*Death and Taxes* Johann van Loggerenberg, 2018-07-13

Nothing in life is certain, except death and taxes – or so the expression goes. And over the past two decades South African criminals and tax dodgers have come to realise this truth the hard way. Tax sleuth Johann van Loggerenberg was at the centre of many of SARS' high-profile cases during his time there. As far as SARS is concerned all forms of income are subjected to tax, even if by ill-gotten means. Whether you are a drug dealer from Durban, one of the hitmen who shot Brett Kebble or soccer boss Irvin Khoza, you have to pay your dues! Van Loggerenberg relates the riveting inside stories of the investigations into businessmen like Dave King, Billy Rautenbach, Barry Tannenbaum and his ponzi scheme, and others. Over the years he got to know all the scams and dirty tricks in the book and he explains these in plain language. In these investigations the tax authority worked closely with the police, the NPA and the Directorate of Special Operations. However, after a few years SARS became the victim of its own success. In telling the stories of how tax evaders were caught, Van Loggerenberg also shows how the power struggle between different state departments and the phenomenon of state capture in recent years started crippling SARS.

**Ethics Challenges in Forensic Psychiatry and Psychology Practice** Ezra E. Griffith, 2018-03-06 Forensic psychiatry and psychology involve specialized practice with unique patients, including children, the incarcerated, and involuntary clients, presenting practitioners with specific ethics challenges. In this volume, Ezra E. H. Griffith offers a selection of engaging essays that guide practicing forensic specialists through particular situations that often result in ethics dilemmas. In chapters covering topics such as forensic practice and critical feminist theory, neuroethics in court, work with asylum applicants, and ethics problems presented by the internet, the contributors demonstrate methods to help practitioners resolve problems that

they are likely to encounter in forensic practice. The concentrated focus on thinking through ethics quandaries encourages forensic practitioners to reflect regularly on the ethics dimensions of their work and provides them with the tools to create ethics-based solutions that are transparent and understandable and best serve their clients. This essential book provides a roadmap for specialists in these evolving fields to recognize dilemmas through reflection and consideration, thoughtfully articulate the problems, and create solutions.

Ahmed,2003-01-01 Using official sources, Ahmed investigates U.S. and British claims about Iraq's WMD programs and in the process reveals the hidden motives behind the 2003 invasion and the grand strategy of which it is a part. He shows that the true goals of U.S.-British policy in the Middle East are camouflaged by spin, P.R. declarations and seemingly noble words. The reality can only be comprehended through knowledge of the history of Western intervention in the region. Ahmed demonstrates that such intervention has been dictated ruthlessly by economic and political interests, with little regard for human rights. He traces events of the past decades, beginning with the West's support for the highly repressive Shah of Iran, his subsequent usurpation by the Ayatollah's Islamist regime and the West's resultant backing of Saddam Hussein.

*Victims* Ross McGarry,Sandra Walklate,2015-06-05 The study of victims of crime is a central concern for criminologists around the world. In recent years, some victimologists have become increasingly engaged in positivist debates on the differences between victims and non-victims, how these differences can be measured and what could be done to improve the victims' experience of the criminal justice system. Written by experts in the field, this book embraces a much wider understanding of social harms and asks which victims' voices are heard and why. McGarry and Walklate break new ground with this innovative and

accessible book; it offers a broad discussion of social harms, the role of the victim in society and the inter-relationship between trauma, testimony and justice and asks: how has harm been understood and under what circumstances have those harms been recognised? how and under what circumstances are those harms articulated? how and under what circumstances are the voices of those who have been harmed listened to? Each chapter draws on case studies and a range of questions designed to assist in reflection and critical engagement. This book is perfect reading for students taking courses on victimology, victims and society, victims' rights and criminal justice.

**Drugged Out** Suzette A. Haughton, 2011-05-16 This book explores drug trafficking within the context of globalisation and examines state instituted responses to curb this problem. It demystifies Jamaican, British, and American states' roles in the face of drug trafficking, arguing that both developed and developing states pursue their interests and maximize their goals by exercising state-power.

Hannah Arendt Anne C Heller, 2022-03-01 The acclaimed biographer presents “a perceptive life of the controversial political philosopher” and author of *Eichmann in Jerusalem* (Kirkus Reviews). Hannah Arendt was a polarizing cultural theorist—extolled by her peers as a visionary and berated by her critics as a poseur and a fraud. Born in Prussia to assimilated Jewish parents, she escaped from Hitler’s Germany in 1933. Arendt is now best remembered for the storm of controversy that surrounded her 1963 *New Yorker* series on the trial of Adolf Eichmann, a kidnapped Nazi war criminal. Arendt’s first book, *The Origins of Totalitarianism*, single-handedly altered the way generations around the world viewed fascism and genocide. Her most famous work, *Eichmann in Jerusalem*, created fierce debate that continues to this day, exacerbated by the posthumous

discovery that she had been the lover of the philosopher and Nazi sympathizer Martin Heidegger. In this comprehensive biography, Anne C. Heller tracks the source of Arendt's contradictions and achievements to her sense of being a "conscious pariah"—one of those rare people who doesn't "lose confidence in ourselves if society does not approve us" and will not "pay any price" to gain the acceptance of others.
