent four years corresponding with librarians, city and county officials, and local historians, reading newspaper archives, and exploring local websites in an effort to find out why these communities received their particular names, when they were established, and when they were incorporated. Savage includes information on the place-names of all 1,188 incorporated and unincorporated communities in Iowa that meet at least two of the following qualifications: twenty-five or more residents; a retail business; an annual celebration or festival; a school; church, or cemetery; a building on the National Register of Historic Places; a zip-coded post office; or an association with a public recreation site. If a town's name has changed over the years, he provides information about each name; if a name's provenance is unclear, he provides possible explanations. He also includes information about the state's name and about each of its ninety-nine counties as well as a list of ghost towns. The entries range from the counties of Adair to Wright and from the towns of Abingdon to Zwingie; from Iowa's oldest town, Dubuque, starting as a mining camp in the 1780s and incorporated in 1841, to its newest, Maharishi Vedic City, incorporated in 2001. The imaginations and experiences of its citizens played a role in the naming of Iowa's communities, as did the hopes of the huge influx of immigrants who settled the state in the 1800s. Tom Savage's dictionary of place-names provides an appealing genealogical and historical background to today's map of Iowa. "It is one of the beauties of Iowa that travel across the state brings a person into contact with so many wonderful names, some of which a traveler may understand immediately, but others may require a bit of investigation. Like the poet Stephen Vincent Benét, we have fallen in love with American names. They are part of our soul, be they family names, town names, or artifact names. We identify with them and are identified with them, and we cannot live without them. This book will help us learn more about them and integrate them into our beings."—from the foreword by Loren N. Horton "Primghar, O'Brien County. Primghar was established by W. C. Green and James Roberts on November 8, 1872. The name of the town comes from the initials of the eight men who were instrumental in developing it. A short poem memorializes the men and their

names: Pumphrey, the treasurer, drives the first nail; Roberts, the donor, is quick on his trail; Inman dips slyly his first letter in; McCormack adds M, which makes the full Prim; Green, thinking of groceries, gives them the G; Hayes drops them an H, without asking a fee; Albright, the joker, with his jokes all at par; Rerick brings up the rear and crowns all 'Primghar.' Primghar was incorporated on February 15, 1888."

The Handbook of International Adoption Medicine Laurie C. Miller M.D., 2004-12-16 Since 1989, American families have adopted more than 230,000 children from other countries. Many of these children have lived in crowded conditions, sometimes with poor standards of hygiene, inadequate nutrition, and limited numbers of caregivers. Some suffer from endemic infectious diseases. Upon arrival, practitioners often fail to recognize the unique concerns of this group. This text provides an overview of the specialized medical and developmental issues that affect internationally adopted children, offering guidelines to the physicians caring for these children and their families before, during, and after adoption. The reader will learn how to advise families prior to an international adoption, how to perform an effective initial screening assessment of the newly arrived child, and how to recognize and manage developmental and other more long-term problems as they emerge.

Abandoned: The true story of a little girl who didn't belong Anya Peters, 2009-10-01 Separated from her real mother at birth, Anya grew up in terror of her drunken bullying uncle. Beaten, humiliated and sexually abused by him from the age of six, she thought her life couldn't get worse. But one day it did.

Abandoned Julie Miller, 2008-04-01 Two interesting items: The author's article in New York Archives A letter regarding foundlings in The Riverdale Press In the nineteenth century, foundlings—children abandoned by their desperately poor, typically unmarried mothers, usually shortly after birth—were commonplace in European society. There were asylums in every major city to house abandoned babies, and writers made them the

heroes of their fiction, most notably Charles Dickens's *Oliver Twist*. In American cities before the Civil War the situation was different, with foundlings relegated to the poorhouse instead of institutions designed specifically for their care. By the eve of the Civil War, New York City in particular had an epidemic of foundlings on its hands due to the rapid and often interlinked phenomena of urban development, population growth, immigration, and mass poverty. Only then did the city's leaders begin to worry about the welfare and future of its abandoned children. In *Abandoned*, Julie Miller offers a fascinating, frustrating, and often heartbreaking history of a once devastating, now forgotten social problem that wracked America's biggest metropolis, New York City. Filled with anecdotes and personal stories, Miller traces the shift in attitudes toward foundlings from ignorance, apathy, and sometimes pity for the children and their mothers to that of recognition of the problem as a sign of urban moral decline and in need of systematic intervention. Assistance came from public officials and religious reformers who constructed four institutions: the Nursery and Child's Hospital's foundling asylum, the New York Infant Asylum, the New York Foundling Asylum, and the public Infant Hospital, located on Randall's Island in the East River. Ultimately, the foundling asylums were unable to significantly improve children's lives, and by the early twentieth century, three out of the four foundling asylums had closed, as adoption took the place of abandonment and foster care took the place of institutions. Today the word foundling has been largely forgotten. Fortunately, *Abandoned* rescues its history from obscurity.
