**Stop the Coming Civil War** Michael Savage,2014-10-07 In his trademark in-your-face style, bestselling author and top conservative talk-show host, Michael Savage has a lot to say about the state of the country in STOP THE COMING CIVIL WAR. According to Michael Savage, OUR NATION IS IN REAL TROUBLE and the seeds of a second conflagration have been sown. Not between the states - but between true patriots who believe in our nation's founding principles and those he believes are working every day to undermine them and change the very nature of the country. Michael Savage is convinced we face more than just political differences. He believes the split between right and left is possibly irreparable - unless we understand what's really happening and how we must act to stop it. This fervent warning offers the Savage truth - a call to action in the voting booth - in order to defend the freedoms our Constitution so brilliantly established.

**Archives in the Digital Age** Abderrazak Mkadmi, 2021-05-11 Archiving has become an increasingly complex process. The challenge is no longer how to store the data but how to store it intelligently, in order to exploit it over time, while maintaining its integrity and authenticity. Digital technologies bring about major transformations, not only in terms of the types of documents that are transferred to and stored in archives, in the behaviors and practices of the humanities and social sciences (digital humanities), but also in terms of the volume of data and the technological capacity for managing and preserving archives (Big Data). *Archives in The Digital Age* focuses on the impact of these various digital transformations on archives, and examines how the right to memory and the information of future generations is confronted with the right to be forgotten; a digital prerogative that guarantees individuals their private lives and freedoms.

**Ministering to Problem People in Your Church** Marshall Shelley, 2013-11-19 Do you face well-intentioned dragons? Every church has them--sincere, well-meaning Christians who leave ulcers, strained relationships, and hard feelings in their wake. They don't intend to be hostile; they don't consciously plot destruction or breed discontent. But they often do undermine the ministry of the church and make pastors question their calling. *Ministering to Problem People in Your Church* will guide you in dealing with these challenging people. Based on real-life accounts of battle-scarred veterans, this book helps you go beyond just tolerating problem people to limiting their damage and showing them God's love. You'll discover effective strategies to turn dissidents into disciples. This time-tested book by the editor-in-chief of *Christianity Today's Leadership Journal* has new chapters on using social media and caring for those with mental illness. It will help you not only preserve your sanity (and maybe your job), but minister more effectively, even to those who make life difficult.

**Political Tourism and Its Texts** Maureen Anne Moynagh, 2008-01-01 The concept of political tourism is new to cultural and postcolonial studies. Nonetheless, it is a concept with major implications for scholarship. *Political Tourism and Its Texts* looks at the writings of political tourists, travellers who seek solidarity with international political struggles. With reference to the travel writing of, among others, Nancy Cunard, W.H. Auden and Christopher Isherwood, Ernesto Che Guevara, and Salman Rushdie, Maureen Moynagh demonstrates the ways in which political tourism can be a means of exploring the formation of transnational affiliations and commitments. Moynagh's aims are threefold. First, she looks at how these tourists create a sense of belonging to political struggles not their own and express their personal and political solidarity, despite the complexity of such cross-cultural relationships. Second, Moynagh analyses how these authors position their readers in relation to political movements, inviting a sense of responsibility for the struggles for social justice. Finally, the author situates key twentieth-century imperial struggles in relation to contemporary postcolonial and cultural studies theories of 'new' cosmopolitanism. Drawing on sociological, postcolonial, poststructuralist, and feminist theories, *Political Tourism and Its Texts* is at once an insightful study of modern writers and the causes that inspired them, and a call to address, with political urgency, contemporary neo-imperialism and the politics of global inequality.

**Contempt of Court** Great Britain: Law Commission,2012-11-28 A number of high-profile cases involving contempt of court have recently highlighted the need for a review of this area of the law. These include: a juror who was found to have researched the defendant on the internet; the first internet contempt by publication, which concerned the posting of an incriminating photograph of a defendant on a website; contempt proceedings for the vilification of Chris Jefferies during the investigation into the murder of Joanna Yeates; and proceedings for contempt by publication following the collapse of the prosecution of Levi Bellfield. Contempt of court covers a wide variety of conduct which undermines or has the potential to undermine the course of justice, and the procedures which are designed to deal with them. This consultation paper focuses on four specific areas of contempt: 1. contempt by publication; 2. the new media; 3. contempts committed by jurors; and 4. contempt in the face of the court. The new media pose a number of challenges to the existing laws on contempt of court, which pre-date the internet age. In addition, there are concerns that some aspects of the law or procedure relating to contempt of court may be unclear or incompatible with the European Convention on Human Rights. The consultation considers whether the law and procedure for dealing with the contempts outlined above are adequate. It proposes a number of reforms, which are intended to make the law fair, understandable, practicable and future-proof.

*Cyber-Attacks and the Exploitable Imperfections of International Law* Yaroslav Radziwill,2015-07-24 Cyber-Attacks and the Exploitable Imperfections of International Law reveals elements of existing jus ad bellum and jus in bello regimes that are unable to accommodate the threats posed by cyber-attacks. It maps out legal gaps, deficiencies, and uncertainties, which international actors may seek to exploit to their political benefit.

**New Perspectives on CALL for Second Language Classrooms** Sandra Fotos,Charles M. Browne,2013-06-17 This practical handbook is designed to help language teachers, teacher trainers, and students learn more about their options for using computer-assisted language learning (CALL) and develop an understanding of the theory and research supporting these options. The chapters in New Perspectives on CALL for Second Language Classrooms synthesize previous CALL theory and research and describe practical applications to both second and foreign language classrooms, including procedures for evaluating these applications. The implementation of CALL at the institutional level is also addressed, with attention to designing multimedia language laboratories and creating collaborative CALL-based projects between educational institutions. Although many chapters locate their descriptions of CALL activities and projects within the ESL/EFL setting, the principles and activities described are equally useful for other language settings. The book does not require prior

knowledge of CALL, computers, or software. To assist readers, a glossary of CALL terms and an appendix of CALL Web sites are provided. The book also has its own accompanying Web site (<http://www.erlbaum.com/callforL2classrooms>) presenting chapter abstracts, author contact information, and regularly updated links to pedagogical, research, and teacher development sites. By integrating theoretical issues, research findings, and practical guidelines on different aspects of CALL, this book offers teachers multiple levels of resources for their own professional development, for needs-based creation of specific CALL activities, for curriculum design, and for implementation of institutional and inter-institutional CALL projects.
