Identity Politics in the Age of Genocide David B. MacDonald, 2007-09-28 In an era of globalization and identity politics, this book explores how Holocaust imagery and vocabulary have been appropriated and applied to other genocides. The author examines how the Holocaust has impacted on other ethnic and social groups, asking whether the Holocaust as a symbol is a useful or destructive means of reading non-Jewish history. This volume: explains the rise of the Holocaust as a gradual process, charting how its importance as a symbol has evolved, providing a theoretical framework to understand how and why non-Jewish groups choose to invoke 'holocausts' to apply to other events explores the Holocaust in relation to colonialism and indigenous genocide, with case studies on America, Australia and New Zealand analyzes the Holocaust in relation to war and genocide, with case studies on the Armenian genocide, the Rape of Nanking, Serbia and the Rwandan genocide examines how the Holocaust has been used to promote animal rights. Demonstrating both the opportunities and pitfalls the Holocaust provides to non-Jewish groups who seek to represent their collective histories, this book fills a much needed gap on the use of the Holocaust in contemporary identity politics and will be of interest to students and researchers of politics, the Holocaust and genocide.

America and the Indo-Pacific Harsh Pant, Kashish Parpiani, 2021-06-28 This book offers an extensive account of Donald Trump's foreign policy record in the Indo-Pacific region. Set against the backdrop of Trump's policy of sustained US confrontation with China, it recounts his administration's efforts to shore up America's position with the Indo-Pacific strategy. It also reviews Trump's record with allies and partners in the Indo-Pacific and the South Asian subregion in context of the 'great power competition' between China and the United States. Amidst the ongoing conversations on the declining currency of American internationalism, the volume showcases the seeming insularity of the Indo-Pacific region from forces that are informing an America in retreat. In noting Trump's record to have been a consequential one, the authors also offer insights into the prospects for US policy continuity under Joe Biden. This timely book will be of great interest to scholars, teachers, and students of politics and international relations, Asia studies, US-China studies, area studies, foreign policy, maritime studies, and world politics. It is a recommended read for all watchers of US foreign policy and the evolving US-China rivalry.

China's Crisis Behavior Kai He, 2016-04-06 The first study to systematically analyze the patterns of China's foreign policy crisis behavior after the Cold War.

To Asia with Love Kim Fay, 2004 Imagine that on the eve of your upcoming trip to Cambodia, Laos, Thailand, and Vietnam, you are invited to a party. At this party are fifty guests, all of whom live in or have traveled extensively through these countries. Among this eclectic and well-versed group of connoisseurs are authors of acclaimed guidebooks, popular newspaper columnists and pioneering adventurers. As the evening passes, they tell you tales from their lives in these exotic places. They whisper the names of their favorite shops and restaurants; they divulge the secret hideaways where they sneak off to for an afternoon (or a weekend) to unwind. Some make you laugh out loud, and others mesmerize you with their poetry and lyricism. Some are intent on educating, while others just want to entertain. Their attitudes are as unique as their personalities, but they are united in one thing ... their love of the region. If you can envision being welcomed at such a party, then you can envision the experience that this guidebook aspires to give you. Within these pages you will find tips for adventuring, eating, shopping, and sightseeing from savvy expatriates, seasoned travelers, and inspired locals. Unlike the typical guidebook, *To Asia With Love* does not offer a comprehensive overview, but instead presents selected recommendations in the form of personal essays and tidbits, each of which is paired with a practical fact file. Discover the benefits of carrying a baseball glove in Laos, go bird watching in the Thai everglades, take a motorbike into the Cardamom Mountains of Cambodia, and immerse yourself in modern art in Vietnam. In addition, one chapter focuses solely on opportunities for giving back to the countries you visit.

The Reality of the Artificial Massimo Negrotti, 2012-06-05 The human ambition to reproduce and improve natural objects and processes has a long history, and ranges from dreams to actual design,

from Icarus's wings to modern robotics and bioengineering. This imperative seems to be linked not only to practical utility but also to our deepest psychology. Nevertheless, reproducing something natural is not an easy enterprise, and the actual replication of a natural object or process by means of some technology is impossible. In this book the author uses the term *naturoid* to designate any real artifact arising from our attempts to reproduce natural instances. He concentrates on activities that involve the reproduction of something existing in nature, and whose reproduction, through construction strategies which differ from natural ones, we consider to be useful, appealing or interesting. The development of *naturoids* may be viewed as a distinct class of technological activity, and the concept should be useful for methodological research into establishing the common rules, potentialities and constraints that characterize the human effort to reproduce natural objects. The author shows that a *naturoid* is always the result of a reduction of the complexity of natural objects, due to an unavoidable multiple selection strategy. Nevertheless, the reproduction process implies that *naturoids* take on their own new complexity, resulting in a transfiguration of the natural exemplars and their performances, and leading to a true innovation explosion. While the core performances of contemporary *naturoids* improve, paradoxically the more a *naturoid* develops the further it moves away from its natural counterpart. Therefore, *naturoids* will more and more affect our relationships with advanced technologies and with nature, but in ways quite beyond our predictive capabilities. The book will be of interest to design scholars and researchers of technology, cultural studies, anthropology and the sociology of science and technology.

