Educating in Dialog Sebastian Feller, Ilker Yengin, 2014-11-14 *Educating in Dialog: Constructing meaning and building knowledge with dialogic technology* contains a collection of new articles on the relationship of learning, dialog and technology. The articles combine different views of dialogic learning stemming from a multiplicity of discipline backgrounds and research interests including educational design, educational science, epistemology, cognitive linguistics, cultural studies, and mobile learning, to name a few. The authors discuss and explore a variety of topics that range from knowledge building over learning communities to dialogic technologies for knowledge co-construction. Discussing technology and learning against this broad background is indispensable, as the gap between what learners actually need for successful learning and what current technology offers becomes increasingly wide. This book provides thought-provoking views of recent developments in the area of technology supported learning for everyone who is interested in educational technologies, collaborative learning, and dialog.

Barack Obama Burton I. Kaufman, 2022-03-15 In this insightful biography, Burton I. Kaufman explores how the political career of Barack Obama was marked by conservative tendencies that frustrated his progressive supporters and gave the lie to socialist fearmongering on the right. Obama's was a landmark presidency that paradoxically, Kaufman shows, resulted in few, if any, radical shifts in policy. Following his election, President Obama's supporters and detractors anticipated radical reform. As the first African American to serve as president, he reached the White House on a campaign promise of change. But Kaufman finds in Obama clear patterns of classical conservatism of an ideological sort and basic policy-making pragmatism. His commitment to usher in a multiracial, multiethnic, and multicultural society was fundamentally connected to opening up,

but not radically altering, the existing free enterprise system. The Affordable Care Act, arguably President Obama's greatest policy achievement, was a distillation of his complex motivations for policy. More conservative than radical, the ACA fitted the expansion of health insurance into the existing system. Similarly, in foreign policy, Obama eschewed the use of force to affect regime change. Yet he kept boots on the ground in the Middle East and supported ballot-box revolts geared toward achieving in foreign countries the same principles of liberalism, free enterprise, and competition that existed in the United States. In estimating the course and impact of Obama's full political life, Kaufman makes clear that both the desire for and fear of change in the American polity affected the popular perception but not the course of action of the forty-fourth US president.

The Cancer Revolution Leigh Erin Connealy, 2017-01-24 When it comes to cancer, conventional doctors are trained to treat their patients exclusively with surgery, radiation, and chemotherapy. These methods are grueling on the whole body - and they don't treat beyond the tumor or the cancer itself. The focus is on the disease, not the whole person - and because of this, the outcomes in conventional medicine can be bleak. But it doesn't have to be this way. Dr. Leigh Erin Connealy has developed a whole-person approach to treating cancer - and these treatments have helped thousands of patients through her Cancer Center for Healing. In *The Cancer Revolution*, Dr. Connealy shows you how to get to the root causes of cancer and the practical steps you can take to get back on the path to healing -- from balancing your body's chemistry with nutritional supplements, following a healthy food plan, detoxifying your body and home, exercising regularly, getting deep restful sleep every night, practicing stress reduction techniques, and putting together a supportive healing team. Chemotherapy and radiation have their place in treatment, but in many cases, they are simply not enough, because cancer isn't caused by one thing, but by many different

factors. All of these causes must be addressed, not just the tumor. The Cancer Revolution will equip you to make impactful, achievable lifestyle choices that fight the root of the disease, and that offer hope for recovery and a cancer-free life.

When the Church Woke William B. Lawrence, 2022-10-21 The most divisive and damaging aspect of the church in America is the combination of racism and white supremacy that has been woven into the fabric of the church to the degree that one cannot discuss the church in America apart from this sin. Nowhere is this clearer than in American Methodism, including The United Methodist Church. That denomination, which has been divided for decades over issues regarding human sexuality and homosexuality, is a product of a long history of racism and white supremacy. While initiatives have been taken to address these matters, there has not been any effort to help the church focus on being anti-racist in its practices or public witness at every level, including local church levels. This is a book that identifies this sin and offers an innovative look at the mission of the church, based on biblical witnesses to new life with the resurrection. It offers proposals for reparations and renewal that will come when the church woke.

Campaigning for President 2012 Dennis W. Johnson, 2013-06-26 In this important and timely volume, Dennis W. Johnson has assembled an outstanding team of political scientists and political professionals to examine one of the fiercest and most closely fought presidential elections of our time. Like its predecessor, *Campaigning for President 2008*, *Campaigning for President 2012: Strategy and Tactics* focuses on political management. It is written by both elections/campaign scholars and practitioners, who highlight the role of political consultants and campaigns while also emphasizing the strategy and tactics employed by the candidates, the national political parties, and outside interests. The contributors explore the general mood of the electorate in the 2012 election,

the challenges Obama faced after his first term, the primaries, money, communication, the important issues of the election, and finally the election itself.

