Why Can't We Just Get Along Anthony Hughes, 2021-08-17 This book combines the history of American descendants of slaves with contemporary events to explain the animus existing between the two Americas - one white, one black. WHY CAN'T WE ALL JUST GET ALONG answers Rodney's King's question by delving into the weeds of the true black experience in America - slavery, post-civil war black codes, Jim Crow segregation, Lynching, medical experimentation on men, women, and children, and race riots flaring up in every major city of the country. This unique odyssey illustrates the struggles, tears, and generations of the heartbreak of a race of people whom America would long to forget. Ignoring the fact that African-Americans built large segments of the United States, making it the wealthiest nation in the entire world, the world still views them under the lens of hate, disdain, and mistrust. Though they have proven their worth as a community, the dominant society still places them in a position at the bottom rung of society. Though unpublished when originally written in 2005, the unabridged history lessons included in this book are still applicable today.

**Why Good People Can't Get Jobs** Peter Cappelli, 2012-05-29 Peter Cappelli, Wharton management professor and director of Wharton's Center for Human Resources, debunks the arguments and exposes the real reasons good people can't get hired. Named one of HR Magazine's Top 20 Most Influential Thinkers of 2011, Cappelli points the way forward to rev America's job engine again.

**Nutrition and AIDS, Second Edition** Ronald Ross Watson, 2000-09-19 Evidence shows that nutritional supports can help maintain health in the HIV-infected patient by replacing lost nutrients, compensating for nutritional damage done by the retrovirus-induced immunodeficiency, and stimulating the remaining immune system and cells for better host defenses. This new edition of Nutrition and AIDS is a timely look at what dietary materials, supplements, and foods may benefit or treat AIDS, as well as nutritional deficiencies that can accelerate progression to AIDS and death. It offers a variety of alternative dietary and herbal remedies, including some that have been tested in animals and humans to stimulate immune defense or compensate for changes induced by HIV infection. In addition, it surveys items that may accelerate nutritional depletion in AIDS patients, such as cocaine, alcohol, and tobacco use. It includes data from animal studies modeling AIDS and nutrition, studies not yet done in humans but applicable to them. Including updated reviews on topics from the author's earlier publications on the subject, with a focus on how to use this nutritional information to treat or retard development of AIDS, Nutrition and AIDS brings to the forefront the most recent advances in understanding the nutritional deficiencies of AIDS and HIV-positive patients.

The Routledge Handbook of Second Home Tourism and Mobilities C. Michael Hall, Dieter Müller, 2018-04-17 Second homes have become an increasingly important component of both tourism and housing studies. They can directly and indirectly contribute a significant number of domestic and international visitors to destinations and may be part of longer-term retirement, lifestyle and amenity migration that can have significant economic and social effects on communities and destination development. This volume offers an overview of different disciplinary and methodological approaches to second homes while simultaneously providing a broad geographical reach. Divided into four parts exploring governance, development, community and mobile second homes, the book provides a contemporary account of the major issues in an area of growing international interest. This timely handbook covers a wide range of dimensions - from planning to the role of second homes in development and the management of their impact. The international and cross-disciplinary nature of the contributions will be of interest to numerous academic fields in the social sciences, as

well as urban and regional planners.

**TV Crime Drama** Sue Turnbull, 2014-06-23 This book provides an historical analysis of the TV crime series as a genre, paying close attention not only to the nature of TV dramas themselves, but also to the context of production and reception.

**The Truth About Obamacare** Sally C. Pipes, 2010-07-13 In her new book, *The Truth About Obamacare*, Sally C. Pipes—president of the Pacific Research Institute and an acknowledged expert on health care reform—reveals what Democrats in Congress and President Obama don't want you to know: Obamacare is even worse than most critics suspect. Debunking the myths that the current administration has touted, Pipes shows exactly what the new health care law will mean for you, your family, your doctor, and your wallet. She also reveals how, contrary to its promises, Obamacare will make health care more expensive, limit your options, lead to deteriorating medical care, and weaken America's already frail economy.

