**Law and the Web of Society** Cynthia L. Cates, Wayne V. McIntosh, 2001-07-31 From birth certificates and marriage licenses to food safety regulations and speed limits, law shapes nearly every moment of our lives. Ubiquitous and ambivalent, the law is charged with both maintaining social order and protecting individual freedom. In this book, Cynthia L. Cates and Wayne V. McIntosh explore this ambivalence and document the complex relationship between the web of law and everyday life. They consider the forms and functions of the law, charting the American legal structure and judicial process, and explaining key legal roles. They then detail how it influences the development of individual identity and human relationships at every stage of our life cycle, from conception to the grave. The authors also use the word web in its technological sense, providing a section at the end of each chapter that directs students to relevant and useful Internet sites. Written for upper-level undergraduate and graduate students in law and society courses, Law and the Web of Society contains original research that also makes it useful to scholars. In daring to ask difficult questions such as When does life begin? and Where does law begin? this book will stimulate thought and debate even as it presents practical answers.

**Global Deception** Joseph A. Klein, 2005 Harry Truman was a pragmatist who saw in the UN a forum for sovereign, independent nations to iron out their differences. But for globalists, the goal has always been a 'true world government.' This thinking now infests the UN from top to bottom. In this disturbing and timely book, Joe Klein exposes the globalist's true agenda - stripping the US of its independence in order to make the world's only superpower, and its citizens, subservient to the desires and whims of dictators, tyrants and nameless bureaucrats. Having failed to win over US public opinion, globalists are trying to rally world opinion against America while encouraging US courts to turn to international law--as opposed to the Constitution and Bill of Rights - for 'guidance' when making judicial decisions, thus imposing globalism on the US by fiat. Simultaneously, they are weaving a tangled web of treaties and trans-national organizations (like the International Criminal Court and the Kyoto Treaty) to gradually ensnare and destroy our nation. They must be stopped. This is the book to do it.
