Blindsight Peter Watts,2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, Blindsight Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Ladies' Book of Etiquette, and Manual of Politéness Florence Hartley,1860 Do unto others as you would others should do to you. You can never be rude if you bear the rule always in mind, for what lady likes to be treated rudely? True Christian politeness will always be the result of an unselfish regard for the feelings of others, and though you may err in the ceremonious points of etiquette, you will never be im polite. Politeness, founded upon such a rule, becomes the expression, in graceful manner, of social virtues. The spirit of politeness consists in a certain attention to forms and ceremonies, which are meant both to please others and ourselves, and to make others pleased with us ;a still clearer definition may be given by saying that politeness is goodness of heart put into daily practice; the.re can be no true, politeness without kindness, purity, singleness of heart, and sensibility. Many believe that politeness is but a mask worn in the world to conceal bad passions and impulses, and to make a show of possessing virtues not really existing in the heart; thus, that politeness is merely hypocrisy and dissimulation. Do not believe this; be certain that those who profess such a doctrine are practising themselves the deceit they condemn so much.

US Foreign Policy and Global Standing in the 21st Century Efraim Inbar,Jonathan Rynhold,2016-01-13 This book examines US foreign policy and global standing in the 21st Century. The United States is the most powerful actor in world politics today. Against this backdrop, the present volume examines how the foreign policies pursued by Presidents’ George W. Bush and Barack Obama have affected elite and public perceptions of the United States. By examining America’s standing from the perspective of different actors from across various regions, including China, Russia, Latin America and the Middle East, while also assessing how these perceptions interact with America’s own policies, this books presents a fresh interpretation of America’s global standing. In doing so, the volume evaluates how these perceptions affect the realities of US power, and what impact this has on moulding US foreign policy and the policies of other global powers. A number of books address the question of which grand strategy the United States should adopt and the issue of whether or not America is in relative decline as a world power. However, the debate on these issues has largely been set against the policies of the Bush administration. By contrast, this volume argues that while Obama has raised the popularity of America since the low reached by Bush, America’s credibility and overall standing have actually been damaged further under President Obama. This book will be of much interest to students of US foreign policy, US national security, strategic studies, Middle Eastern politics, international relations and security studies generally.

American Documentary Filmmaking in the Digital Age Lucia Ricciardelli,2014-11-20 American Documentary Filmmaking in the Digital Age examines the recent challenges to the conventions of realist documentary through the lens of war documentary films by Ken Burns, Michael Moore, and Errol Morris. During the twentieth century, the invention of new technologies of audiovisual representation such as cinema, television, video, and digital media have transformed the modes of historical narration and with it forced historians to assess the impact of new visual technologies on the construction of history. This book investigates the manner in which this contemporary Western crisis in historical narrative is produced by a larger epistemological shift in visual culture. Ricciardelli uses the theme of war as depicted in these directors’ films to focus her study and look at the model(s) of national identity that Burns, Morris, and Moore shape through their depictions of US military actions. She examines how postcolonial critiques of historicism and the advent of digitization have affected the narrative structure of documentary film and the shaping of historical consciousness through cinematic representation.

City of Rivals Jason Grumet,2014-09-09 Forty years ago the Watergate scandal deeply wounded Americans’ faith in government. Since then, good-government reformers and big-government opponents have been on a shared mission to make everything transparent. The problem is that too much light is scaring Congressmen away from making the tough choices necessary to govern in the national interest. It’s no secret that the backrooms are where things get done and where politicians can collaborate without reprisal. In City of Rivals, Grumet boldly argues that the answer lies in harnessing partisanship, not spinning in its mud. America is once again gripped by fear that we are falling behind and fast. Unlike the Soviet threat that shook our nation a half century ago, the menace today is homegrown. On issues of national importance, the two parties in Congress appear incapable of working together. Whether the threat is competition from China, crumbling infrastructure, or rising debt, Washington’s legitimacy to govern and capacity to solve problems are in doubt. The Bipartisan Policy Center’s president, Jason Grumet, tackles this issue head-on by challenging the conventional diagnosis of the current gridlock. Rather than lamenting our differences, Grumet offers practical steps to govern a polarized nation, and he explores the unintended consequences of past reform movements. It’s a must-read for all who care about our country’s future.

Leviathan Thomas Hobbes,2018-08-22 Leviathan or The Matter, Forme and Power of a Common-Wealth Ecclesiastical and Civil is a book written by an English materialist philosopher Thomas Hobbes about problems of the state existence and development. Leviathan is a name of a Bible monster, a symbol of nature powers that belittles a man. Hobbes uses this character to describe a powerful state (“God of the death”). He starts with a postulate about a natural human state (“the war of all against all”) and develops the idea “man is a wolf to a man”. When people stay for a long time in the position of an inevitable extermination they give a part of their natural rights, for the sake of their lives and general peace, according to an unspoken agreement to someone who is obliged to maintain a free usage of the rest of their

rights – to the state. The state, a union of people, where the will of a single one (the state) is compulsory for everybody, has a task to regulate the relations between all the people. The book was banned several times in England and Russia.