Jones & Bartlett Learning's Comprehensive Medical Assisting Judy Kronenberger, Julie Ledbetter, 2023-04 Designed to ensure that every medical assisting graduate can quickly trade a cap and gown for a set of scrubs, Jones & Bartlett Learning's *Comprehensive Medical Assisting*, Sixth Edition is more than just a textbook - it's an engaging, dynamic suite of learning resources designed to train medical assisting students in the administrative and clinical skills they'll need in today's rapidly changing health care environment. This edition has been updated to include the most current American Association of Medical Assistants (AAMA) curriculum standards for medical assistants in all three domains: cognitive, psychomotor, and affective. These standards are required for the Commission on Accreditation of Allied Health Education Programs (CAAHEP)-accredited programs. Available for purchase separately: Study Guide for Jones & Bartlett Learning's *Comprehensive Medical Assisting* comes with procedure skill sheets, case studies for critical thinking, and a variety of question types to meet the needs of different learning styles and to reinforce content and knowledge. Jones & Bartlett Learning's *Pocket Guide for Medical Assisting* gives step-by-step coverage of medical assisting procedures in both administrative and clinical settings. The small size makes it perfect for clinical and office use.

**You Can't Afford to Get Sick** Andrew Weil, M.D., 2010-12-28 With a two-week plan for optimum wellness, “America's best-known doctor” (*The New York Times*) shows you what you need to know to be in the best health and have the best care. The crisis in American health has hit home in very personal ways. Every thirty seconds someone in this country files for bankruptcy in the aftermath of a serious health problem. And although America spends more on health care than any other country, the World Health Organization recently ranked our health outcomes lowest among the developed nations. Now, in this visionary *New York Times* bestseller, world-renowned pioneer in the field of integrative medicine Andrew Weil, MD, busts the myths underpinning our health-care system and provides cogent strategies for change as well as specific prescriptive information explaining how—beginning with his two-week jumpstart plan for optimum wellness—to get and maintain good health.

*The Other Side of the Fence* Sheila L. Croucher, 2009-10-15 A growing number of Americans, many of them retirees, are migrating to Mexico's beach resorts, border towns, and picturesque heartland. While considerable attention has been paid to Mexicans who immigrate to the U.S., the reverse scenario receives little scrutiny. Shifting the traditional lens of North American migration, *The Other Side of the Fence* takes a fascinating look at a demographic trend that presents significant implications for the United States and Mexico. The first in-depth account of this trend, Sheila Croucher's study describes the cultural, economic, and political lives of these migrants of privilege. Focusing primarily on two towns, San Miguel de Allende in the mountains and Ajijic along the shores of Lake

Chapala, Croucher depicts the surprising similarities between immigrant populations on both sides of the border. Few Americans living in Mexico are fluent in the language of their new land, and most continue to practice the culture and celebrate the national holidays of their homeland, maintaining close political, economic, and social ties to the United States while making political demands on Mexico, where they reside. Accessible, timely, and brimming with eye-opening, often ironic, findings, *The Other Side of the Fence* brings an important perspective to borderlands debates.

**Google and the Law** Aurelio Lopez-Tarruella, 2012-02-23 Google's has proved to be one of the most successful business models in today's knowledge economy. Its services and applications have become part of our day-to-day life. However, Google has repeatedly been accused of acting outside the law in the development of services such as Adwords, Googlebooks or YouTube. One of the main purposes of this book is to assess whether those accusations are well-founded. But more important than that, this book provides a deeper reflection: are current legal systems adapted to business models such as that of Google or are they conceived for an industrial economy? Do the various lawsuits involving Google show an evolution of the existing legal framework that might favour the flourishing of other knowledge-economy businesses? Or do they simply reflect that Google has gone too far? What lessons can other knowledge-based businesses learn from all the disputes in which Google has been or is involved? This book is valuable reading for legal practitioners and academics in the field of information technologies and intellectual property law, economists interested in knowledge-economy business models and sociologists interested in internet and social networks. Dr. Aurelio Lopez-Tarruella is Senior Lecturer in Private International Law at the University of Alicante, Spain.