Alibaba Hong Shen, 2021-07-11 This book examines the political-economic dynamics in the development of a leading global Internet giant: Alibaba. As both a prominent example of, as well as providing the basic infrastructure for, China's outward expansion, Alibaba demonstrates the complex interplay between different state agencies and units of capital in the context of the rise of global China. Hong Shen investigates the development and expansions of Alibaba and discusses how Alibaba has not only become a leader of China's increasingly globalizing internet but has also increasingly served as a basic infrastructure model for other Chinese companies to go global. Shen also addresses how this process has been constantly shaped and reshaped by complex state-capital interactions along the way. This book shows how different units of capital, both inside and outside of China, have interacted with Alibaba's developmental strategies and illustrates how different state agencies, both domestic and international, have enabled or constrained the company's development, especially its global expansion. This book will appeal to students and scholars of critical political economy of media, global media and digital industries, communication, technology and society, and internet studies. It will also be relevant to policy-makers working in the arena of global internet and trade policies.

What We Owe Each Other Minouche Shafik, 2022-08-23 From one of the leading policy experts of our time, an urgent rethinking of how we can better support each other to thrive Whether we realize it or not, all of us participate in the social contract every day through mutual obligations among our family, community, place of work, and fellow citizens. Caring for others, paying taxes, and benefiting from public services define the social contract that supports and binds us together as a society. Today, however, our social contract has been broken by changing gender roles, technology, new models of work, aging, and the perils of climate change. Minouche Shafik takes us through stages of life we all experience—raising children, getting educated, falling ill, working, growing old—and shows how a reordering of our societies is possible. Drawing on evidence and examples from around the world, she shows how every country can provide citizens with the basics to have a decent life and be able to contribute to society. But we owe each other more than this. A more generous and inclusive society would also share more risks collectively and ask everyone to contribute for as long as they can so that everyone can fulfill their potential. *What We Owe Each Other* identifies the key elements of a better social contract that recognizes our interdependencies, supports and invests more in each other, and expects more of individuals in return. Powerful, hopeful, and thought-provoking, *What We Owe Each Other* provides practical solutions to current challenges and demonstrates how we can build a better society—together.

China's Strategic Arsenal James M. Smith, Paul J. Bolt, 2021-04-01 This volume brings together an international group of distinguished scholars to provide a fresh assessment of China's strategic military capabilities, doctrines, and its political perceptions in light of rapidly advancing technologies, an expanding and modernizing nuclear arsenal, and increased great-power competition with the United States.

Teacher Empowerment and Cultural Context Shanthi Thomas, 2017-11-01 Teacher empowerment is a psychological and socio-structural motivational process that enhances teacher performance and self-expression. The current conceptualisations of Teacher Empowerment, available in extant literature, have been constructed in an Anglo-Saxon, western cultural context. There have been attempts to transfer the concept to Asian countries, but these attempts were faced with major obstacles since the underlying cultural assumptions are not the same across countries. This book treads new ground by redefining Teacher Empowerment in the cultural context of South East Asia. Using the case of Brunei Darussalam which has a unique socio-cultural make-up as a melting pot of Malay, Chinese and other Asian cultures, the book offers a unique insight how the Teacher Empowerment dynamics is played out in this context. Covering more than just empowering leadership in schools, the author explores how colleagues, parents, and students empower teachers, and how teachers empower themselves. This book is a valuable guide for educators and educational leaders and researchers in Southeast Asia and beyond, who are committed to the empowerment of teachers, and the qualitative enhancement of the field of education as a whole.

