Coined Kabir Sehgal,2015-03-10 A New York Times and Wall Street Journal Bestseller The importance of money in our lives is readily apparent to everyone--rich, poor, and in between. However grudgingly, most of us accept the expression Money makes the world go round as a universal truth. We are all aware of the power of money--how it influences our moods, compels us to take risks, and serves as the yardstick of success in societies around the world. Yet because we take the daily reality of money so completely for granted, we seldom question how and why it has come to play such a central role in our lives. In Coined: The Rich Life of Money And How Its History Has Shaped Us, author Kabir Sehgal casts aside our workaday assumptions about money and takes the reader on a global quest to uncover a deeper understanding of the relationship between money and humankind. More than a mere history of its subject, Coined probes the conceptual origins and evolution of money by examining it through the multiple lenses of disciplines as varied as biology, psychology, anthropology, and theology. Coined is not only a profoundly informative discussion of the concept of money, but it is also an endlessly fascinating and entertaining take on the nature of humanity and the inner workings of the mind.

Mental Health Systems Compared R. Paul Olson,2006 The primary objective of this book is to provide comprehensive descriptions and make comparative evaluations of each of the mental health systems of four Western, industrialized countries. The countries selected illustrate a continuum from a highly centralized and publicly financed, national health service in Great Britain to a predominantly decentralized and more privately financed market of mental health services in the United States. In between these two contrasting types are examples of national health services and insurance programs in Norway and Canada. Contributing experts from each country begin their chapters with an overview of the geographic, demographic, political, economic, and cultural contexts in which their mental health systems are situated. Thereafter, they (a) present national data to estimate the need for mental health services, (b) describe national mental health policies and programs designed to meet their population's need, (c) indicate how mental health services are organized and delivered, and (d) discuss how their system is financed and provided resources. A common chapter outline facilitates comparisons among all four systems on relevant evaluation criteria: (a) access and equity, (b) quality and efficacy, (c) cost and efficiency, (d) financing and fairness, (e) protection and participation, and (f) population relevance. In the final section of each chapter, the authors provide recommendations for improved performance of their mental health system. In the initial chapter, the editor provides an overview, introduces the four countries selected, and defines the evaluation criteria applied by all contributing authors. The final two chapters address convergence and divergence among the four systems and provide recommendations for improvement and for future comparative studies. The intended audience includes mental health policymakers, program administrators and managers; teachers of graduate level courses relat

Linux Dictionary Binh Nguyen, This document is designed to be a resource for those Linux users wishing to seek clarification on Linux/UNIX/POSIX related terms and jargon. At approximately 24000 definitions and two thousand pages it is one of the largest Linux related dictionaries currently available. Due to the rapid rate at which new terms are being created it has been decided that this will be an active project. We welcome input into the content of this document. At this moment in time half yearly updates are being envisaged. Please note that if you wish to find a 'Computer Dictionary' then see the 'Computer Dictionary Project' at http://computerdictionary.tsf.org.za/ Searchable databases exist at locations such as: http://www.swpearl.com/eng/scripts/dictionary/ (SWP) Sun Wah-PearL Linux Training and Development Centre is a centre of the Hong Kong Polytechnic University, established in 2000. Presently SWP is delivering professional grade Linux and related Open Source Software (OSS) technology training and consultant service in Hong Kong. SWP has an ambitious aim to promote the use of Linux and related Open Source Software (OSS) and Standards. The vendor independent positioning of SWP has been very well perceived by the market. Throughout the last couple of years, SWP becomes the Top Leading OSS training and service provider in Hong Kong. http://www.geona.com/dictionary?b= Geona, operated by Gold Vision Communications, is a new powerful search engine and internet directory, delivering quick and relevant results on almost any topic or subject you can imagine. Development of Linguistic Linked Open Data Resources for Collaborative Data-Intensive Research in the Language Sciences Antonio Pareja-Lora,Maria Blume,Barbara C. Lust,Christian Chiarcos,2020-01-07

Making diverse data in linguistics and the language sciences open, distributed, and accessible: perspectives from language/language acquistiion researchers and technical LOD (linked open data) researchers. This volume examines the challenges inherent in making diverse data in linguistics and the language sciences open, distributed, integrated, and accessible, thus fostering wide data sharing and collaboration. It is unique in integrating the perspectives of language researchers and technical LOD (linked open data) researchers. Reporting on both active research needs in the field of language acquisition and technical advances in the development of data interoperability, the book demonstrates the advantages of an international infrastructure for scholarship in the field of language sciences. With contributions by researchers who produce complex data content and scholars involved in both the technology and the conceptual foundations of LLOD (linguistics linked open data), the book focuses on the area of language acquisition because it involves complex and diverse data sets, cross-linguistic analyses, and urgent collaborative research. The contributors discuss a variety of research methods, resources, and infrastructures. Contributors Isabelle Barrière, Nan Bernstein Ratner, Steven Bird, Maria Blume, Ted Caldwell, Christian Chiarcos, Cristina Dye, Suzanne Flynn, Claire Foley, Nancy Ide, Carissa Kang, D. Electronic Publishing for Physics and Astronomy Andre Heck,2012-12-06 The ship has left the Miraflores Locks, let loose from the 'mules' run by the crews of the Panama Canal Commission. She has picked up speed while passing under the Bridge of the Americas which links de facto the Northern and Southern parts of the continent, and has headed resolutely towards the Pacific Ocean waters along the rows of boats of all kinds waiting to cross the Canal in the other direction. Through a layer of tropical clouds, the setting Sun is bleakly illuminating the tall white highrises of Panama City on the port side. It took a full day to cautiously move through the whole system of locks and cuts. Back in the stateroom, I open again a working copy of this book and type down this foreword on the pocket computer. The last chapter was received the day before while speeding through the Caribbean Sea and my main work as Editor is now over. It has been a real pleasure and a great honour to be given the oppor tunity of compiling this book and interacting with the various contributors through the latest technologies while being sometimes in geographically very different places. The quality of the authors, the scope of experiences they cover, the messages they convey make of this book a unique and timely publication. The reader will certainly enjoy as much as I did going through such a variety of well-inspired chapters from so many different horizons.

Learning Ionic Arvind Ravulavaru,2015-07-24 With this book, you will learn hybrid mobile application development using Ionic. This book uses Cordova 5.0.0, Ionic CLI 1.5.0, and Ionic 1.0.0 to explain the concepts and build apps. To begin with, the book helps you understand where Ionic fits in today's world. Then, you will dive deep into Ionic CSS components and Ionic-AngularJS directives and services. You will also examine theming Ionic apps using the built-in SCSS setup. Next, you will learn to build an Ionic client for a secure REST API, where you will implement user authentication and token-based development. Cordova and ngCordova will be explored, and you will learn how you can integrate device-specific features such as a camera and Geolocation with an Ionic app. We will wrap up the book by building a messaging app, which deals with talking to Firebase (a real-time data store), as well as device features. By the end of this book, you will be able to develop a hybrid mobile application from start to finish, and generate device-specific installers.
