We Visit China Mattern Joanne,2014-05 We Visit China takes middle school students on a wonderful journey to the Asian country of China. The book is written in a lively and interesting style that makes China come alive. The title contains China's history, geography, conflicts, culture, religions, politics, economy, and most importantly contemporary life in the country today. The country's vital statistics, timeline, place in the world, and a native recipe and craft are included. The book has been developed to address many of the Common Core specific goals, higher level thinking skills, and progressive learning strategies from informational texts for middle grade and junior high level students.

Pathology for the Physical Therapist Assistant Penelope J Lescher,2011-03-02 With other texts written at either too high or too low a level, this book meets the needs of PTA students for usable, understandable pathology related to clinical application. Extensively illustrated, this book allows students to more easily comprehend and maintain interest in otherwise complicated pathological processes. The fourteen chapter format effectively fits within a chapter per week course structure, or each chapter may be used as a stand alone module within any course.

A Companion to Mill Christopher Macleod,Dale E. Miller,2018-04-12 This Companion offers a state-of-the-art survey of the work of John Stuart Mill – one which covers the historical influences on Mill, his theoretical, moral and social philosophy, as well as his relation to contemporary movements. Its contributors include both senior scholars with established expertise in Mill's thought and new emerging interpreters. Each essay acts as a go-to resource for those seeking to understand an aspect of Mill's thought or to familiarise themselves with the contours of a debate within the scholarship. The Companion is a key reference on Mill's theory of liberty and utilitarianism, but also provides a valuable resource on lesser-known aspects of his work, including his epistemology, metaphysics, and philosophy of language. The volume is divided into six sections. Part I covers Mill's life, his immediate posthumous reputation, and his own telling of his life-story. Part II brings together an accessible and comprehensive summary of the various influences on Mill's thought. Part III offers an account of the foundations of Mill's philosophy and his thought on key philosophic topics. Parts IV and V tackle issues from Mill's moral and social philosophy. Part VI concludes with a treatment of the broader aspects of Mill's thought, tracing his relation to major movements in philosophy.

Handbook of Religion and Health Harold Koenig,Harold George Koenig,Dana King,Verna B. Carson,2012-02-29 Completely revises and updates the first edition ... surveys the historical connections between religion and health and grapples with the distinction between the terms ''religion'' and ''spirituality'' in research and clinical practice. It reviews research on religion and mental health, as well as extensive research literature on the mind-body relationship, and develops a model to explain how religious involvement may impact physical health through the mind-body mechanisms. It also explores the direct relationships between religion and physical health, covering such topics as immune and endocrine function, heart disease, hypertension and stroke, neurological disorders, cancer, and infectious diseases; and examines the consequences of illness including chronic pain, disability, and quality of life ... [The] authors are physicians: a psychiatrist and geriatrician, a primary care physician, and a professor of nursing and specialist in mental health nursing--Provided by publisher.

Popular Music in Contemporary Bulgaria Asya Draganova,2019-03-07 On the crossroads between the cultural influences of perceived global models and local specificity, entangled in webs of post-communist complexity, Bulgarian popular music has evolved as a space of change and creativity on the edge of Europe. An ethnographic exploration, this book accesses insight from music figures from a spectrum of styles.

Safety Professional's Reference and Study Guide W. David Yates, 2017-12-12 While there are numerous technical resources available, often you have to search through a plethora of them to find the information you use on a daily basis. And maintaining a library suitable for a comprehensive practice can become quite costly. The new edition of a bestseller, *Safety Professional's Reference and Study Guide, Second Edition* provides a single-source reference that contains all the information required to handle the day-to-day tasks of a practicing industrial hygienist. New Chapters in the Second Edition cover: Behavior-based safety programs Safety auditing procedures and techniques Environmental management Measuring health and safety performance OSHA's laboratory safety standard Process safety management standard BCSPs Code of Ethics The book provides a quick desk reference as well as a resource for preparations for the Associate Safety Professional (ASP), Certified Safety Professional (CSP), Occupational Health and Safety Technologist (OHST), and the Construction Health and Safety Technologist (CHST) examinations. A collection of information drawn from textbooks, journals, and the author's more than 25 years of experience, the reference provides, as the title implies, not just a study guide but a reference that has staying power on your library shelf.

