Intervention Narratives Purnima Bose,2020-01-17 Intervention Narratives examines the contradictory cultural representations of the US intervention in Afghanistan that help to justify an imperial foreign policy. These narratives involve projecting Afghans as brave anti-communist warriors who suffered the consequences of American disengagement with the region following the end of the Cold War, as victimized women who can be empowered through enterprise, as innocent dogs who need to be saved by US soldiers, and as terrorists who deserve punishment for 9/11. Given that much of public political life now involves affect rather than knowledge, feelings rather than facts, familiar recurring tropes of heroism, terrorism, entrepreneurship, and canine love make the war easier to comprehend and elicit sympathy for US military forces. An indictment of US policy, Bose demonstrates that contemporary imperialism operates on an ideologically diverse cultural terrain to enlist support for the war across the political spectrum.

Entrepreneurship Strategy Lisa K. Gundry,Jill R. Kickul,2006-08-14 In this engaging and practical book, authors Lisa K. Gundry and Jill R. Kickul uniquely approach entrepreneurship across the life cycle of

business growth—offering entrepreneurial strategies for the emerging venture, for the growing venture, and for sustaining growth in the established venture. Written from the point of view of the founder or the entrepreneurial team, the book offers powerful and practical tools to increase a venture's potential for success and growth.

Vanished Ideology, A Matthew B. Hoffman, Henry F. Srebrnik, 2016-06-16 First comprehensive examination of the rise and decline of the Jewish communist movement in the English-speaking world. While a number of books and articles have been written about Jewish Communist organizations and their supporters in particular countries, an academic treatment of the overall movement per se has yet to be published. *A Vanished Ideology* examines the politics of the Jewish Communist movement in Australia, Canada, Great Britain, South Africa, and the United States. Though officially part of the larger world Communist movement, it developed its own specific ideology, which was infused as much by Jewish sources as it was inspired by the Bolshevik revolution. The Yiddish language groups, especially, were interconnected through international movements such as the World Jewish Cultural Union. Jewish Communists were able to communicate, disseminate information, and debate issues such as Jewish nationality and statehood independently of other Communists, and Jewish Communism remained a significant force in Jewish life until the mid-1950s.

City of Champions Stefan Szymanski, Silke-Maria Weineck, 2020-10-13 The changing fortunes of Detroit, told through the lens of the city's major sporting events, by the bestselling author of *Soccernomics*, and a prizewinning cultural critic From Ty Cobb and Hank Greenberg to the Bad Boys, from Joe Louis and Gordie Howe to the Malice at the Palace, *City of Champions* explores the history of Detroit through the stories of its most gifted athletes and most celebrated teams, linking iconic events in the history of Motown sports to the city's shifting fortunes. In an era when many teams have left rustbelt cities to relocate elsewhere, Detroit has held on to its franchises, and there is currently great hope in the revival of the city focused on its downtown sports complexes—but to whose benefit? Szymanski and Weineck show how the fate of the teams in Detroit's stadiums, gyms, and fields is echoed in the rise and fall of the car industry, political upheavals ushered in by the depression, World War II, the 1967 uprising, and its recent bankruptcy and renewal. Driven by the conviction that sports not only mirror society but also have a special power to create both community and enduring narratives that help define a city's sense of self, *City of Champions* is a unique history of the most American of cities.

Jesus of Nazareth Dale C. Allison, 1998 Dale Allison's clearly written *Jesus of Nazareth* will enable people who have followed recent discussions to vindicate and reclaim the central religious significance of the historical Jesus. Allison makes a creative contribution to Jesus studies in several ways: -- He offers new suggestions for establishing the authenticity of Jesus' words -- including what he calls the index of intertextual linkage -- and for the process of framing a convincing picture of the central thrust and purpose of the activity of Jesus. -- Referring to fascinating cross-cultural millenarian parallels, he shows that the impetus for the pre-Easter Jesus movement was apocalyptic in nature and that the historical Jesus can best be understood as an eschatological prophet. -- He presents the first full-length treatment of the question of Jesus and asceticism and shows that Jesus, far from the image suggested by some today, was driven by an apocalyptic asceticism that extended to matters of sex, food, and social relations.

Countdown to Socialism Anthea Jeffery, 2023-07-19 With growth stalling, joblessness at crisis levels, and governance unravelling, most South Africans cannot fathom why the ANC does not embark on meaningful reform. The answer lies in what is seldom raised: the ruling party's unwavering determination to take the country by incremental steps from capitalism to socialism. This transformation is being implemented via a

Moscow-inspired 'national democratic revolution' (NDR) dating back many decades. Despite the Soviet Union's collapse in 1991, the ANC/SACP alliance still sees the NDR as offering the 'most direct route' to socialism in South Africa – and hence as its bedrock strategy. The NDR has been implemented in many different spheres since 1994. By way of example, NDR interventions have already made millions of people unemployable and the mining sector largely 'uninvestable'. They now aim at land expropriation without compensation (EWC) and the effective nationalisation of private healthcare and pensions. The NDR is the key to understanding ANC rule over some 30 years – yet most South Africans have been kept in the dark on it. This book aims to fill that gap. Written in clear and simple language, it provides an indispensable primer on the NDR and its role in the countdown to socialism in South Africa.