Globalization Frank J. Lechner, 2009-03-16 GLOBALIZATION "Lechner has drawn on his extensive work on, and his deep knowledge of, globalization to write a brief, accessible, and highly successful introduction to the field. The early chapters on food, sport, and mass media should pique the student's interest and lure them into a deeper involvement with later chapters and the field in general." George Ritzer, University of Maryland "Frank Lechner's text takes on key issues in the study of globalization with real clarity and critical power. An authoritative account of the major issues, theories, and debates in the field, aptly illustrated by diverse contemporary examples, this text offers a clear analysis of a complex topic that will be an invaluable resource for students and scholars." Fran Tonkiss, London School of Economics Written in a lively and accessible style, *Globalization: The Making of World Society* shows how globalization affects everyday experience, creates new institutions, and presents new challenges. With many examples, Lechner describes how the process unfolds in a wide range of fields, from sports and media to law and religion. While sketching the outlines of a world society in the making, the book also demonstrates that globalization is inherently diverse and contentious. In this concise analysis of a complex subject, Lechner presents some of the best work in the social sciences in clear and readable fashion. *Globalization: The Making of World Society* will serve as a stimulating, state-of-the-art text for any student of globalization, beginner or advanced.

Yellowstone Hunt Janin, Nicole Sheehan, 2021-12-13 Yellowstone National Park is the focal point of the 22-million-acre, multifaceted Greater Yellowstone Ecosystem, located in northwestern Wyoming and in parts of eastern Idaho and Montana. Yellowstone has a uniquely American identity as a place where nature--largely untouched and unmanaged--is allowed to flourish. This is a detailed survey that blends Yellowstone's past into its present and explores its likely future. It covers the first inhabitants of the area; the explorers and visionary conservationists who first brought Yellowstone to public attention; the unsung early heroes of the park's ranger service; and the flora, fauna, and spectacular geology of the region. The book also covers the possible future paths for the park in light of global climate change.

Financial Risk Management and Modeling Constantin Zopounidis, Ramzi Benkraiem, Iordanis Kalaitzoglou, 2021-09-13 Risk is the main source of uncertainty for investors, debtholders, corporate managers and other stakeholders. For all these actors, it is vital to focus on identifying and managing risk before making decisions. The success of their businesses depends on the relevance of their decisions and consequently, on their ability to manage and deal with the different types of risk. Accordingly, the main objective of this book is to promote scientific research in the different areas of risk management, aiming at being transversal and dealing with different aspects of risk management related to corporate finance as well as market finance. Thus, this book should provide useful insights for academics as well as professionals to better understand and assess the different types of risk.

Powerful Patriots Jessica Chen Weiss, 2014 'Powerful Patriots' examines the role of nationalist protest in China's foreign relations from 1978 to 2012, arguing that the Chinese government's decision to allow or repress potentially destabilizing anti-foreign street demonstrations reveals information about its resolve and willingness to compromise in diplomacy.

Making Saints in Modern China David Ownby, Vincent Goossaert, Ji Zhe, 2016-11-01 Sainthood has been, and remains, a contested category in China, given the commitment of China's modern leadership to secularization, modernization, and revolution, and the discomfort of China's elite with matters concerning religion. However, sainted religious leaders have succeeded in rebuilding old institutions and creating new ones despite the Chinese government's censure. This book offers a new perspective on the history of religion in modern and contemporary China by focusing on the profiles of these religious leaders from the early 20th century through the present. Edited by noted authorities in the field of Chinese religion, *Making Saints in Modern China* offers biographies of prominent Daoists and Buddhists, as well as of the charismatic leaders of redemptive societies and state managers of religious associations in the People's Republic. The focus of the volume is largely on figures in China proper, although some attention is accorded to those in Taiwan, Hong Kong, and other areas of the Chinese diaspora. Each chapter offers a biography of a religious leader and a detailed discussion of the way in which he or she became a saint. The biographies illustrate how these leaders deployed and sometimes retooled traditional themes in hagiography and charismatic communication to attract followers and compete in the religious marketplace. Negotiation with often hostile authorities was also an important aspect of religious leadership, and many of the saints' stories reveal unexpected reserves of creativity and determination. The volume's contributors, from the United States, Canada, France, Italy, China, and Taiwan, provide cutting-edge scholarship. Taken together, these essays make the case that vital religious leadership and practice has existed and continues to exist in China despite the state's commitment to wholesale secularization.

Taiwan's Relations with Mainland China Chi Su, 2008-09-11 Taiwan's Relations with Mainland China is the first book to deal with the role of Taiwan's leadership politics, including the personal

political styles of Lee Teng-hui and Chen Shui-bian, in the development of Taiwan's mainland policy and the consequences for U.S.-Taiwan relations. Including analysis of the critical and volatile 1988-2004 period, the Taiwan Straits crisis and cross-strait tension associated with the 2004 Taiwan presidential campaign, Su Chi weaves in his personal participation in Taiwan policy making during critical periods in Taiwan's diplomatic history to provide insight and information on cross-strait relations that is not available elsewhere. As a study of Taiwan's mainland and US policy this will be a fascinating read for students and scholars of Taiwan Politics, Chinese Foreign Policy and East Asian Security studies alike.
