**The Fabric of the Cosmos** Brian Greene,2007-12-18 NATIONAL BESTSELLER • From one of the world's leading physicists and author of the Pulitzer Prize finalist *The Elegant Universe*, comes “an astonishing ride” through the universe (The New York Times) that makes us look at reality in a completely different way. Space and time form the very fabric of the cosmos. Yet they remain among the most mysterious of concepts. Is space an entity? Why does time have a direction? Could the universe exist without space and time? Can we travel to the past? Greene has set himself a daunting task: to explain non-intuitive, mathematical concepts like String Theory, the Heisenberg Uncertainty Principle, and Inflationary Cosmology with analogies drawn from common experience. From Newton's unchanging realm in which space and time are absolute, to Einstein's fluid conception of spacetime, to quantum mechanics' entangled arena where vastly distant objects can instantaneously coordinate their behavior, Greene takes us all, regardless of our scientific backgrounds, on an irresistible and revelatory journey to the new layers of reality that modern physics has discovered lying just beneath the surface of our everyday world.

**Thinner Than Thou** Kit Reed,2005-06-01 TV says it. Magazines say it. American society commands it. You must be thin. You must be young. Fad diets. Fat-purging pills. Fitness clubs. Liposuction. Breast implants. Steroids. In the tomorrow of *Thinner Than Thou*, the cult of the body has become the one true religion. The Dedicated Sisters are a religious order sworn to help anorexic, bulimic, and morbidly obese youth. Throughout the land, houses of worship have been replaced by the health clubs of the Crossed Triceps. And through hypnotically powerful evangelical infomercials, the Reverend Earl preaches the heaven of the Afterfat, where you will look like a Greek god and eat anything you want. Just sign over your life savings and come to Sylphania, the most luxurious weight-loss spa in the world, where the Reverend himself will personally supervise your attainment of physical perfection. But the glory of youth and thinness that America worships conceals a hidden world where teens train for the competitive eating circuit, where fat porn and obese strippers feed people's dark desires, and where an underground railroad of rebellious religions remember when people worshipped God instead of the Afterfat. As Annie, an anorexic, and her friend Kelly, who is so massive she can barely walk, find out, the tender promises of the Dedicated Sisters are fulfilled by forced feedings and enforced starvation in hidden prisons. As middle-aged Jeremy discovers, Sylphania is a concentration camp where failure to lose weight and tone up leads to brutal punishment. The Rev. Earl's public sympathy for the overweight conceals a private contempt . . . and, beneath that, a terrible longing known only to a select few. The inevitable decay of old age is the only thing keeping mankind from reaching perfection. Luckily, Reverend Earl has a plan that will take care of that . . . . At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