Designing Government Pearl Eliadis, Margaret M Hill, Michael Howlett, 2005-02-14 How do governments govern today and how well do they do it? How do governments choose the tools or instruments they will use to get things done? In today's world, how could these decisions be improved from the standpoint of efficiency, effectiveness, legitimacy and accountability? *Designing Government* brings together leading experts to examine the instrument choice perspective on government and public policy over the past two decades. The authors examine such issues as accountability, effectiveness, sustainability, legitimacy, and the impact of globalization. The debate is enriched by contributors from several countries who provide a comparative context and, most importantly, help chart a course for the future. Moving beyond the traditional regulatory sphere and its preoccupations with deregulation and efficiency, the authors trace the complex relationships between instrument choices and governance. *Designing Government* encourages the reader to consider factors in the design of complex mixes, such as issues of redundancy, context, the rule of law and accountability. These latter factors are especially central in today's world to the design and implementation of effective instrument choices by governments and, ultimately, to good governance. The authors conclude, in fact, that seeing instrument choice itself as part and parcel of designing government and achieving good governance is both the promise and the challenge for instrument-based perspectives in the years ahead. Contributors include Hans Bressers (University of Twente), Neil Gunningham (Australian National University), John Hoornbeck (University of Pittsburgh), Margaret Hill (Infrastructure Canada), Michael Howlett (Simon Fraser University), Bridget Hutter (London School of Economics and Political Science), Pierre Issalys (Université Laval), Réjean Landry (Laval University), Roderick A. Macdonald (McGill University), Larry O'Toole (University of Georgia), B. Guy Peters (University of Pittsburgh), Michael J. Prince (University of Victoria), Sean Rehaag (University of Toronto), Arthur B. Ringeling (Erasmus University), Stephen J. Toope (McGill University), Michael J. Trebilcock (University of Toronto), Frédéric Varone (Université Catholique de Louvain,

Belgium), and Kernaghan Webb (Carleton University).

Robotica Ronald K. L. Collins, David M. Skover, 2018-05-31 In every era of communications technology - whether print, radio, television, or Internet - some form of government censorship follows to regulate the medium and its messages. Today we are seeing the phenomenon of 'machine speech' enhanced by the development of sophisticated artificial intelligence. Ronald K. L. Collins and David M. Skover argue that the First Amendment must provide defenses and justifications for covering and protecting robotic expression. It is irrelevant that a robot is not human and cannot have intentions; what matters is that a human experiences robotic speech as meaningful. This is the constitutional recognition of 'intentionless free speech' at the interface of the robot and receiver. *Robotica* is the first book to develop the legal arguments for these purposes. Aimed at law and communication scholars, lawyers, and free speech activists, this work explores important new problems and solutions at the interface of law and technology.

Amendments XVIII and XXI: Prohibition and Repeal Sylvia Engdahl, 2009-03-30 This volume presents the legal concepts of the Eighteenth and Twenty-first Amendments in an engagingly simplified, easily understandable way, while reflecting provisions in both the national and state curriculum standards. Readers will look at these two amendments in historical context, examining how they have been tested in the courts and present current controversies and debates. Lastly, readers will examine each amendment's current relevance.

Blue Genes Brian Harvey, 2013-06-17 The advance of genetic sciences has led to a 'blue revolution' in the way we use aquatic biodiversity. By 2020, the world will be eating almost as much farmed as wild fish, marine bacteria could yield the cure for cancer and deep-sea bacteria may be exploited to gobble up oil spills. Science is moving ahead at a staggering speed, and the demand for genetic resources is growing rapidly - yet governance and policy lag far behind. This groundbreaking work is the first to look at the ownership, governance and trade in aquatic

genetic resources. Blue Genes describes the growing demand for aquatic genetic resources and the desperate need to fill the policy vacuum about the management and conservation of aquatic biodiversity, which would help create a foundation for rules dictating access to, and use of, aquatic genetic resources. Special attention is paid to indigenous and local people having the right to access these resources and their role in managing and conserving aquatic biodiversity. The book concludes with policy recommendations specifically tailored to aquatic resources, with the use of six case studies from four continents to illustrate key issues.

