African Americans and Criminal Justice Delores D. Jones-Brown, Beverly D. Frazier, Marvie Brooks, 2014-07-15 Does justice exist for Blacks in America? This comprehensive compilation of essays documents the historical and contemporary impact of the law and criminal justice system on people of African ancestry in the United States. African Americans and Criminal Justice: An Encyclopedia comprises descriptive essays documenting the ways in which people of African descent have been victimized by oppressive laws enacted by local, state, and federal authorities in the United States. The entries also describe how Blacks became disproportionately represented in national crime statistics, largely through their efforts to resist legalized oppression in early American history, and present biographies of famous and infamous Black criminal suspects and victims throughout early American history and in contemporary times. Providing coverage of law and criminal justice practices from the precolonial period, including the introduction of African slaves, up to practices in modern-day America, this encyclopedia presents a frank and comprehensive view of how Americans of African descent have come to be viewed as synonymous with criminality. This book represents an essential learning resource for all American citizens, regardless of race or age.

Getting the Buggers to Find Out Duncan Grey, 2008-09-15 There is a necessary balance between knowledge and knowing how to find out - between having the key facts in your head, having the understanding of how to use them, and having the skill to draw on extra resources too. Information literacy is as important as traditional reading literacy and it incorporates a wide range of skills which are essential in the modern world. Many of the skills already feature in the curriculum, though because they are not usually brought together, too often there is no coherent approach to how they are learned. They are relevant to every teacher and every pupil; they feature in every curriculum subject; they are cross-curricular in every sense - yet because they belong to everyone they are owned by no-one. Duncan Grey This fascinating and innovative book contains a variety of strategies to help teachers develop students' information and literacy skills. Accessible and entertaining, Duncan Grey's superb guide brims with practical strategies and lesson ideas to help every student to answer every question!

Networked Insurgencies and Foreign Fighters in Eurasia Jean-Francois Ratelle, Laurence Broers, 2018-10-19 Recent wars in Eurasia have foregrounded the flows of foreign fighters between distinct insurgent battlefronts. Since 2011 thousands of individuals have travelled from the Caucasus and Central Asia to fight in Syria and Iraq. Caucasians have also appeared in the fighting that followed Ukraine's Euromaidan Revolution in 2014. Resolutions of these conflicts promise further movements as foreign fighters return home. This collection of articles presents for the first time in one volume a cross-regional comparative perspective on the trajectories of foreign fighters between the Caucasus, Central Asia, the Middle East and Ukraine. Drawing on extensive primary sources, contributors theorize the life cycles of foreign fighter waves and the respective roles played by pre-existing insurgent networks, transnational ideologies such as global jihad and Eurasianism, and propaganda framing by insurgent groups such as the Islamic State. They examine regional state responses to the security threat posed by foreign fighters, showing how current security governance regimes can reinforce insurgent ideologies attracting violent militants. Finally they investigate the motivations for foreign fighters to return to their home states in the Caucasus and Central Asia. Arguing for the networked character of insurgencies in Eurasia,

this book offers a unique overview of the foreign fighter phenomenon across the continent. It was originally published as various special issues of Caucasus Survey, Terrorism and Political Violence and Studies in Conflict & Terrorism.
