Restoration and History Marcus Hall,2010-02 Papers from a meeting of an interdisciplinary group of ecologists, geographers, anthropologists, sociologists, historians, and philosophers held July 2006 in Zurich, Switzerland.

Transgender History, second edition Susan Stryker,2017-11-07 Covering American transgender history from the mid-twentieth century to today, *Transgender History* takes a chronological approach to the subject of transgender history, with each chapter covering major movements, writings, and events. Chapters cover the transsexual and transvestite communities in the years following World War II; trans radicalism and social change, which spanned from 1966 with the publication of *The Transsexual Phenomenon*, and lasted through the early 1970s; the mid-'70s to 1990-the era of identity politics and the changes witnessed in trans circles through these years; and the gender issues witnessed through the '90s and '00s. *Transgender History* includes informative sidebars highlighting quotes from major texts and speeches in transgender history and brief biographies of key players, plus excerpts from transgender memoirs and discussion of treatments of transgenderism in popular culture.

Night Hunters William Pace Head,2014-03-18 In *Night Hunters*, air power historian William P. Head provides the first detailed study of the development and deployment of the AC-130 gunship. While other airframes and other types of close air support (CAS) and interdiction weapon systems preceded or flew with the AC-130s, this four-engine cargo airframe proved to be not only the longest serving fixed-wing gunship but also the most effective by far. During the Vietnam War, the US military developed new tactics and weapons systems to counter a diversity of enemy tactics and geographic features, the difficult climate, and the shifting diplomatic context. One of the most important was the development of the AC-130. Its ability to transport heavier payloads at higher altitudes across longer distances made it the logical choice to be the final Vietnam-era fixed-wing gunship and the only one that continues to fly missions in the twenty-first century. In addition, it employed many of the most advanced weapons, sensors, targeting devices, and fire control systems of the 1970s or of any era. By recounting both the technical development and the combat operations of the plane, and by looking at the proposed alternatives for its use in the War on Terror, *Night Hunters* offers a clear view of the role of gunships and of close air support in US wars. In today's never-ending brushfire wars, the AC-130s continue to uphold their reputation for excellence.

UNIX Deborah S. Ray,Eric J. Ray,1998 With in-depth information on over 250 of the most common UNIX commands of any flavor, this is an essential guide containing secrets of the UNIX

wizards with simple visual, step-by-step instructions

Hidden History of Dayton, Ohio Tony Kroeger,2021 Series statement from publisher's website.

The Complete Idiot's Guide to the Reformation & Protestantism James S. Bell, Tracy Macon Sumner,2002 An easy-to-understand history of the Reformation and how it created modern Protestantism, for anyone interested in understanding why the Protestant churches, denominations and beliefs are what they are today.

Writing Australian History on Screen Jo Parnell, Julie Anne Taddeo,2023 Writing Australian History on Screen reveals the depths in Australian history from convict times to the present day. The essays convey perspectives of Australian history on screen taken from an Australian viewpoint in a way that offers insights and an understanding of the unique Australian history and sense of identity--

America's Food Harvey Blatt,2011-02-25 The complete story of what we don't know, and what we should know, about American food production and its effect on health and the environment. We don't think much about how food gets to our tables, or what had to happen to fill our supermarket's produce section with perfectly round red tomatoes and its meat counter with slabs of beautifully marbled steak. We don't realize that the meat in one fast-food hamburger may come from a thousand different cattle raised in five different countries. In fact, most of us have a fairly abstract understanding of what happens on a farm. In *America's Food*, Harvey Blatt gives us the specifics. He tells us, for example, that a third of the fruits and vegetables grown are discarded for purely aesthetic reasons; that the artificial fertilizers used to enrich our depleted soil contain poisonous heavy metals; that chickens who stand all day on wire in cages choose feed with pain-killing drugs over feed without them; and that the average American eats his or her body weight in food additives each year. Blatt also asks us to think about the consequences of eating food so far removed from agriculture; why unhealthy food is cheap; why there is an International Federation of Competitive Eating; what we don't want to know about how animals raised for meat live, die, and are butchered; whether people are even designed to be carnivorous; and why there is hunger when food production has increased so dramatically. *America's Food* describes the production of all types of food in the United States and the environmental and health problems associated with each. After taking us on a tour of the American food system—not only the basic food groups but soil, grain farming, organic food, genetically modified food, food processing,

and diet—Blatt reminds us that we aren't powerless. Once we know the facts about food in America, we can change things by the choices we make as consumers, as voters, and as ethical human beings

