This volume seeks to address this gap by providing corpus-based and empirical studies of electronic discourse analyzing social and linguistic variation as well as communicative practices in chat, discussion forums, blogs, and podcasts. Several chapters also examine the assessment and integration of new literacies. **Computers Helping People with Special Needs** Klaus Miesenberger,Joachim Klaus,Wolfgang Zagler,Arthur Karshmer,2008-07-04 Welcome to the proceedings of ICCHP 2008. We were proud to welcome participants from more than 40 countries from all continents to ICCHP. The International Programme Committee, encompassing 102 experts from all over the world, selected 150 full and 40 short papers out of 360 abstracts submitted to ICCHP. Our acceptance rate of about half of the submissions, demonstrates the scientific quality of the programme and in particular the proceedings you have in your hands. An impressive group of experts agreed to organize "Special Thematic Sessions" (STS) for ICCHP 2008. The existence of these STS sessions helped to bring the meeting into sharper focus in several key areas of assistive technology. In turn, this deeper level of focus helped to bring together the state-of-the-art and mainstream technical, social, cultural and political developments. Our keynote speaker, Jim Fruchterman from BeneTech, USA highlighted the importance of giving access to ICT and AT at a global level. In another keynote by Harold Thimbleby, Swansea University, UK, the role of user-centred design and usability engineering in assistive technology and accessibility was addressed. And finally, a combination keynote and panel discussion was reserved for WAI/WCAG2.0, which we expect to be the new reference point for Web accessibility from the summer of 2008 and beyond.

*Mission and Money* Burton A. Weisbrod,Jeffrey P. Ballou,Evelyn D. Asch,2008-09-08 Mission and Money goes beyond the common focus on elite universities and examines the entire higher education industry, including the rapidly growing for-profit schools. The sector includes research universities, four-year colleges, two-year schools, and non-degree-granting career academies. Many institutions pursue mission-related activities that are often unprofitable and engage in profitable revenue raising activities to finance them. This book contains a good deal of original research on schools' revenue sources from tuition, donations, research, patents, endowments, and other activities. It considers lobbying, distance education, and the world market, as well as advertising, branding, and reputation. The pursuit of revenue, while essential to achieve the mission of higher learning, is sometimes in conflict with that mission itself. The tension between mission and money is also highlighted in the chapter on the profitability of intercollegiate athletics. The concluding chapter investigates implications of the analysis for public policy.

QuickTime for Filmmakers shows filmmakers and videographers how to utilize this industry standard tool and offers advice on how best to shoot a film for Internet delivery. Other topics include: Editing and converting video, adding and editing soundtracks and using text in QT movies, compressing media, and preparing movies for http and RTSP streaming or a combination of both. A chapter on virtual reality explores QuickTime's unique feature for creating 360 panoramas, immersive cubic VR, object movies and VR scenes.