**Aging, Nutrition and Taste** Jacqueline B. Marcus, 2019-04-15 Approximately 380 million people worldwide are 60 years of age or older. This number is predicted to triple to more than 1 billion by 2025. *Aging, Nutrition and Taste: Nutrition, Food Science and Culinary Perspectives for Aging Tastefully* provides research, facts, theories, practical advice and recipes with full color photographs to feed the rapidly growing aging population healthfully. This book takes an integrated approach, utilizing nutrition, food science and the culinary arts. A significant number of aging adults may have taste and smell or chemosensory disorders and many may also be considered to be undernourished. While this can be partially attributed to the behavioral, physical and social changes that come with aging, the loss or decline in taste and smell may be at the root of other disorders. Aging adults may not know that these disorders exist nor what can be done to compensate. This text seeks to fill the knowledge gap. *Aging, Nutrition and Taste: Nutrition, Food Science and Culinary Perspectives for Aging Tastefully* examines aging from three perspectives: nutritional changes that affect health and well-being; food science applications that address age-specific chemosensory changes, compromised disease states and health, and culinary arts techniques that help make food more appealing to diminishing senses. Beyond scientific theory, readers will find practical tips and techniques, products, recipes, and menus to increase the desirability, consumption and gratification of healthy foods and beverages as people age. Presents information on new research and theories including a fresh look at calcium, cholesterol, fibers, omega-3 fatty acids, higher protein requirements, vitamins C, E, D, trace minerals and phytonutrients and others specifically for the aging population. Includes easy to access and usable definitions in each chapter, guidelines, recommendations, tables and usable bytes of information for health professionals, those who work with aging populations and aging people themselves. Synthesizes overall insights in overviews, introductions and digest summaries of each chapter, identifying relevant material from other chapters and clarifying their pertinence.

*Why Can't We Get It Right?* Marsha Speck, Carol Knipe, 2005-02-01 How can we use professional development to provide the best

teaching and learning opportunities for all students? Teachers who know their content and strategies can open a virtual toolbox and take out what they need to help all students become successful. This revised and updated edition explains how educational leaders can design, deliver, and evaluate collaborative standards-based professional development, and contains: Essential questions about high-quality professional development Information on creating the culture for a learning community Conditions and processes for professional development Suggestions on designing your own model Tools for evaluating and rethinking professional development and learning Strategies for deepening a leader's impact on a standards-based system

**The Teen's Ultimate Guide to Making Money When You Can't Get a Job** Julie Fryer, 2012 Making money is not about pinching pennies and cutting back on your cash flow: It is about making smart decisions. *The Teen's Ultimate Guide to Making Money When You Can't Get a Job* will put you on the right track to start earning your spending money, even if you cannot land one of those traditional first jobs. You will learn how to start exploring other options, such as pet sitting, babysitting, and tutoring. You will also grasp just how to leverage the Internet to help you make money by taking paid surveys, blogging, or even teaching your parents and their friends how to use social networks like Twitter and Facebook. Most importantly, you will discover how to take your hobbies and turn them into your personalized income generator.

**The Oxford Handbook of Reproductive Ethics** Leslie Francis, 2016-12-28 Intimate and medicalized, natural and technological, reproduction poses some of the most challenging ethical dilemmas of our time. Reproduction presses the boundaries of humanity and ethical respect, the permissible limits of technology, conscientious objection by health care professionals, and social justice. This volume brings together scholars from multiple perspectives to address both traditional and novel questions about the rights and responsibilities of human reproducers, their caregivers, and the societies in which they live. Among issues treated in the volume are what it is to be a parent, the responsibilities of parents, and the role of society in facilitating or discouraging parenting. May gamete donors be anonymous? Is surrogacy in which a woman gestates a child for others ethically permissible when efforts are made to prevent coercion or exploitation? Should it be mandatory to screen newborns for potentially serious conditions, or permissible to sequence their genomes? Are both parties to a reproductive act equally responsible to support the child, even if one deceived the other? Are there ethical asymmetries between male and female parents, and is the lack of available contraceptives for men unjust? Should the costs of infertility treatment be socially shared, as they are for other forms of health care? Do parents have a duty to try to conceive children under the best circumstances they can-or to avoid conception if the child will suffer? What is the status of the fetus and what ethical limits constrain the use of fetal tissue? Reproduction is a rapidly changing medical field, with novel developments such as mitochondrial transfer or uterine transplantation occurring regularly. And there are emerging natural challenges, too, with Zika virus just the latest. The volume gives readers tools not only to address the problems we now know, but ones that may emerge in the future as well.

