A Political Education Elizabeth Todd-Breland,2018-10-03 In 2012, Chicago's school year began with the city's first teachers' strike in a quarter century and ended with the largest mass closure of public schools in U.S. history. On one side, a union leader and veteran black woman educator drew upon organizing strategies from black and Latinx communities to demand increased school resources. On the other side, the mayor, backed by the Obama administration, argued that only corporate-style education reform could set the struggling school system aright. The stark differences in positions resonated nationally, challenging the long-standing alliance between teachers' unions and the Democratic Party. Elizabeth Todd-Breland recovers the hidden history underlying this battle. She tells the story of black education reformers' community-based strategies to improve education beginning during the 1960s, as support for desegregation transformed into community control, experimental schooling models that pre-dated charter schools, and black teachers' challenges to a newly assertive teachers' union. This book reveals how these strategies collided with the burgeoning neoliberal educational apparatus during the late twentieth century, laying bare ruptures and enduring tensions between the politics of black achievement, urban inequality, and U.S. democracy.

Serena Vs. Venus Danielle Smith-Llera,2017 The final match of the 2001 U.S. Open featuring tennis stars Venus and Serena Williams was groundbreaking. The Black and White Lines I Shi Collantes,2020-08-02 The Black and White Lines is Shi Collantes fourth book. These words are written in the darkest ink- with the most sting. There is nothing beautiful with the sound you make when you cry without shedding a single tear. This is a massacre of the mind, and the decaying of a soul. These are the things that are never coming back. This is strength. These are fragments of what the world broke. This is for the most loved lies.

Red Line P. J. Crowley,2016-12-15 Over the past quarter century, four consecutive American presidents—two Democrat, two Republican—have spent more time, diplomatic capital, and military resources on Iraq than any other country in the world. Much as the Vietnam syndrome cast a long shadow over American security policy in the decades after the end of the Vietnam War, Iraq provides the commanding narrative for this generation of American leaders. In this book, former Deputy Secretary of State P. J. Crowley, one of America's most insightful national security commentators, unpacks the legacy of American triumphs and failures in Iraq . He argues that presidents have fallen victim to the Iraq Syndrome—the disconnect between politics, policy, strategy, and narrative—that has hampered America's foreign policy in the Middle East and hotspots throughout the world. In order to maintain America's global leadership role, Crowley argues that the next president must realign American's national security politics, policies, strategies, and narrative for the long term.

Opisthobranchs from the western Indian Ocean, with descriptions of two new species and ten new records (Mollusca, Gastropoda)

Nathalie Yonow,2012-05-22 This large work on sea slugs of the Western Indian Ocean is a major contribution to our knowledge of opisthobranch diversity and biogeography. The western Indian Ocean has long been known as a distinct biogeographical region, and reports of opisthobranchs from the province have been sporadic. Despite nearly 200 years of study, recent work estimates that there are more than 1000 undescribed species in the whole of the Indo-Pacific region. There have been considerable developments in the study of many taxonomic groups for the area in the last 50 years, including opisthobranchs, and this paper describes 70 species, of which ten species are recorded from the western Indian Ocean for the first time. Many phyllidiids and chromodorids seem to have a distribution limited to the western Indian Ocean, whilst there seem to be differences in species richness between coastal areas and island groups. Further work will shed light on many of these issues.

Class Struggle and the Color Line Paul Heideman,2018-04-06 As Black oppression moves again to the forefront of American public life, the history of radical approaches to combating racism has acquired renewed relevance. Collecting, for the first time, source materials from a diverse array of writers and organizers, this reader provides a new perspective on the complex history of revolutionary debates about fighting anti-Black racism. Contextual material from the editor places each contribution in its historical and political setting, making this volume ideal for both scholars and activists. Paul Heideman's book reconstructs for us the long flowering of anti-racist thought and organizing on the American Left and the central role played by Black Socialists in advancing a theory and practice of human liberation. Class struggle and anti-racism are two sides of the same coin in this powerful collection. At a time when the emancipation of oppressed and working-class people remain goals of progressives everywhere, Heideman's book provides us a map to a past that can help us get free.-Bill V. Mullen, Professor of American Studies, Purdue University Should white workers pursue racial supremacy to make America great again? Ignore race by practicing color-blindness and dwelling on labor and economic issues alone? Or challenge oppression, bigotry, and exploitation in all their forms, wherever and whenever they appear? These strategies may sound like

ones from our own time, but they were live options for the left a century ago. We are all in Paul Heideman's debt for compiling Class Struggle and the Color Line, a set of rare original sources that remind us of this: In the absence of sound social theory, disgusting racism can be passed off as populist rebellion. Don't let it happen again. -Christopher Phelps, co-author, Radicals in America: The U.S. Left since the Second World War Paul Heideman is a PhD student in Sociology at New York University and is a frequent contributor to Jacobin and the Historical Materialism Conference.
