The Two-Second Advantage Vivek Ranadivé, Kevin Maney, 2011 Explores the science behind the brain's ability to act like a predictive machine, describing how today's computers and businesses are being developed with the same predictive capacities in order to better anticipate customer needs and prevent potential problems.

Everyone a Sheriff Martin Alan Greenberg, 2021-10-19 Volunteerism is the most effective, democratic, and humane anticrime strategy currently available to address issues of street crime and overall injustice. Ordinary citizens have taken on roles involving crime control and prevention. They have successfully done this within a rule of law framework, helping to create stronger social networks.

The Assignment Susan Grogan, 2004-04

Citizenship and Identity in the Age of Surveillance Pramod K. Nayar, 2015-02-12 This book is a study of cultures of surveillance, from CCTV to genetic data-gathering and the new forms of subjectivity and citizenship that are forged in such cultures. It studies data, bodies and space as domains within which this subjectivity of the vulnerable individual emerges. The book also proposes that we can see a shift within cultures of surveillance where, from active participation in the process of surveilling, a witness-citizen emerges. The book therefore seeks to alter surveillance as a mere top-down system, instead arguing that surveillance is also a mode of engagement with the world enabling trust, accountability and eventually a responsible humanitarianism.

Travel Wild Wisconsin Candice Gaukel Andrews, 2013-05-24 Have you ever heard a wolf howl in Wisconsin's Northwoods, watched thousands of ancient sturgeon roil the waters of one of the largest

inland lakes in the United States, or tagged a monarch butterfly before it begins one of the world's great migrations to its winter habitat in Mexico? Travel Wild Wisconsin is your seasonal guide to genuine wildlife encounters with an amazing array of birds, mammals, fish, and insects in Wisconsin's most beautiful natural settings: state wildlife areas, rivers, lakes, flowages, and preserves as well as national wildlife refuges and forests. Wisconsin native Candice Gaukel Andrews shares natural history and lore, accounts of her own experiences with Wisconsin wildlife, and insights from biologists, environmental educators, and citizen scientists, so that you can seek a wildlife encounter of your own. So come spy on the spring courtship dance of the greater prairie chicken, search for elusive and elegant white-tailed deer in summer, touch a tiny saw-whet owl on one special day in autumn, and thrill to the sound of thousands of tundra swans as they migrate through the Mississippi Flyway just before the first snow falls. Make this the year you Travel Wild Wisconsin.

Hospital Accommodation for Children and Young People NHS Estates,2005 This publication sets out best practice guidance on the design of healthcare facilities for children and adolescents, with the aim of creating a child-centred built environment. It is primarily intended for new-builds and upgrades of existing childrens facilities. Central considerations are alleviating fear and anxiety, maximising security and safety, reducing boredom, and creating a healing environment. Facilities should also cater for parents and siblings. Issues discussed include: general functional and design considerations, including patient groups, capacity planning, space, access and security requirements, play facilities and privacy aspects; design of specific service areas, including reception, out-patient and in-patient facilities; engineering services; and cost information.

Drainage Journal ,1892

Facilities for Rehabilitation Services NHS Estates,2004 This publication contains guidance on

the planning and design of facilities for rehabilitation services provided within acute general hospitals, as well as in a range of community settings. It adopts a modular approach to the topic, which describes facilities for separate elements of a general rehabilitation service that can be put together as circumstances require and according to local needs, to achieve good management and value for money in capital and revenue terms. Recognition is given to the need to make decisions locally, as close to the patient as possible, and the involvement of service users and representatives in the planning and design process is encouraged. Sections cover: general service considerations; environment and design considerations, operational aspects including health and safety, catering and domestic services, health records service and IT; general planning issues including parking, entrance and reception areas, clinical and therapeutic spaces; engineering considerations; and cost information. It also includes case studies of four different settings and a patient's perspective of using the services of a rehabilitation unit. This publication supersedes the previous edition (ISBN 0113224516) published in 2000.

Chinese Politics in the Era of Xi Jinping Willy Wo-Lap Lam,2015-03-12 Renowned for his coverage of China's elite politics and leadership transitions, veteran Sinologist Willy Lam has produced the first book-length study in English of the rise of Xi Jinping--General Secretary of the Chinese Communist Party (CCP) since November 2012. With rare insight, Lam describes Xi's personal history and his fascination with quasi-Maoist values, the factional politics through which he ascended, the configuration of power of the Fifth-Generation leadership, and the country's likely future directions under the charismatic princeling. Despite an undistinguished career as a provincial administrator, Xi has rapidly amassed more power than his predecessors. He has overawed his rivals and shaken up the party-state hierarchy by launching large-scale anti-corruption and rectification campaigns. With a

strong power base in the People's Liberation Army and a vision of China as an awakening lion, Xi has been flexing China's military muscle in sovereignty rows with countries including Japan, Vietnam, and the Philippines while trying to undermine the influence of the United States in the Asia-Pacific region. While Xi is still fine-tuning his art of governance, his zero tolerance for dissent and his preoccupation with upholding the privileges of the red aristocracy and the CCP's status as perennial ruling party do not bode well for economic, political, or cultural reforms. Lam takes a close look at Xi's ideological and political profile and considers how his conservative outlook might shape what the new strongman calls the Great Renaissance of the Chinese race.

Ethics in Action Daniel A. Bell,Jean-Marc Coicaud,2006-10-16 This book is the product of a multi-

year dialogue between leading human rights theorists and high-level representatives of international human rights NGOs (INGOs). It is divided into three parts that reflect the major ethical challenges discussed at the workshops: the ethical challenges associated with interaction between relatively rich and powerful northern-based human rights INGOs and recipients of their aid in the South; whether and how to collaborate with governments that place severe restrictions on the activities of human rights INGOs; and the tension between expanding the organization's mandate to address more fundamental social and economic problems and restricting it for the sake of focusing on more immediate and clearly identifiable violations of civil and political rights. Each section contains contributions by both theorists and practitioners of human rights.

Schooltalk Mica Pollock,2017-02-07 Words matter. Every day in schools, language is used—whether in the classroom, in a student-teacher meeting, or by principals, guidance counselors, or other school professionals—implying, intentionally or not, that some subset of students have little potential. As a result, countless students “underachieve,” others become disengaged, and, ultimately, we all lose. Mica Pollock, editor of Everyday Antiracism—the progressive teacher’s must-have

resource—now turns to what it takes for those working in schools to match their speech to their values, giving all students an equal opportunity to thrive. By juxtaposing common scenarios with useful exercises, concrete actions, and resources, Schooltalk describes how the devil is in the oft-dismissed details: the tossed-off remark to a student or parent about the community in which she lives; the way groups—based on race, ability, and income—are discussed in faculty meetings about test scores and data; the assumptions and communication breakdowns between counselors, teachers, and other staff that cause kids to fall needlessly through the cracks; or the deflating comment to a young person about her college or career prospects. Schooltalk will empower educators of every ilk, revealing to them an incredibly effective tool at their disposal to support the success of all students every day: their words.
