Windows XP Cookbook Robbie Allen,Preston Gralla,2005-08-08 Each year, Windows XP is pre-installed on 30 million PCs sold in the U.S.--and 90 million worldwide--making it the world's most popular operating system, and proving to frustrated users everywhere that preponderance does not equate to ease of use. There are literally thousands of programs, tools, commands, screens, scripts, buttons, tabs, applets, menus, and settings contained within Windows XP. And it has only been in the last couple of years that Microsoft's documentation has actually been more of a help than a hindrance. But it still isn't enough. Windows XP users and administrators need a quick and easy way to find answers. Plenty of books go into detail about the theory behind a particular technology or application, but few go straight to the essentials for getting the job done. Windows XP Cookbook does just that, tackling the most common tasks needed to install, manage, and support Windows XP. Featuring a new twist to O'Reilly's proven Cookbook formula, this problem-solving guide offers multiple solutions for each of its 300-plus recipes. Solve dilemmas with the graphical user interface, the command line, through the Registry, or by using scripts. Each step-by-step recipe includes a discussion that explains how and why it works. The book is also among the first to cover Microsoft's XP Service Pack 2. With these practical, on-the-job solutions, Windows XP Cookbook will save you hours of time searching for answers. Windows XP Cookbook will be useful to anyone that has to use, deploy, administer, or automate Windows XP. But this isn't a typical end-user book; it covers the spectrum of topics involved with running Windows XP in both small and large environments. As a result, IT professionals and system administrators will find it a great day-to-day reference. And power users will find Windows XP Cookbook a great source for information on tweaking XP and getting the most out of their systems. The bottom line is that Windows XP Cookbook will make just about anyone who uses XP more productive.

The Cinema of Franceso Rosi Gaetana Marrone,2020-11 Francesco Rosi (1922-2015) occupies a unique place in postwar Italian, indeed postwar world cinema. His films show a consistent formal balance while representing historical events as social emblems that examine, shape, and reflect the national identity. This important body of work, which has made a vital mark on the works of directors like Martin Scorsese remains to be examined for the English-speaking audience. 35 Video Podcasting Careers & Businesses to Start Anne Hart,2005-12-05 Launch your career or business in video podcasting. Are you looking for a job in video podcasting? Anyone with a digital video camcorder, microphone, computer and some technical savvy can launch an Internet video podcast show to inform, direct or enlighten. You can offer foresight, insight, or hindsight. Open a business or find a job creating and delivering digital video recordings-usually free-as podcasts. If you want to make money with video podcasting, offer to sell a sponsor's publicity and advertising on your video, or an author's creative works, interviews, or sermons. You can even show people how to fill out tax forms using a video podcast for instruction on most any subject people can learn independently. People who subscribe to video podcasts usually want to view for free. You can charge for a course to train or teach a class by video lecture and/or demonstration, but what if you want an actual paid job in video podcasting? And can you make more money in video than in the older, audio MP3 file 'radio' podcasting? Careers in video podcasting are beginning to bloom as seen by a variety of podcasting associations, news publications, and career information. Even job listings unrelated to podcasting are 'broadcast' by RSS feeds. Create your own job in podcasting by showing others how to find new trends and applications in their careers. Make informational, how-to, and motivational video podcasts. What if you want to use video podcasting to actually get hired? Are there jobs right now in video podcasting? Or is the field still primarily for trade publication publishers, syndicators, and video entrepreneurs on the Web?