Asp.Net 2.0 With .Net 3.0 Framework In Simple Steps Dreamtech Press,2007-12 ASP.NET 2.0 IN SIMPLE STEPS is a book that helps you to learn ASP.NET using Visual Studio 2005. Precise and complete, with an easy to understand style, lots of examples to support the concepts, and use of practical approach in presentation are some of the features that make the book unique in itself.

Euro-Par 2010 - Parallel Processing Pasqua D'Ambra,Mario Guarracino,Domenico

Talia,2010-09-02 This book constitutes the refereed proceedings of the 16th International Euro-Par Conference held in Ischia, Italy, in August/September 2010. The 90 revised full papers presented were carefully reviewed and selected from 256 submissions. The papers are organized in topical sections on support tools and environments; performance prediction and evaluation; scheduling and load-balancing; high performance architectures and compilers; parallel and distributed data management; grid, cluster and cloud computing; peer to peer computing; distributed systems and algorithms; parallel and distributed programming; parallel numerical algorithms; multicore and manycore programming; theory and algorithms for parallel computation; high performance networks; and mobile and ubiquitous computing.

History and Genealogy of Valentine H. Smith (1838-1890) Miriam Dittenhafer,2004 Valentine H.

Smith was born 22 July 1838 in Montgomery County, Pennsylvania. His parents were Frederick Kline Smith (1801-1873) and Mary Hildebeitel (1808-1867). He married Elizabeth Walter (1834-1913) 2 January 1862 in Philadelphia, Pennsylvania. They had seven children. Valentine died in 1890. Ancestors, descendants and relatives lived mainly in Connecticut and Pennsylvania. Includes Bennett, Reiter, Walter and related families.

Currents of Change Todd Jennings,2003

New Directions in Local History Since Hoskins Christopher Dyer,Andrew James Hopper,Evelyn

Lord,Nigel J. Tringham,2011 Local history in Britain can trace its origins back to the sixteenth century and before, but it was given inspiration and a new sense of direction in the 1950s and 60s by the work of W.G. Hoskins. This book marks the fiftieth anniversary of the publication of his Local history in England which was designed to help people researching the history of their own villages and towns. It is the result of a collaboration between academic historians in the Centre for English Local History at the University of Leicester, which Hoskins founded, and the British Association for Local History, an organisation that brings together the thousands of people who are not professional academics but who

practise local history. Taking the work of Hoskins as a starting point, the contributors show how local history is being researched and written today. Fifteen historians write about a variety of local history subjects which are significant in their own right but which also point to current trends in the subject. They show how local historians use their sources systematically, from the non-verbal evidence of buildings to various types of electronic resources. All periods between the middle ages and the early twenty-first century are explored, as are many different parts of the country from Skye to the Kent coast. There are examples of local historians working on ethnic minorities, gender and the working class. Those who study localities use a variety of approaches, including those of social, economic, religious, legal, intellectual and cultural history, all of which are employed here. They are aware of the roots of their subject and examine the history of local history itself. Together, the editors and authors raise the various dilemmas which stimulate debates among local historians about the nature of the subject, its present health and the directions it will take in the next half century.

