**Roots Of Religious Extremism, The: Understanding The Salafi Doctrine Of Al-wala' wal Bara'** Bin Ali Mohamed, 2015-09-14 One of the issues in contemporary Islamic thought which has attracted considerable attention amongst Muslim scholars and within the Muslim community is the valid and appropriate attitude of Muslims to relationships with non-Muslims. A major source of confusion and controversy with regards to this relationship comes from the allegation that Muslims must reserve their love and loyalty for fellow Muslims, and reject and declare war on the rest of humanity — most acutely seen through the Islamic concept of Al-Wala' wal Bara' (WB) translated as “Loyalty and Disavowal”, which appears to be central in the ideology of modern Salafism. This book investigates the dynamics and complexities of the concept of WB within modern Salafism and aims to understand the diverse interpretation of this concept; and how modern Salafis understand and apply the concept in contemporary religious, social and political settings. The book discovers that the complexities, diversities and disputes surrounding the concept in modern Salafism often revolve around issues of social, political and current realities. The significance of this book lies in the fact that comprehending modern Salafis' conception of WB, its realities and complexities has become an urgent priority in the lives of Muslims today.

**Iran's Foreign Policy After the Nuclear Agreement** Farhad Rezaei, 2018-05-22 The book offers the first systematic account of Iran's foreign policy following the nuclear agreement (JCPOA) of July 14, 2015. The author evaluates in what ways the JCPOA, in conjunction with the dramatic changes taking shape in the international order, have affected Iran's foreign policy. Known as Normalizers, the moderate leadership under President Hassan Rouhani had planned to normalize Iran's foreign relations by curtailing terrorism and reintegrate Iran into the community of nations. Their hardline opponents, the Principalists, rejected the JCPOA as a tool of subjection to the West and insisted on exporting the Islamist revolution, a source of much destabilization and terror in the region and beyond. The project also analyzes the struggle between Normalizers and their hardline opponents with regards to global and regional issues and Iran's foreign policy towards global powers including the U.S., Russia, EU, and regional countries including Iraq, Syria, Israel, Saudi Arabia and Turkey.

**Reformist Voices of Islam: Mediating Islam and Modernity** Shireen Hunter, Shireen T Hunter, 2014-12-18 In recent years, Islamic fundamentalist, revolutionary, and jihadist movements have overshadowed more moderate and reformist voices and trends within Islam. This compelling volume introduces the current generation of reformist thinkers and activists, the intellectual traditions they carry on, and the reasons for the failure of reformist movements to sustain broad support in the Islamic world today. Richly detailed regionally focused chapters cover Iran, the Arab East, the Maghreb, South Asia, Indonesia, Malaysia, Turkey, Europe, and North America. The editor's introductory chapter traces the roots of reformist thinking both in Islamic tradition and as a response to the challenge of modernity for Muslims struggling to reconcile the requirements of

modernization with their cultural and religious values. The concluding chapter identifies commonalities, comparisons, and trends in the modernizing movements.

**Iran's Foreign Policy in the South Caucasus** Marzieh Kouhi-Esfahani, 2019-01-10 Iran's role as a regional power is more significant than many in the West may realise. The country lies between Central Asia/the Caucasus and the Gulf region on the one hand, and, on the other, between the Mediterranean/Levant region and South Asia. Many of these areas are of increasing strategic importance. This book explores Iran's role as a regional power, focusing on relations with South Caucasus countries - Azerbaijan and Armenia. It outlines the historical context, including Persia's rule of these countries before the nineteenth century, and discusses Iran's approach to foreign and regional policy and how both internal and international factors shape these policies. The book assesses Iran-Azerbaijan and Iran-Armenia bilateral relations to demonstrate how those policies translate in Iran's regional and bilateral relations. The book concludes by considering how Iran's relations in the region are likely to develop in the future.

