Transformed William G. McAtee, 2011-08-25 In May 1964, Bill McAtee became the new minister at Columbia Presbyterian Church, deep in the Piney Woods of south Mississippi. Soon after his arrival, three young civil rights workers were brutally murdered outside Philadelphia, Mississippi. Many other activists from across the country poured into the state to try to bring an end to segregation and to register black citizens to vote. Already deeply troubled by the resistance of so many of his fellow white southerners to any change in the racial status quo, McAtee understood that he could no longer be a passive bystander. A fourth-generation Mississippian and son of a Presbyterian minister, he joined a group of local ministers—two white and four black—to assist the mayor of Columbia, Earl D. “Buddy” McLean, in building community bridges and navigating the roiling social and political waters. Focusing on the quiet leadership of Mayor McLean and fellow ministers, McAtee shows how these religious and political leaders enacted changes that began opening access to public institutions and facilities for all citizens, black and white. In retrospect, McAtee’s involvement in these events during this intense period became a turning point in repudiating his past acquiescence to the injustices of the racist society of his birth. His personal account of this transformation underscores its meaning for him today and reminds

the reader that no generation can ignore the past or rest comfortably on its progress toward tolerance, equality, and justice.

Wealth, Virtue, and Moral Luck Kate Ward,2021 In this book, Kate Ward addresses the issue of inequality from the perspective of Christian virtue ethics. Her unique contribution is to argue that moral luck, our individual life circumstances, affects one's ability to pursue virtue. She argues that economic status functions as moral luck and impedes the ability of both the wealthy and the impoverished to pursue virtues such as prudence, justice, and temperance. The book presents social science evidence that inequality reduces empathy for others' suffering, and increases violence, fear, and the

desire to punish others. For the wealthy, inequality creates hyperagency - abundant freedom, power, and choice beyond that enjoyed by other members of society. For the poor, scarcity of time, money, and other important goods can also impair their ability to pursue virtue. Having established the theological harm caused by inequality, Ward then makes the argument that both individual Christians and Christian communities have obligations to address the impact of inequality. As individuals, Christians should pursue what Ward calls encounter, conversion, and contentment. Encounter means genuinely reaching out to the less fortunate and spending enough time to get to know individuals as human beings. For Ward, conversion means informing oneself about the realities of poverty and inequality. Contentment means being satisfied with one's position and not striving for more material wealth. Christian communities, in Ward's view, have obligations to pursue political action, tithing, and aid, and to foster encounters in parishes and educational settings--

Cyber Worship in Multifaith Perspectives Mohamed Taher, 2006 Cyber Worship in Multifaith Perspectives, as is implied by its name, explores worship (i.e., Prayer, Praise, Scripture, Sacrament, Rituals, Confessions, Eucharist, Rites, Pilgrimages, Reflection, Contemplation, etc.) on the Internet. It is not an 'everything you need to know' guide about the subjects of faith and belief, religions-online, religions on the Net, or religions in cyberspace. Rather, it is a book about religious and spiritual experience under the rubric, cyber worship, which is the variety of ways religious devotion is performed and carried out on the Internet. The term 'Cyber Worship' is a catchall phrase, which includes variants such as online worship, virtual worship, electronic prayer, cyber puja, cyber synagogue, and so on. Dr. Mohamed Taher has thus assembled a quick reference for two groups: those communities that are involved in Cyber Worship and business Webs that collaborate in sustaining wired environments. As such, this book provides an interesting and current perspective on a practice that will continue to grow in the future.

Daisaku Ikeda's Philosophy of Peace Olivier Urbain, 2010-03-30 Who is Daisaku Ikeda? At one level, he is the leader of a religious movement - Soka Gakkai - which began in Japan, where it still has its headquarters, but which now claims 12 million adherents around the world. At another level, he is a globetrotting figure whose formal conversations with diverse writers, thinkers and diplomats - including Arnold Toynbee, Joseph Rotblat and Mikhail Gorbachev - have garnered him an international profile, as well as academic recognition. Perhaps above all else, Daisaku Ikeda is viewed as a campaigner for peace. And it is Ikeda's specific contribution to peacebuilding, notably through the central

emphasis he has placed on the significance of dialogue, that this book explores: the first to do so in a concerted way. Olivier Urbain shows that while Soka Gakkai (the 'value society') may stem from the medieval principles of Nichiren Buddhism, under Ikeda's leadership it has taken these classic wisdoms and transformed them. Now essentially classless and secularised, as well as adaptable and sensitive to modern challenges like resource shortages and climate change, this - argues the author - is a pragmatic approach to peace which has proved both popular and eminently transportable.
