Character for Life Don Hawkinson,2005 An in depth study of famous American men and women who exhibited tremendous character in their respective eras. Meet Scripture-guided reformers like David Brainard and Sojourner Truth. Don Hawkinson has crafted an amazing book that records the true character and nature of early Americans, from the political, religious, and social justice arenas, includes well-known figures like George Washington, to more obscure great Americans like John Witherspoon and Benjamin Rush. Each profile runs 6 -- 12 pages and provides readers/students with concise information for reports and presentations.

Journal of Character Education Jacques S. Benninga,Marvin W Berkowitz,2018-12-01 The Journal of Character Education is the only professional journal in education devoted to character education. It is designed to cover the field—from the latest research to applied best practices. We include original research reports, editorials and conceptual articles by the best minds in our field, reviews of the latest books, and other relevant strategies and manuscripts by educators that describe best practices in teaching and learning related to character education. The Journal of Character Education has for over a decade been the sole scholarly journal focused on research, theory, measurement, and practice of character education. This issue includes a Voices section highlighting the 2017 Character.org Sandy Award recipient, along with four peer-reviewed articles, and a book review.

Intermediate Chinese Yong Ho,2005 This continuation builds on the material in the earlier book, allowing users to expand their familiarity with Mandarin Chinese. The new audio CD feature is especially helpful to learning and understanding the language as spoken. The ten lessons, although similar in structure to those in the earlier volume, provide a stronger emphasis on grammar and vocabulary. The glossary features vocabulary lists from both volumes.

Adolescents in the Search for Meaning Mary L. Warner,2006 As is painfully evident from the reports of school shootings, gang violence, dysfunctional family life, and from statistics on adolescent suicide, many teens live troubled lives. Even those who live a normal life still face the challenges adults face, but teens are also engaged in establishing independence and finding their identity. However, few adolescents have the same resources as adults for surviving life challenges. Building from the idea that story is a powerful source of meaning, particularly those stories that resonate with our own lives, this book suggests that the stories of other young adults offer a resource yet to be fully tapped. *Adolescents in the Search for Meaning* begins from the perspective of young adults by sharing the results of a survey of over 1400 teens and also includes the insights of authors of Young Adult Literature. The book presents over 120 novels that teens have identified as meaningful as well as books recommended by YA authors and experts in the field of YA literature. For any teacher, librarian, parent or counselor wanting to reach young adults, this book is ideal.

Modern Character Julian Murphet,2023-12-12 How was modern character made or remade at the turn of the twentieth century? *Modern Character: 1888-1905* considers a range of literary and dramatic texts, showcasing the extraordinary efforts of various writers to rethink and reinvent 'human character' during this period. Arguing that many of the most significant breakthroughs happened in the small theatres of Europe in the 1890s, the book's first section demonstrates how the countervailing currents of Naturalism and Symbolism created a vortex in which time-honoured truisms about character consistency, depth, and verisimilitude were jettisoned. Works by Ibsen, Strindberg, Maeterlinck, and Chekhov provide evidence of a searching and critical campaign against assumed models of characterization. The second section turns to contemporary prose narratives, with attention to Knut Hamsun, Oscar Wilde, Joris-Karl Huysmans, Gabriele D'Annunzio, Henry James, George Egerton, Edith Wharton, Kate Chopin, and Joseph Conrad, to ask what writers working in the novel, novella, and short-story forms were doing to contest prevailing expectations about represented persons. Inconsistency, bad faith, fragmentation, and unconscious motives creep into the character spaces of these fictions. Character description recedes and plots disintegrate; a penumbral negativity intrudes just where identification and sympathy might have been achieved. Ultimately, Julian Murphet proposes that the 'modern character' emerging over this decade and a half presents a radical rethinking of a venerable category of narrative and dramatic art, with profound consequences for the coming century.

Progressive Psychoanalysis as a Social Justice Movement Scott Graybow,2017-01-06 This edited volume challenges our negative and incorrect definitions of psychoanalysis by focusing on the notion that psychoanalysis once was, and can once again be, a movement for social justice. Taking the work of Erich Fromm as a guide, the chapters in this volume highlight psychoanalysis' social justice origins, while illustrating how psychoanalysis – in both an interpretive role and as a clinical tool – can improve our understanding of contemporary social problems and address the effects of those problems within the clinical setting.

The Future, Declassified Mathew Burrows,2014-09-09 Expanding on the most recent Global Trends report, forecasts the tectonic shifts that will drive us to 2030, taking into account global warming, the growth of a global middle class, and a shift in economic power to the East.