The Brahma Kumaris as a ‘Reflexive Tradition’ John Walliss, 2017-11-22 This title was first published in 2002. Drawing on primary research on the Brahma Kumaris World Spiritual University, a millenarian New Religious Movement of Indian origin, this book examines the status of tradition in the contemporary world through a critical engagement with the recent social theory of Anthony Giddens on the emergence of a post-traditional society. Wallis examines both the ways in which forms of tradition not only persist but also flourish in the contemporary world and also the manner in which such traditions are drawn on and (re)created by individuals in their ongoing construction of self-identity. Illuminating some of the difficulties encountered when social theory is applied to 'the real world', this book also offers a way of theorising about the status of contemporary religiosity that does not refer directly to the notion of secularisation.

My Antonia Willa Cather, 2021-01-08 My Antonia is a novel by an American writer Willa Cather. It is the final book of the prairie trilogy of novels, preceded by *O Pioneers!* and *The Song of the Lark*. The novel tells the stories of an orphaned boy from Virginia, Jim Burden, and Antonia Shimerda, the daughter of Bohemian immigrants. The Oxford Handbook of Edgar Allan Poe J. Gerald Kennedy, Scott Peeples, 2019-01-08 No American author of the early 19th century enjoys a larger international audience than Edgar Allan Poe. Widely translated, read, and studied, he occupies an iconic place in global culture. Such acclaim would have gratified Poe, who deliberately wrote for the world at large and mocked the provincialism of strictly nationalistic themes. Partly for this reason, early literary historians cast Poe as an outsider, regarding his dark fantasies as extraneous to American life and experience. Only in the 20th century did Poe finally gain a prominent place in the national canon. Changing critical approaches have deepened our understanding of Poe's complexity and revealed an author who defies easy classification. New models of interpretation have excited fresh debates about his essential genius, his subversive imagination, his cultural insight, and his ultimate impact, urging an expansive reconsideration of his literary achievement. Edited by leading experts J. Gerald Kennedy and Scott Peeples, this volume presents a sweeping reexamination of Poe's work. Forty-five distinguished scholars address Poe's troubled life and checkered career as a magazinist, his poetry and prose, and his reviews, essays, opinions, and marginalia. The chapters provide fresh insights into Poe's lasting impact on subsequent literature, music, art, comics, and film and illuminate his radical conception of the universe, science, and the human mind. Wide-ranging and thought-provoking, this Handbook reveals a thoroughly modern Poe, whose timeless fables of peril and loss will continue to attract new generations of readers and scholars.

Order in the Court: Medieval Procedural Treatises in Translation Bruce Brasington, 2016-03-17 In *Order in the Court*, Brasington translates for the first time selected twelfth-century treatises on procedure in ecclesiastical courts. He also provides an introduction to Roman and canon-law procedure as well as commentary on the works.

The Palgrave Handbook of Development Cooperation for Achieving the 2030 Agenda Sachin Chaturvedi, Heiner Janus, Stephan Klingebiel, Xiaoyun Li, André de Mello e Souza, Elizabeth Sidiropoulos, Dorothea Wehrmann, 2021 This open access handbook analyses the role of development cooperation in achieving the 2030 Agenda in a global context of 'contested cooperation'. Development actors, including governments providing aid or South-South Cooperation, developing countries, and non-governmental actors (civil society, philanthropy, and businesses) constantly challenge underlying narratives and norms of development. The book explores how reconciling these differences fosters achievement of the Sustainable Development Goals. Sachin Chaturvedi is Director General at the Research and Information System for Developing Countries (RIS), a New Delhi, India-based think tank. Heiner Janus is a researcher in the Inter- and Transnational Cooperation programme at the German Development Institute. Stephan Klingebiel is Chair of the Inter- and Transnational Cooperation programme at the German Development Institute and Senior Lecturer at the University of Marburg, Germany. Xiaoyun Li is Chair Professor at China Agricultural University and Honorary Dean of the China Institute for South-South Cooperation in Agriculture. Prof. Li is the Chair of the Network of Southern Think Tanks and Chair of the China International Development Research Network. André de Mello e Souza is a researcher at the Institute for Applied Economic Research (IPEA), a Brazilian governmental think tank. Elizabeth Sidiropoulos is Chief Executive of the South African Institute of International Affairs. She has co-edited *Development Cooperation and Emerging Powers: New Partners or Old Patterns* (2012) and *Institutional Architecture and Development: Responses from Emerging Powers* (2015). Dorothea Wehrmann is a researcher in the Inter- and Transnational Cooperation programme at the German Development Institute.