*Ancient Near Eastern History and Culture* William H. Stiebing Jr., 2016-07 This introduction to the Ancient Near East includes coverage of Egypt and a balance of political, social, and cultural coverage. Organized by the periods, kingdoms, and empires generally used in Near Eastern political history, the text interlaces social and cultural history with the political narrative. This combination allows students to get a rounded introduction to the subject of Ancient Near Eastern history. An emphasis on problems and areas of uncertainty helps students understand how evidence is used to create interpretations and allows them to realize that several different interpretations of the same evidence are possible. This introduction to the Ancient Near East includes coverage of Egypt and a balance of political, social, and cultural coverage.

**Earthquakes and Coseismic Surface Faulting on the Iranian Plateau** Manuel Berberian, 2014-06-23 Earthquakes and Coseismic Surface Faulting on the Iranian Plateau is a comprehensive and well-illustrated multi-disciplinary research work that analyzes the human and physical aspects of the active faults and large-magnitude earthquakes since ancient times on the Iranian Plateau. The long-term historical, archaeological, and sociological record of earthquakes discussed here gives insight into earthquake magnitudes, recurrences, fault segmentation, clustering, and patterns of coseismic ruptures from prehistoric times to the present. The first part of the book examines oral traditions and literature of the region

concerned with earthquakes, particularly in folklore, epic literature, and theology. The second part assesses dynamic phenomena associated with earthquakes, including active tectonics, archaeoseismicity, and coseismic surface faulting throughout the twentieth century. This work is a valuable technical survey and an essential reference for understanding seismic hazard analysis and earthquake risk minimization in earthquake-prone developing and developed countries throughout the world. Provides a reference for seismic hazard evaluation and analysis Covers data dealing with crustal deformations caused by earthquake faulting and folding since historic times Presents unique and complete data for use in empirical relation analyses in all regions

**Arab-Iranian Relations** Shireen T. Hunter, Research Professor, School of Foreign Service and affiliated with the Prince Alwaleed Bin Talal Center for Muslim-Christian Understanding, 2019-04-22 By highlighting the complex set of factors and their interactions that have shaped Arab-Iranian relations, the book hopes to be a corrective to the simplistic and reductionist interpretations of these relations.

**Martyrdom and Ecstasy** Sylwia Surdykowska, 2012-04-25 The book is concerned with one of the most important issues in Persian culture, that is to say a broadly conceived idea of sacrifice and martyrdom. At present, it is contained in the concept of shahadat, which arouses much controversy in the Western world today. In successive chapters, the author discusses the origin and evolution of this concept in Persian culture, the process of shaping attitudes conducive to the attainment of readiness for shahadat and the role of this concept in propaganda, as well as presenting its modern-day interpretation. The basic research material was provided by political and religious publications of contemporary Iranian authors, including Ali Shari'ati, Morteza Motahhari, Ruhollah Khomeini and Abdolkarim Soroush, who have exerted a significant influence on the formation of the Iranian consciousness. The book is an interdisciplinary publication. The author refers to philology, literary studies, cultural anthropology, social psychology, and, interestingly, to the psychology of emotions in order to explicate the traditional Persian system of upbringing and shaping the readiness for martyrdom and sacrifice. The book shows the idea of shahadat as part of the Persian cultural paradigm, which, due to religious and literary tradition, has influenced the shaping of Iranian identity over the centuries and, as a result, it has affected social and political attitudes of the Iranian people. The book is mainly directed to Iranologists. Nevertheless, it will also be of interest to anthropologists, psychologists of culture, sociologists and philosophers due to its interdisciplinary character.

**Judicial Reform and Reorganization in 20th Century Iran** Majid Mohammadi, 2013-05-13 Iran is now at the center of political and social developments in the Middle East. This book examines the reform of the judicial system in 20th century Iran and is the first to relate state-building process with rule of law promotion and judicial reform in the region. This subject occupies the critical juncture of three developments in the contemporary study of Iranian society as an important and early case of social revolution and reform in the Middle East: the state-building process in a non-Western country throughout the 20th century, the incorporation of a non-Western Muslim country into the Western legal framework through codification and transplantation (1911-1979), and the Islamicization process after this critical social development and the Islamic Revolution of 1979. This exceptional study furthers our understanding of Iranian modern history as well as the democratization process, human rights and rule of law issues in the Middle East.