China's Asian Dream Tom Miller,2017-02-01 China, Napoleon once remarked, is a sleeping lion. Let her sleep, for when she wakes she will shake the world. In 2014, President Xi Jinping triumphantly declared the lion had awakened. Under his leadership, China is pursuing a dream to restore its historical position as the dominant power in Asia. From the Mekong River Basin to the Central Asian steppe, China is flexing its economic muscles for strategic ends. By setting up new regional financial institutions, Beijing is challenging the post-World War II order established under the watchful eye of Washington. And by funding and building roads, railways, ports and power lines—a New Silk Road across Eurasia and through the South China Sea and Indian Ocean—China aims to draw its neighbours ever tighter into its embrace. Combining a geopolitical overview with on-the-ground reportage from a dozen countries, China’s Asian Dream offers a fresh perspective on the rise of China’ and asks: what does it means for the future of Asia?

Reclaiming the Strike Zone Victor Alexander Baltov,2012-09-18 America has steadily regressed from a Republic under the Sign of the Cross towards a mobacracy under the Sign of the Scorpion. Social responsibility and the ethics of conscience have vacated the Field of Dreams like a Baroid tater -- an all about me cult of celebrity has evolved. Reclaiming the Strike Zone traces the metaphorical cleat marks through forbidden history. The Inside Baseball version of the Soviet Socialist Paradise and Nazi Germany is pitched shekel free. Sub-systems of the American superstructure featuring education, entertainment, youth activities and family are explored in-depth. The search for something that has been lost -- the secret of the American Dream and American Exceptionalism -- is pursued. All base paths lead to the Christian Church and Jewish Nation. Wise Christian philosophy has been Billy-Goated off the playing field -- secular humanism has taken The Hill. Karl Marx and Sigmund Freud have taken a turn at-bat and gone long. Red tide has been harnessed into Economic Determinism by the F&F Boys. The hidden ball trick has been pulled on the sheeple. Disciples of General Zod lack American patriotism. Time is of the essence to restore what has been taken -- its the bottom of the 9th with two away. DO IT AMERICAN and dont give up the ship are battle cries. Intellectual Millenials must step up to the plate and reclaim what their baby booming Spock baby parents baptized in Dewey waters booted. Identifying the proton pseudos and resetting is the task. Restoring sub-systems [especially education] while playing small ball is the answer. Truth and patriotic leadership are catalysts. A burning desire to be an American -- free and independent -- without getting JFKd is the secret. There is a happy ending -- it is certain. The Good News delivers that promise.

Vygotsky and Marx Carl Ratner,Daniele Nunes Henrique Silva,2017-04-11 This important book fills two interrelated gaps in the field of psychology, first by developing a Marxist orientation to psychology and second by explaining how psychological pioneer Lev Vygotsky contributed greatly to this trend. Through outlining core principles in Marxist psychology, the book offers a framework for continuing Vygotsky’s Marxist legacy in new areas of the field. This book first documents the neglect in Vygotskyian studies of his deep use of Marxist concepts, and then subsequent chapters overcome this neglect. They explain the use of many Marxist concepts in his theoretical and methodological writings, demonstrating how Vygotsky utilized specific Marxist meanings in his work on consciousness, signs, development, imagination, creativity, secondary language acquisition, and unit of analysis. Chapters also address how Vygotsky dealt with incompatible theories and methodologies, illustrating how Marxist and Vygotskyian psychology can grow from anti-Marxist, anti-Vygotskyian approaches to psychology, such as psychoanalysis. This book marks an original contribution to the field of psychology, offering a new understanding of both Vygotsky’s work and cultural and Marxist psychology. Furthermore, it expands the field of Marxism to include psychology. It will be of interest to all students and researchers of cultural, educational, and developmental psychology as well as the history of psychology. It will also appeal to social theorists and Marxist scholars.

Securing the Belt and Road Initiative Alessandro Arduino,Xue Gong,2018-02-01 This collection explores the expansion of Chinese outbound investments, aimed to sustain the increased need for natural resources,

and how they have amplified the magnitude of a possible international crisis that the People’s Republic of China may face in the near future by bringing together the views of a wide range of scholars. President Xi’s Belt and Road initiative (BRI), aimed to promote economic development and exchanges with China for over 60 countries, necessitates a wide range of security procedures. While the threats to Chinese enterprises and Chinese workers based on foreign soil are poised to increase, there is an urgent need to develop new guidelines for risk assessment, special insurance and crisis management. While the Chinese State Owned Enterprises are expanding their international reach capabilities, they still do not have the capacity to assure adequate security. In such a climate, this collection will be of profound value to policy makers, those working in the financial sector, and academics.