Wonder Boy Angel Au-Yeung, David Jeans, 2023-04-25 A Financial Times best business book of 2023 In 1998, at the age of 24, Tony Hsieh sold his first company to Microsoft for \$265 million. In 2009, at the age of 35, he sold his e-commerce company, Zappos, to Amazon for \$1.2 billion. In 2020, at the age of 46, he died. Tony Hsieh revolutionized both the tech world and corporate culture. He was a business visionary. He was also a man in search of happiness. So why did it all go so wrong? Tony Hsieh's first successful venture was in middle school, selling personalized buttons. At Harvard, he made a profit compiling and selling study guides. From there, he went on to build the billion-dollar online shoe empire of Zappos. The secret to his success? Making his employees happy. At its peak, Zappos's employee-friendly culture was so famous across the tech industry that it inspired copycats and earned a cult following. Then Hsieh moved the Zappos headquarters to Las Vegas, where he personally funded a nine-figure campaign to revitalize the city's historic downtown area. But as Hsieh fell deeper into his struggles with mental health and drug addiction, the people making up his inner circle began changing from friends to enablers. Drawing on hundreds of interviews with a wide range of people whose lives Hsieh touched, journalists Angel Au-Yeung and David Jeans craft a rich portrait of a man who was plagued by his eternal search for happiness and ultimately succumbed to his own demons.

Dads, Kids, and Fitness William Marsiglio, 2016-10-31 Now more than ever, American dads act as hands-on caregivers who are devoted to keeping themselves and their families healthy. Yet, men are also disproportionately likely to neglect their own health care, diets, and exercise routines—bad habits that they risk passing on to their children. In *Dads, Kids, and Fitness*, William Marsiglio challenges dads to become more health-conscious in how they live and raise their children. His conclusions are drawn not only from his revealing interviews with a diverse sample of dads and pediatric healthcare professionals, but also from his own unique personal experiences—as a teenage father who, thirty-one years later, became a later-life dad to a second son. Marsiglio’s research highlights the value of treating dads as central players in what he calls the social health matrix, which can serve both healthy children and those with special needs. He also outlines how schools, healthcare facilities, religious groups, and other organizations can help dads make a positive imprint on their families’ health, fitness, and well-being. Anchored in compelling life stories of joy, tragedy, and resilience, *Dads, Kids, and Fitness* extends and deepens public conversation about health at a pivotal historical moment. Its progressive message breathes new life into discussions about fathering, manhood, and health.

Building an Ark Ethan Smith, Guy Dauncey, 2007-11-01 *Building an Ark: 101 Solutions to Animal Suffering* is a first-of-its-kind, inspiring look at practical solutions for the humane treatment of animals and animal liberation. Animal cruelty has many forms: factory farms, habitat destruction, animal product testing, the abuse and neglect of companion animals, the illegal trade in endangered species, unsustainable fishing, and climate change. All these create unnecessary suffering for animals and destroy animal rights. For several decades there has been a global movement building, an ever-increasing consciousness that will soon affect animal welfare and the future of life on Earth—if it’s given time to do so. *Building an Ark* is the story of this movement. Extensively researched and drawing on practical examples from around the world, it provides a voice for both

the animals and the humans who have dedicated their lives to building a sustainable future for all species. The ark is ready for all to board. Individuals, action groups, schools, businesses, governments, farmers, fishers, developing nations—there's a role for everyone on this journey. Building an Ark offers a host of solutions that, if adopted, will ensure that animals will suffer less today, and that humans and animals will share a more sustainable planet tomorrow. Ethan Smith is a writer, animal welfare advocate, and author/editor of the anthology *Softly On This Earth: Joining Those Who Are Healing Our Planet*. Guy Dauncey founded the Solutions Project and is author of several books, including *Stormy Weather: 101 Solutions to Global Climate Change*.

Beautiful People Melissa Blake, 2024-03-05 Well-known disability activist and social media influencer, Melissa Blake, offers a frank, illuminating memoir and a call to action for disabled people and allies. In the summer of 2019, journalist Melissa Blake penned an op-ed for CNN Opinion. A conservative pundit caught wind of it, mentioning Blake's work in a YouTube video. What happened next is equal parts a searing view into society, how we collectively view and treat disabled people, and the making of an advocate. After a troll said that Blake should be banned from posting pictures of herself, she took to Twitter and defiantly posted three smiling selfies, all taken during a lovely vacation in the Big Apple: I wanted desperately to clap back at these vile trolls in a way that would make a statement, not only about how our society views disabilities, but also about the toxicity of our strict and unrealistic beauty standards. Of course I knew that posting those selfies wasn't going to erase the nasty names I'd been called and, the chances were, they would never even see my tweet, but that didn't matter. I wasn't doing it for them; I was doing it for me and every single disabled

person who has been bullied before, online and in real life. When people mock how I look, they're not just insulting me. They're insulting all disabled people. We're constantly told that we're repulsive and ugly and not good enough to be seen. This was me pushing back against that toxic, ableist narrative. For the first time, I felt like I was doing something empowering, taking back my power and changing the story. Her tweet went viral, attracting worldwide media attention and interviews with the BBC, USA Today, the Chicago Tribune, PEOPLE magazine, Good Morning America and E! News. Now, in her manifesto, *Beautiful People*, Blake shares her truths about disability, writing about (among other things): the language we use to describe disabled people ableism, microaggressions, and their pernicious effects what it's like to live in a society that not only isn't designed for you, but actively operates to render you invisible her struggles with self-image and self-acceptance the absence of disabled people in popular culture why disabled people aren't tragic heroes Blake also tells the stories of some of the heroes of the disability rights movement in America, in doing so rescuing their incredible achievements from near total obscurity. Highlighting other disabled activists and influencers, Blake's work is the calling card of a powerful voice—one that has sparked new, different, better conversations about disability.