**This Is Why We Can't Have Nice Things** Whitney Phillips, 2015-03-20 Why the internet troll problem is actually a culture problem: how online trolling fits comfortably within today's media landscape. Internet trolls live to upset as many people as possible, using all the technical and psychological tools at their disposal. They gleefully whip the media into a frenzy over a fake teen drug crisis; they post offensive messages on Facebook memorial pages, traumatizing grief-stricken friends and family; they use unabashedly racist language and images. They take pleasure in ruining a complete stranger's day and find amusement in their victim's anguish. In short,

trolling is the obstacle to a kinder, gentler Internet. To quote a famous Internet meme, trolling is why we can't have nice things online. Or at least that's what we have been led to believe. In this provocative book, Whitney Phillips argues that trolling, widely condemned as obscene and deviant, actually fits comfortably within the contemporary media landscape. Trolling may be obscene, but, Phillips argues, it isn't all that deviant. Trolls' actions are born of and fueled by culturally sanctioned impulses—which are just as damaging as the trolls' most disruptive behaviors. Phillips describes the relationship between trolling and sensationalist corporate media—pointing out that for trolls, exploitation is a leisure activity; for media, it's a business strategy. She shows how trolls, “the grimacing poster children for a socially networked world,” align with social media. And she documents how trolls, in addition to parroting media tropes, also offer a grotesque pantomime of dominant cultural tropes, including gendered notions of dominance and success and an ideology of entitlement. We don't just have a trolling problem, Phillips argues; we have a culture problem. This Is Why We Can't Have Nice Things isn't only about trolls; it's about a culture in which trolls thrive.

**Law and Regulation of Mobile Payment Systems** Joy Malala, 2017-11-28 Over the last ten years mobile payment systems have revolutionised banking in some countries in Africa. In Kenya the introduction of M-Pesa, a new financial services model, has transformed the banking and financial services industry. Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts. This book addresses the legal and regulatory issues arising out of the introduction of M-Pesa in Kenya and its drive towards financial inclusion. It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools, institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity. This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion. It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments. The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya.

**IIS 5 on Site** Scott Reeves, Kalinda Reeves, 2001 This book is a comprehensive guide to all aspects of the IIS 5 from initial installation planning through long-term maintenance. Provides a comprehensive reference for new installations of IIS 5 and for migrating from IIS 4 to IIS 5 covering planning, testing, migration, installation, and configuration. Discusses features of IIS 5, administration and performance, publishing Web pages, developing applications, transaction processing, and security. Focuses on hardware and capacity planning based on projected growth of the Web site and Internet deployment for e-business. Follows the On Site series how-to format with an emphasis on planning and installation, and includes extensive diagrams, decision trees, and screens shots.

**LGBT People and the UK Cultural Sector** John Vincent, 2016-05-06 This book examines the complex and conflicting relationships between LGBT people and our cultural and heritage organisations including libraries, museums and archives. In this unique book established author John Vincent draws together current good practice, and also highlights issues which urgently still need to be addressed. To set the work of libraries, museums and archives in context, Vincent traces the development of LGBT rights in the UK. He goes on to examine some of the reasons for hostility and hatred against this minority group and critically explores provision that has been made by cultural and heritage organisations. He offers examples of good practice - not only from the UK, but from across the world - and draws up an essential 'charter' for future development. This compelling, practical book should be read by managers and

staff in libraries, museums and archives around the world looking for guidance on this important issue.
