*Adobe Acrobat 8 in the Office* Donna L. Baker, 2006-12-05 Adobe Acrobat is one of the most widely recognized tools for document management, office communications, and improved workflow, and Acrobat 8 is the most powerful version yet, introducing new tools for shared reviews, creating automated forms, license management, additional security, and many others. Now that PDF has become the ubiquitous electronic document format, industries as diverse as engineering, legal, manufacturing, and government all rely on Acrobat to make their tasks run smoother and more efficiently. Here to help guide you, Acrobat expert Donna Baker presents real-life scenarios that you can apply to any situation in which document control and management is an issue. With practical advice, productivity tips, and step-by-step directions for using the latest Acrobat features, Acrobat 8 in the Office will help you understand the broad capabilities of this "what-can't-it-do?" software. Among other useful features, this book also • Shows you how to use Acrobat in real-life situations to improve productivity, cost savings, and communication. • Covers the new features in Acrobat 8, including shared reviewing, Acrobat Connect (an online meeting room), auto-recognition form fields, new merging and document optimizing tools, redaction tools. • Describes how to best combine new and existing Acrobat tools to accomplish nearly any office communication task. • Includes a companion Web site at [www.donnabaker.ca/downloads.html](http://www.donnabaker.ca/downloads.html) that contains source files for examples in the book, plus bonus projects and case study chapters.

check your results against the accompanying screenshots. Newcomers can treat the book as a step-by-step introduction to Excel, starting with the basics, then moving on to more advanced techniques, such as inserting objects and multimedia events, creating charts and graphs, and publishing spreadsheets to the Web.

*Blindsight* Peter Watts,2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Anticipate the School You Want** Arthur Shostak,2008-08-16 Across America, especially in the aftermath of 9/11, parents rely on K12 schooling to prepare their children for the shocks, the perils, and especially the bright possibilities that are part of our warp-speed future. A new generation of school staffers is forging a fresh learning partnership with youngsters for whom creative computer-based schooling is as natural as breathing. Together, these staffers and students seek empowering ways to draw on futuristics, a pedagogy that makes the most of the study of tomorrow. *Anticipate the School You Want* offers pragmatic program ideas, along with many operational hints. Additionally, it shares a blueprint for developing the nation's first high school of the future and a design for conducting a biannual Futures Fair. America urgently needs an educational pathway for developing long-range forecasters, and Shostak provides recommendations for reaching that pathway. Strengthened by numerous annotated citations for articles, books, and Web sites, the book enables school staffers to draw on futuristics as they have always wanted to—ably, confidently, and with confidence that it makes a desirable, lasting difference.