Countries and Territories of the World ,

A Student Guide to Health [5 volumes] Yvette Malamud Ozer,2012-09-07 This comprehensive, five-volume reference set is aligned with the National Health Education Standards, containing up-to-date, scientifically based information on a variety of health and wellness topics relevant to high school students. *A Student Guide to Health: Understanding the Facts, Trends, and Challenges* provides straightforward, factual, and accessible information about a multitude of health issues. It is an essential reference set that provides high school students, teachers, and administrators with a comprehensive health and wellness education resource that aligns with National Health Education Standards and common health curriculum. This expansive five-volume set is ideal for students' research projects; highly useful as a resource for community college and public library patrons, librarians, teens, and parents; and is a suitable supplement to any health education curriculum. Each chapter includes up-to-date, evidence-based information that provokes further examination and encourages critical thinking to evaluate the validity of information encountered about health and wellness topics. Each chapter provides an abundance of references and lists of resources for further information, including books, articles, websites, organizations, and hotlines. Special attention is paid to social trends that affect youth health and wellness, such as bullying, eating disorders, steroid abuse, sexting, and the peer pressure associated with drug use and abuse.

The Natural Gas Industry in Appalachia David A. Waples,2014-01-10 The large scale, practical uses of natural gas were initially introduced by innovators Joseph Pew and George Westinghouse for

the steel and glass industries in Pittsburgh, and local gas companies evolved from individual wells to an interstate supply network acquired by Rockefeller's Standard Oil interests. Natural gas is now a prevalent part of American markets and with the production from the Marcellus shale is filling the critical void left by a lack of new coal, oil, and nuclear power facilities. This vital American enterprise began in the Appalachian states as an accidental and underestimated byproduct of the oil rush of 1859. This book explores the evolution and significance of the natural gas industry to the present day.

Crime, Delinquency and Justice Ramesh Deosaran, 2007 This reader presents fresh insights on the rapidly expanding and changing crime-related problems in the Caribbean as well as provides information on new dimensions of crime and criminology that are occurring with increasing regularity. A path-breaking and comprehensive work, *Crime Delinquency and Justice: A Caribbean Reader* has come at a time when all societies in the Caribbean region are grappling with crime in all its forms; and when the structure of the justice system on which all these societies are founded is being challenged to adjust to changes in society locally and internationally. The work addresses both theoretical and practical issues indicated by the broad range of areas covered including: Theorizing a Caribbean Criminology; Juvenile Delinquency and Public Policy; Domestic Violence and the Criminal Justice System; Community Policing, Police Styles and Use of Force; Corrections; Crime Statistics; the Jury System; Drug Trafficking; Terrorism, Social Upheaval and Political Violence and Human Trafficking. Much of the contributions are research and data-driven and overall have policy development as their focus. This makes the volume suitable for courses in criminology and criminal justice at both the undergraduate and graduate levels as well as for specialist courses in various aspects of policing and law enforcement.

Scientific Criteria to Ensure Safe Food National Research Council, Institute of Medicine, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Food and Nutrition Board, Committee on the Review of the Use of Scientific Criteria and Performance Standards for Safe Food, 2003-09-29 Food safety regulators face a daunting task: crafting food safety performance standards and systems that continue in the tradition of using the best available science to protect the health of the American public, while working within an increasingly antiquated and fragmented regulatory framework. Current food safety standards have been set over a period of years and under diverse circumstances, based on a host of scientific, legal, and practical constraints. *Scientific Criteria to Ensure Safe Food* lays the groundwork for creating new regulations that are consistent, reliable, and ensure the best protection for the health of American consumers. This book addresses the biggest

concerns in food safety—including microbial disease surveillance plans, tools for establishing food safety criteria, and issues specific to meat, dairy, poultry, seafood, and produce. It provides a candid analysis of the problems with the current system, and outlines the major components of the task at hand: creating workable, streamlined food safety standards and practices.

Transgender History Susan Stryker,2009-01-07 Covering American transgender history from the mid-twentieth century to today, Transgender History takes a chronological approach to the subject of transgender history, with each chapter covering major movements, writings, and events. Chapters cover the transsexual and transvestite communities in the years following World War II; trans radicalism and social change, which spanned from 1966 with the publication of The Transsexual Phenomenon, and lasted through the early 1970s; the mid-'70s to 1990-the era of identity politics and the changes witnessed in trans circles through these years; and the gender issues witnessed through the '90s and '00s. Transgender History includes informative sidebars highlighting quotes from major texts and speeches in transgender history and brief biographies of key players, plus excerpts from transgender memoirs and discussion of treatments of transgenderism in popular culture.