Just Food James E. McWilliams, 2009-08-26 We suffer today from food anxiety, bombarded as we are with confusing messages about how to eat an ethical diet. Should we eat locally? Is organic really better for the environment? Can genetically modified foods be good for you? JUST FOOD does for fresh food what Fast Food Nation (Houghton Mifflin, 2001) did for fast food, challenging conventional views, and cutting through layers of myth and misinformation. For instance, an imported tomato is more energy-efficient than a local greenhouse-grown tomato. And farm-raised freshwater fish may soon be the most sustainable source of protein. Informative and surprising, JUST FOOD tells us how to decide what to eat, and how our choices can help save the planet and feed the world.

Handbook of Clinical Psychology, Volume 1 Michel Hersen, Alan M. Gross, 2008-01-09 Handbook of Clinical Psychology, Volume 1: Adults provides comprehensive coverage of the fundamentals of clinical psychological practice for adults from assessment through treatment, including the innovations of the past decade in ethics, cross cultural psychology, psychoneuroimmunology, cognitive behavioral treatment, psychopharmacology, and geropsychology.

Islamist Insurgents on the Defensive Dave Dilegge, 2018-02-28 This work is the fourth Small Wars Journal anthology focusing on radical Sunni Islamic terrorists and insurgent groups. It covers this professional journals writings for 2016 and is a compliment to the earlier Global Radical Islamist Insurgency anthologies that were produced as Vol. I: 20072011 (published in 2015) and Vol. II: 20122014 (published in 2016) and Jihadi Terrorism, Insurgency, and the Islamic State spanning 2015 (published in 2017). This anthology, which offers well over six hundred pages of focused analysis, follows the same general conceptual breakdown as the earlier works and is divided into two major thematic sections one focusing on al-Qaeda and Islamic state activities in 2016 and the other focusing on US Allied policies and counterinsurgent strategies.

They Killed Our President Jesse Ventura, 2013-10-01 Unless you've been living under a rock for the past fifty years, you're aware of the many hypotheses that the assassination of President John F. Kennedy was not done by one man. Whether you've read one or a dozen of the books on this topic, there's no way to fully grasp the depth of this conspiracy. For the first time ever, New York Times bestselling authors Jesse Ventura and Dick Russell have teamed up with some of the most respected and influential assassination researchers to put together the ultimate compendium that covers every angle—from the plot to the murder—of JFK. They Killed Our President will not only discuss the most famous of theories, but will also bring to light new and recently discovered information, which together shows that the United States government not only was behind this egregious plot, but took every step to make sure that the truth would not come out. With 2013 marking the fiftieth anniversary of JFK's assassination, this is the perfect time for They Killed Our President to be available to readers. The research and information in this book are unprecedented, and there's nobody better to bring this to everyone's attention than the former governor of

Minnesota and US Navy SEAL, Jesse Ventura.

Servant Leadership: Research and Practice Selladurai, Raj, 2014-03-31 Leaders represent a necessary part of any organizational structure, and leadership styles can vary greatly between individuals. Servant leadership is one such leadership style which is helping individuals guide and encourage others within their organization. *Servant Leadership: Research and Practice* explores the concept of rethinking the leader-subordinate relationship structure through the dissolution of an authoritarian leadership style. This book supports current and future leaders through relevant discussions on methodologies and tools in support of servant leadership, and is designed for use by business managers, executives, scholars, and upper-level students.

Opposite Mandela Tony Leon, 2014-04-15 Tony Leon has written a book of unique insight into an unexplored aspect of the presidency and leadership of Nelson Mandela. *Opposite Mandela* relates the untold stories of how South Africa's first democratic president related to his political opponents. Leon served as leader of the Democratic Party during Mandela's presidency. Although they clashed, sometimes fiercely, on great issues of the day, Leon enjoyed an unusually warm relationship with Mandela and had direct access to the president's office. In this first-hand account, he relates some of the more consequential moments of those momentous times in South Africa's history-in-the-making through the lens of the opposition. Although this is a personal account, it also explores some of the major themes, from reconciliation to corruption, which not only marked that period but also laid the basis for the current challenges which confront South Africa today, nearly two decades after Mandela assumed the country's highest office, the very moment when Leon's political leadership began. Insightful, and simultaneously serious and amusing, it lifts the veil on many unknown or unexplained benchmarks from that era: the personal animosity between Mandela and FW De Klerk, the decision of the Democratic Party to reject Mandela's offer of a seat in his cabinet and whether the extraordinary outreach of Mandela to the minorities was the shrewd calculation of a latter-day Machiavelli or the genuine impulses of a secular political saint. This highly readable and first-hand account considers in a balanced manner both the golden moments and the blind spots of one of the most consequential presidencies and leaders of the modern democratic age.

