Spaces of Mobility Sigurd Bergmann, Thomas A. Hoff, Tore Sager, 2014-12-18 Human mobility is dramatically on the rise; globalization and modern technology have increased transportation and migration. Frequent journeys over large distances cause huge energy consumption, severely impact local and global natural environments and raise spiritual and ethical questions about our place in the world. 'Spaces of Mobility' presents an analysis of the socio-political, environmental, and ethical aspects of mobility. The volume brings together essays that examine why and how modern modes of transport emerge, considering their effect on society. The religious significance of contemporary travel is outlined, namely its impact on pilgrimage, Christology and ethics. The essays examine the interaction between humans and their surroundings and question how increased mobility affects human identity and self-understanding. 'Spaces of Mobility' will be of interest to students and scholars seeking to understand the impact of mobility on modern culture and society, the ethics behind contemporary transport systems and the conditions of immigrants in a world of constant travel.

Land Development Handbook Philip C. Champagne, Dewberry Companies, 2002-03-29 Successfully navigate the confusing maze of land development If you're looking for cutting-edge blockbuster coverage of the land development process, the search ends here! Written by one of the nation's premier consulting firms, this new edition delivers up-to-date coverage of planning, engineering, and surveying . . . all with over 700 illustrations, including diagrams, detailed drawings, plats, and reports generated at the various design stages, as well as charts, tables, and more. This edition includes regulatory changes; new data on open space areas for landscape architects; coverage of the latest advances in GPS and GIS technology; new perspectives on urban growth; and updated case studies, plans, and details. You'll find a thorough description of the design and approval process for residential, commercial, and retail land development projects and access to valuable bottom-line information on: * Environmental issues, including erosion and sediment control, storm water management, environmental impact studies and assessments, and water quality * Types of local regulations; where to get necessary project approval; what to expect during the process * Site analysis and selection criteria for feasibility studies * Technical information on the design of suburban infrastructure components such as water treatment and supply systems, sanitary sewer systems, storm drain systems, and roads * The complete spectrum of surveying methods, including Global Positioning System Surveys and Geographic Information Systems

Feminist Revolution in Literacy Junko Onosaka, 2013-10-14 This book examines the history of women's bookstores in the US from the 1970s to the 1990s. It establishes that women's bookstores played an important role in feminism by enabling the dissemination of women's voices and thereby helping to sustain and enrich the women's movement. They improved women's literacy - their abilities to read, write, publish, and distribute women's voices and visions - and helped women to instigate a feminist revolution in literacy.

63 Alfred Street: Where Capitalism Failed John Kossik, 2010 In downtown Detroit there exists a grand residence built in the Venetian Gothic

style some 130 years ago. It stands now in ruins seemingly more comfortable in the company of a lonely castle in the Scottish Highlands than in the shadow of Ford Field (Detroit Lions), Comerica Park (Detroit Tigers), and Joe Louis Arena (Detroit Red Wings). Though its only occupants for the last 40 years have been crack dealers and the local homeless population, its history reflects the length and breadth of the American Experience. This is its Story
