*Tank Driver* J. Ted Hartman, 2003-06-04 A chronicle of one soldier's life as a US army tank driver in Europe during World War II. Tank Driver is the story of a young man's combat initiation in World War II. Based on letters home, the sparse narrative has the immediacy of on-the-spot reporting. Ted Hartman was a teenager when he was sent overseas to drive a Sherman tank into combat to face the desperate German counterattack known as the Battle of the Bulge. Hartman gives a riveting account of the shifting tides of battle and the final Allied breakout. He tells about the concentration camps, the spectacle of the defeated Germans, and the dramatic encounter with Russian soldiers in Austria that marked combat's end. This is a vivid, personal account of some of the most dramatic fighting of World War II. "[A] well-balanced, often moving look at one man's war and every man's war." –World War II

Information as a Driver of Sustainable Finance Nadia Linciano, Paola Soccorso, Claudia Guagliano, 2022-06-30 The Sustainable Development Goals introduced by the United Nations in 2016 call for the significant mobilisation of finance. However, although sustainable investments are steadily increasing, there still remain large gaps within financing and the information that financial markets rely on is often incomplete or incorrect. For instance, the financial system has been structured around short-term frameworks and goals while the most pressing environmental and social challenges are long-term. Prices do not convey the cost of externalities associated with social and environmental challenges. It is therefore important to implement the effective pricing of externalities and create a common language and taxonomy between investors, issuers and policy-makers in order to best serve sustainable development. Addressing this challenge, the authors delve deeper into the levers that can be pulled within the financial system to prompt an efficient ecosystem of sustainability-related information, allowing social and environmental externalities to be incorporated into the decision-making process of all market agents. Incentives needed for investors, issuers and intermediaries are proposed along with regulation that can trigger these incentives. This book offers a comprehensive collection of chapters which explore the ongoing evolution of the European regulatory framework, providing essential reading for policymakers, practitioners and researchers alike.

Caroline Cooney Pamela S. Carroll, 2001 Cooney's large body of work for adolescents defies easy classification. She has written award-winning adventure, suspense, romance, family, mystery, and historical fiction, as well as action-driven horror stories and a time-travel trilogy. Her purpose in some books, most notably horror like *The Perfume*, is just to encourage reluctant readers to enjoy literature. However, in her most serious and artistic books, Cooney relies on a source that is likely to surprise her readers: biblical stories and parables. For example, readers can find the seed of the idea that eventually became *Whatever Happened to Janie* in the story of King Solomon's wisdom when he was asked to decide which of two women, both of whom claimed to be mother of an infant, should be recognized as the true mother. The parable of the Good Samaritan provides a backdrop in several of Cooney's most successful novels. Cooney's understated use of biblical stories, and the way her Christian faith subtly informs her fiction, are explored in the book. The organization of the text reflects Cooney's major fiction categories: the Janie mysteries, romances, catastrophe novels, horror and suspense novels, the time travel trilogy, and her historical fiction. Representative books are discussed in detail within each

chapter. Although most of the text is devoted to critical analysis of her literary work, and of the intersection of fiction and faith in her novels, Cooney's biography is also presented within the frame of her life as a single mother of grown children. The influences of her talents as an organist who played regularly for her church, the lessons she has learned from her children when they were teenagers, and life experiences that have led her to consider issues of race and gender, are examples of issues that are discussed. For children's and YA libraries and students of children's literature.