**Jihad Incorporated** Steven Emerson, 2009-09-25 Jihad Incorporated...is the seminal, comprehensive resource on radical Islam in the United States documenting the post-9/11 machinations of terrorist operatives and front groups inside our borders, from al-Qaeda and its affiliates to Hamas and Hizballah....Emerson provides key insights into current dilemmas faced by counterterrorism officials....a must-read for law enforcement, academics, government officials, and concerned citizens alike....essential reading in any serious effort to better understand the character and evolution of militant Islam.-JOURNAL OF COUNTERTERRORISM AND HOMELAND SECURITY INTERNATIONAL Jihad Incorporated is an incredibly informative

look into the infiltration of terrorism into American society both before and after 9/11. The extent of the radical activity here in the United States that is uncovered by Emerson's book is truly eye opening.... A scary reminder of the prevalence of terrorism in American society.-RICHARD CLARKE, Chair of the Counter-Terrorism Security Group (1992-2003) What is the structure of al Qaeda and radical Islamic activity in the United States today? How has it evolved since 9/11? To what extent does domestic radical Islamism pose a threat to US national security at home and abroad? The Investigative Project on Terrorism, founded in 1995 by Steven Emerson, maintains the largest nongovernmental data and intelligence library in the world on militant Islam. The Project assists the White House, the FBI, the Justice Department, Department of Homeland Security, and other government departments with counterterrorism activities. Together with a staff of experts, Executive Director Steven Emerson has compiled this thorough factual overview of the Islamist terrorist threat to the United States. Unlike The 9/11 Commission Report, which was focused mainly on the retrospective analysis of al Qaeda activities leading up to the attack of September 11, 2001, Jihad Incorporated provides an in-depth examination of radical terrorist organizations and their financial support networks operating in the United States and abroad. Divided into three sections, the work first sets the stage for the current situation by reviewing the lessons learned from previous terrorist plots and attacks both within our borders and against American interests abroad. Emerson and colleagues profile key players in the terrorist network and describe their various criminal activities before and since 9/11. The second section analyzes organizations in the Middle East besides al Qaeda that have established ties in the United States: Hamas, Hizballah, the Palestinian Islamic Jihad, and radical groups in Pakistan. The third section analyzes the subtle, wide-ranging support system for terrorist activities that exists within our own borders: charities and foundations that secretly solicit for terror; the complex corporate web of companies, charities, and nonprofit corporations known as the SAAR Network; mosques that provide cover for terrorists; the use of the Internet for terrorist communication; and lobbying efforts by Muslim American organizations to influence the top echelons of the federal government. In a dangerous age, this is an important book for all Americans to read. Further Praise for Jihad Incorporated: When it comes to the jihadist threat against the United States, Steve Emerson had the field lapped before most Americans - including those now fighting the battle at the highest levels of government - even knew the race was on. His groundbreaking, prophetic documentary, Jihad in America, awakened the nation to the peril lurking among us even before al Qaeda's onslaught began in the mid-1990s. With Jihad Incorporated, he demonstrates yet again why he remains our country's premier expert on the arc of Islamic terrorism and why his organization, the Investigative Project on Terrorism, has become such a singular resource.-ANDREW C. McCARTHY, former federal prosecutor, Contributor at National Review Online, and Senior Fellow, Foundation

Perspectives on Turkey's Multi-Regional Role in the 21st Century Dr Mujib Alam, 2015-07-15 This book dwells upon the various aspects of the Turkish foreign policy in the different regions of the world, especially with the dawn of the twenty-first century. Turkey has attracted international attention due to a marked transformation in the country's domestic and external realms, which in turn, has led to an increased activism in its foreign policy actions. Particularly, Turkey's economic rise has fuelled the country's ambition and quest for a more significant role in international affairs. These transformations have come about with the ascendance of the Adalet ve Kalkınma Partisi (AKP) [or Justice & Development Party (JDP)] to power in 2002. Turkey, under the AKP, moved towards a 'new' direction in the foreign policy and consequently endeavoured to play a larger role in West Asia (Middle East), the Balkans, southern Mediterranean, the Caucasus, Central Asia, Africa and Asia. The country has emerged as a multi-regional player having stakes and tractions on a range of issues in these regions. The several discernible aspects of Turkey's involvement are dealt with in the contributions to this volume.