A New Look at New Realism Eric Charles, 2017-09-08 This volume brings to the attention of contemporary readers a tradition of psychological thought that has received little attention over the last century. Psychology's history has been unimaginatively presented as a fight between behaviorists and mentalists. A third alternative, the New Realism, which cuts through that dichotomy, has been lost. The New Realism was indeed once new. This volume provides a glimpse of how this school of thought attempted to redefine the notion of mental processes, including consciousness, in psychological theorizing. Holt's rejected the nativity of iconoclastic Watsonian behaviorists, and thus the New Realism was thoughtful in ways that behaviorist social engineering was not. The implications of these innovations in psychological theorizing are traced from the beginning of the twentieth century to the contemporary period. The contributors provide these intellectual links, along with efforts to look at the relatedness of the human organism and its world. At their beginning, these ideas are embedded in a reverence for William James's work, particularly his later Radical Empiricism. In contemporary psychology, this legacy has given us the framework of ecological psychology as we know it today, and provides the basis for several modern critiques of cognitive psychology. The present volume opens the door for future historical inquiries. This is an exemplary addition to the series on the History of Psychological Ideas.

Legal Issues in Special Education Kevin P. Brady, Charles J. Russo, Cynthia A. Dieterich, Allan G. Osborne, Jr., 2019-10-28 *Legal Issues in Special Education* provides teachers and school administrators with a

clearly written, well-organized, and understandable guide from the perspective of the practitioner without formal legal training. Even though over 50 percent of students with disabilities are now educated in general education classes, most teachers are not required to complete coursework in special education law and can unwittingly expose themselves and their schools to liability for violating the rights of students with disabilities. This practitioner's guide explicitly addresses the major issues and legal complexities educators inevitably face when dealing with special education legal and policy issues. Using case-based learning to synthesize important legal concepts and principles from leading special education legal cases, this text guides educators, administrators, and parents alike toward a thorough understanding of, and the ability to navigate, many of the current and pressing legal concerns in special education.

Different Kinds of Minds Temple Grandin, Ph.D., 2013-11-28 Albert Einstein. Steve Jobs. Elon Musk. Katharine Johnson. These geniuses are all visual thinkers. Are you? Do you like puzzles, coding, and taking things apart? Do you write stories, act in plays, slay at Wordle? The things you are good at are clues to how your brain works. Are you good at math? Working with your hands? Are you a neat freak or a big mess? With her knack for making science easy to understand, Temple Grandin explains different types of thinkers: verbal thinkers who are good with language, and visual thinkers who think in pictures and patterns. You will discover all kinds of minds and how we need to work together to create solutions to help solve real-world problems.

Violet and the Hidden Treasure Harriet Whitehorn, 2015-03-26 Praise for Violet's first adventure! 'Whitehorn's debut is pacey and imaginative and Becka Moor's illustrations a delight. Perfect for readers who liked the Ottoline books by Chris Riddell' Times 'Effortlessly gorgeous' Moontrug 'Young readers, particularly fans of Lauren Child, will be very taken with Violet and her world' Books for Keeps 'A great heroine, an intriguing mystery, and brilliant use of language... Hugely recommended' YAyeahyeah 'Sherlock better watch out, 'cos Violet's about!' Wondrous Reads Meet Violet Remy-Robinson, an amateur Sherlock Holmes in the making... Violet has spent her holidays exploring India with Godmother Celeste, including visiting Celeste's good friend the Maharajah and meeting his very special cockatoo. But when she returns home, Violet gets a surprise visit from the Maharajah's butler, asking her to look after the bird. Violet couldn't be more amazed (and her cat Pudding couldn't be less pleased...), but the cockatoo holds the key to the Maharajah's fortune, and someone is trying to bird-nap her! Can Violet discover who the culprit is before they succeed? With a beautiful hardback package complete with two colour illustrations throughout by emerging talent, Becka Moore, everyone is bound to fall in love with Violet and the colourful characters that make up her world. Perfect for fans of Dixie O'Day, Ottoline and Goth Girl.

Embracing the Melody of Phrase: An Emotional Symphony within **Failed.htm**

In a global used by screens and the ceaseless chatter of instantaneous communication, the melodic splendor and psychological symphony developed by the published term usually diminish in to the backdrop, eclipsed by the persistent sound and distractions that permeate our lives. Nevertheless, situated within the pages of **Failed.htm** an enchanting fictional value filled with natural thoughts, lies an immersive symphony waiting to be embraced. Crafted by an outstanding musician of language, this fascinating masterpiece conducts readers on a psychological trip, skillfully unraveling the hidden tunes and profound influence resonating within each carefully constructed phrase. Within the depths of this touching review, we can investigate the book is key harmonies, analyze their enthralling writing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