Labour in Vietnam Anita Chan, 2011-08-12 Two decades after Vietnam introduced a programme of economic renovation commonly known in Doi Moi, the country today allows market competition in industry, and a new working class has been created. This is the first book to focus on the role and conditions of workers in the new economic regime. The authors of the book trace Vietnam's labour history, explore the impact of the socialist legacy and examine the reasons for the large number of recent strikes. The book provides insights into the wo...

Doing Our Bit Murdoch Stephens, 2018-08-17 In 2013, Murdoch Stephens began a campaign to double New Zealand's refugee quota. Inspired by his time living in Aleppo, Syria, over the next five years he built the campaign into a mainstream national movement - one that contributed to the first growth in New Zealand's refugee quota in thirty years. Doing Our Bit is an insider's account of political campaigning in New Zealand. This BWB Text is essential reading for anyone interested in grassroots campaigning or how political change happens in New Zealand.

Revenge of the Forbidden City James W. Tong, 2009-10-14 By 1999, the Falungong religious movement had spread widely and broadly throughout China. While on the surface its ideology of spiritual and physical cultivation did not seem threatening, the Chinese government felt otherwise. Revenge of the Forbidden City is the definitive account of China's response to Falungong. As James Tong shows, the episode tells us a great deal about the Chinese state's political institutions, its media apparatus, and its formidable ability to crush dissent. The result is a book that will be essential for any scholar interested in how the Chinese state actually operates.

Alters and Schiff Essential Concepts for Healthy Living Jeff Housman, Mary Odum, 2019-01-15 Essential Concepts for Healthy Living, Eighth Edition urges students to think critically about their health and overall wellness and empowers them, with clearly identified tools, to help them reach this goal.

Environmental Compliance Made Easy Sr. Andre R. Cooper Sr., 2003-08-01 The newly revised and thoroughly updated Environmental Compliance Made Easy handbook from Government Institutes' popular 'Made Easy' series reorganizes thousands of pages worth of federal environmental regulatory programs into one easy-to-use compliance resource, organized by program. Intended as both a beginner's guide and a veteran's reference, this edition provides readers with a concise summary of the major environmental programs and introduces readers to the laws and regulations programs, key requirements, responsibilities of regulated parties, and compliance and auditing processes of each. In addition to covering air quality management, hazardous materials management, impact assessments, and underground storage tank management, this new edition now also covers homeland security and emergency response, compliance audits, information technology initiatives and innovation, pesticide management, property transfer and due diligence, solid waste and toxic substance management, and training. Readers will emerge with a fundamental understanding of which environmental management programs they should consider and how to implement them when developing proactive, successful, and reliable regulatory compliance programs. Key compliance sections include applicable methods, strategies for reviewing compliance status and implementing environmental programs, and checklists based on actual agency protocols. Readers can use the checklists to complete portions of their company's overall environmental compliance plan.

Soviet and Post-Soviet Sexualities Richard C.M. Mole, 2019-01-23 Despite Soviet Russia having been one of the first major powers to decriminalise homosexual acts between men, attitudes towards lesbian, gay, bisexual and transgender (LGBT) people in contemporary Russia and the other post-Soviet states have become increasingly hostile, with the introduction of laws restricting their rights and an increase in homophobic violence. This book explores how this situation has come about. It discusses how meanings attached to non-heteronormative sexualities have been constructed for specific socio-political purposes by elites in line with Marxist-Leninist or nationalist thought, explores how attitudes to non-normative sexualities developed historically and examines the current situation in the post-Soviet space, including Russia, Transcaucasia, Central Asia and the Baltic States. The book provides a wealth of detail on this understudied subject and assesses how LGBT subjects are responding to this state of affairs.

International and Comparative Criminal Justice and Urban Governance Adam Crawford, 2011-06-02 Criminal justice has traditionally been associated with the nation state, its legitimacy and its authority. The growing internationalisation of crime control raises crucial and complex questions about the future shape of justice and urban governance as these are experienced at local, national and international realms. The emergence of new international justice institutions such as the International Criminal Court, the greater movement of people and goods across national borders and the transfer of criminal justice policies between different jurisdictions all present novel challenges to criminal justice systems as well as our understandings of criminal justice. This volume of essays explores the implications and impact of criminal justice developments in an increasingly globalised world. It offers cutting-edge conceptual contributions from leading international commentators organised around the themes of international criminal justice institutions and practices; comparative penal policies; and international and comparative urban governance and crime control.