**State Formation in Afghanistan** Mujib Rahman Rahimi, 2017-08-17 The creation of Afghanistan in 1880, following the Second Anglo-Afghan War, gave an empowering voice to the Pashtun people, the largest ethnic group in a diverse country. In order to distil the narrative of the state's

formation and early years, a Pashtun-centric version of history dominated Afghan history and the political process from 1880 to the 1970s. Alternative discourses made no appearance in the fledgling state which lacked the scholarly institutions and any sense of recognition for history, thus providing no alternatives to the narratives produced by the British, whose quasi-colonial influence in the region was supreme. Since 1970, the ongoing crises in Afghanistan have opened the space for non-Pashtuns, including Tajiks, Hazaras, and Uzbeks, to form new definitions of identity, challenge the official discourse and call for the re-writing of the long-established narrative. At the same time, the Pashtun camp, through their privileged position in the political settlements of 2001, have attempted to confront the desire for change in historical perceptions by re-emphasising the Pashtun domination of Afghan history. This crisis of hegemony has led to a deep antagonism between the Pashtun and non-Pashtun perspectives of Afghan history and threatens the stability of political process in the country.

Persecuted Paul Marshall, Lela Gilbert, Nina Shea, 2013-03-11 Christians are the world's most widely persecuted religious group, according to studies by the Pew Research Center, Newsweek, and the Economist, among others. A woman is caught with a Bible and publicly shot to death. An elderly priest is abducted and never seen again. Three buses full of students and teachers are struck by roadside bombs. These are not casualties of a war. These are Christian believers being persecuted for their faith in the twenty-first century. Many Americans do not understand that Christians today are victims in many parts of the world. Even many Western Christians, who worship and pray without fear of violent repercussions, are unaware that so many followers of Christ live under governments and among people who are often openly hostile to their faith. They think martyrdom became a rarity long ago. *Persecuted* soundly refutes these assumptions. This book offers a glimpse at the modern-day life of Christians worldwide, recounting the ongoing attacks that rarely make international headlines. As Western Christians pray for the future of Christ's church, it is vital that they understand a large part of the world's Christian believers live in danger. *Persecuted* gives documented accounts of the persecution of Christians in Africa, Asia, the Middle East, and former Soviet nations. It contains vivid stories of men and women who suffer abuse because of their faith in Jesus Christ, and tells of their perseverance and courage.. *Persecuted* is far more than a thorough and moving study of this global pattern of violence—it is a cry for freedom and a call to action.

**Tracing Your Baltic, Scandinavian, Eastern European, & Middle Eastern Ancestry Online** Anne Hart, 2005-06-06 Are you online and ready for global smart card and database genealogy for virtual travelers? Here's how to search family history for nations bordering the Baltic Sea, the Balkans countries, Scandinavia, Eastern Europe, and the Middle East. The nations listed in this guide (all faiths) include Finland, Sweden, Norway, Denmark, Iceland, Estonia, Latvia, Lithuania, Poland, Armenia, Assyria, Greece, Lebanon, Syria, and many other lands in the Middle East, the Balkans-Croatia, Macedonia, Bulgaria, Eastern Europe-Hungary, and more. Collecting details about people is moving toward smart card technology and its offspring. The new wave in genealogy is authentication technology. Authentication begins with new-wave technology used to gather population registers. Compare the new technology to the old method of door-to-door census taking, tombstone tracings, and city directory publishing. No, genealogists are not using smart cards this year, but smart card technology is being used to compile population registers in Europe. The future holds a new wave of technology used for authentication for banking transactions being applied to other areas. Currently this technology is used for collecting details for population registrars such as census taking. The application for research is of interest to family historians, librarians, and governments. It's already in use by private industry for electronic authentication. Family history is now about intelligent connections, whether it's a population registrar, census detail, or electronic identity for banking. Smart card genealogy began in 1998 in Finland with governments seeking to put census and population registers in an electronic form that would be available to researchers, and these applications are going global.
