Richard W. Gombert

World Wrecker Richard W. Gombert,2009-10-01 Known as the World Wrecker for his galaxy-smashing space operas, Edmond Hamilton wrote intelligent, exciting, and readable science fiction for over 40 years. This first major bibliography of his work covers his enormous output and numerous reprint editions. All students of Hamilton--and all major libraries--will want a copy of this bibliographical labor of love.

Using Internet Primary Sources to Teach Critical Thinking Skills in Mathematics Evan M. Glazer,2001-08-30 Mathematics teachers and school library media specialists will find this book a valuable resource for using the Web to promote critical thinking in the high school mathematics classroom. It is filled with instructional strategies and an expansive set of activities that cover a broad array of mathematics topics spanning from prealgebra through calculus. Teachers using the questions and activities in this book will help their students meet the standards set forth by the National Council for Teachers of Mathematics. Various types of mathematics related sources on the Internet are outlined within this book, including data and simulations related to real world situations such as saving funds and computing interest earned for college, purchasing a home, or decoding train and plane schedules. The author develops a framework for critical thinking in mathematics and helps teachers create a supportive classroom environment. Each activity highlights a web source, the mathematics topics involved, the appropriate grade levels of study, possible student investigations, and related web sources for continued exploration, promoting a student-centered inquiry.

JEBPS Vol 9-N2 Journal of Evidence-Based Practices for Schools,2009-04-16 The Journal of Evidence-Based Practices for Schools is a leader in publishing research-to-practice articles for educators and school psychologists. The mission of this journal is to positively influence the daily practice of school-based professionals through studies demonstrating successful research-based practices in educational settings. As a result, the editors are committed to publishing articles with an eye toward improving student performance and outcomes by advancing psychological and educational practices in the schools. They seek articles using non-technical language that (1) outline an evidence-based practice, (2) describe the literature supporting the effectiveness and theoretical underpinnings of the practice, (3) describe the findings of a study in which the practice was implemented in an educational setting, and (4) provide readers with information they need to implement the practice in their own schools in a section entitled Implementation Guidelines. The Journal of Evidence-Based Practices for Schools differs from other scholarly journals in that it features articles that demonstrate empirically-based procedures for readers to apply the practice in their setting.

Financial Cryptography and Data Security Roger Dingledine,Philippe Golle,2009-07-21 This volume contains the proceedings of the 13th International Conference on Financial Cryptography and Data Security, held at the Accra Beach Hotel and Resort, Barbados, February 23–26, 2009. Financial Cryptography and Data Security (FC) is a well-established international forum for research, advanced development, education, exploration and debate regarding information assurance in the context of finance and commerce. The conference covers all aspects of securing transactions and systems. The goal of FC is to bring security and cryptography researchers and practitioners together with economists, bankers, and policy makers. This year, we assembled a vibrant program featuring 21 peer-reviewed research paper presentations, two panels (on the economics of information security and on authentication), and a keynote address by David Dagon. Despite a proliferation of security and cryptography venues, FC continues to receive a large number of high-quality submissions. This year, we received 91 submissions(75full-lengthpapers,15shortpapersand1panel).Eachsubmission was reviewed by at least three reviewers. Following a rigorous selection, ranking and discussion process, the Program Committee accepted 20 full-length papers, 1 short paper and 1 panel. The overall acceptance rate was 24%.

A Principal's Guide to Literacy Instruction Carol S. Beers,James W. Beers,Jeffrey O. Smith,2009-11-20 This succinct, engaging book explains how busy elementary school principals can support effective literacy instruction in their schools. Chapters outline the fundamental components of a successful literacy program and describe specific practices that can instill a culture of literacy in a school. Strategies are provided for initiating a professional development program, understanding and using appropriate assessments with students, involving parents in literacy education, and assessing the strengths and weaknesses of teachers' instructional methods. Drawing from the authors' extensive experience as principals and teachers, the book's numerous examples demonstrate what strong literacy leadership looks like in action. Helpful reproducibles are included.
