The Development Dimension Sector Financing in the SDG Era OECD,2018-11-20 The Sustainable Development Goals (SDGs) are highly intertwined with sectors such as health, education, energy or agriculture. Hence, measuring official development finance (ODF) flowing to sectors is critical to designing efficient development strategies in the SDG era.

**From Deterrence to Engagement** Terence Roehrig,2006 From Deterrence to Engagement provides a comprehensive examination of the U.S.-South Korea defense relationship from 1945 to the present. Using deterrence theory as its framework, this work explores the evolving nature of U.S. interests in a region that became a focal point only after the North Korean invasion in 1950. Author Terence Roehrig addresses the changing nature of the threats to U.S. interests in Korea, especially North Korea's buildup and its efforts to acquire nuclear weapons, and examines specific measures utilized by the United States to implement its deterrence policy. While U.S. policy regarding Korea has changed over the years, this timely and important work argues that although the U.S. commitment to protect its ally has been credible and effective the same cannot be said for its attempts to prevent North Korean nuclear proliferation. From Deterrence to Engagement is certain to find an audience amongst scholars of defense policy, national security, and Korean security relations.

*Inside Delta Force* Howard Phillips,2021-07-15 Even among America's top military units, the First Special Forces Operational Detachment-Delta—better known as Delta Force—is considered elite. Its ranks are populated by the best soldiers the United States can offer, and the unit is tasked with sensitive and dangerous work. This title takes readers inside the shadowy Delta Force, discussing its history and some of its declassified operations. The text is supplemented with full-color photographs and engaging sidebars, giving readers a chance to see what it's like to be a Delta Force operator.

*Words* Ernst van den Hemel,Asja Szafraniec,2016-06-15 A wide-ranging anthology of essays that examine the uses, purposes and influence of religious language. It is said that words are like people: One can encounter them daily yet never come to know their true selves. This volume examines what words are—how they exist—in religious phenomena. Going beyond the common idea that language merely describes states of mind, beliefs, and intentions, the book looks at words in their performative and material specificity. The contributions in this volume examine and employ a number of linguistic and semiotic ideologies. They develop the insight that our implicit assumptions about language guide the way we understand and experience religious phenomena. They also explore the possibility that insights about the particular status of religious utterances may in turn influence the way we think about words in our language.

**Save Lives or Save the Rhetoric?** David H. Goldenberg,2021-01-28 Save Lives or Save the Rhetoric? is for independent thinkers who follow the logic, data, and evidence wherever it leads. The alternative is to accept at face value what other people tell you (and want you to believe) through the rhetoric—which is operative 24/7 in the media's echo chambers. This book will teach you how to tell the difference between these two approaches, and it will give you lots of current, real-world examples, and innovative discussion questions so you can practice and be actively involved. The second part of the book delves into critical concepts and methods that any intelligent citizen may apply in order to make informed decisions about policy proposals. Not another partisan screed, the objective throughout is pedagogy: to help the reader better understand current events, better identify the rhetoric in partisan debates, and better evaluate public policy.

**Major Powers and Peacekeeping** Rachel E. Utley,2017-03-02 The problems of peacekeeping in Somalia, Rwanda and former Yugoslavia marked a turning point for major powers in international military peacekeeping. Major support for a more pro-active UN role in peacekeeping has not been forthcoming and where major power involvement is deemed vital, non-UN peace operations have increasingly become the norm. This valuable volume explores the continuing significance of peacekeeping in international affairs, particularly in terms of its military dimensions, and examines the priorities and perspectives of the major powers in relation to their military participation in international peacekeeping and wider peace operations in the twenty-first century. It is ideal for scholars and students interested in contemporary international politics, international relations, international organizations, security and strategic studies, conflict resolution and foreign policy analysis.

**Europe's Nightmare** Miron Rezun,2001-02-28 Recent bombing campaigns and peacekeeping efforts have achieved a fragile and uncertain peace in Kosovo. However, NATO will need help from both the European Union and the United Nations to create and maintain a lasting peace in the region. An expert in the affairs of the troubled region, Rezun traveled to the crisis zone to interview Kosovar refugees and foreign statesmen. He offers a sharp critique of the conflict, taking NATO and the entire Western Alliance to task and emphasizing the villainous behavior of the Milosevic regime. One cannot consider what happened in Kosovo to be an isolated affair, Rezun contends. Based on the widest possible range of sources, including documentation in nearly every European language, this study will appeal to experts and laymen alike. Rezun refuses to take sides. In addition to his criticisms of foreign intervention, exaggerated statistics, and reverse ethnic cleansing, he is merciless in his condemnation of the Serbs, in particular the corrupt influence of Milosevic and the late Arkan. In writing laced with irony, wit, and satire, he reveals the foibles of limited war and the errors committed by all parties. Yet his primary focus remains on the sufferings of the men, women, and children who filled the refugee camps and the devastated villages to which they have returned.

The Matrix of Race Rodney D. Coates,Abby L. Ferber,David L. Brunsma,2022-01-17 Topically organized and drawing on the most up-to-date theories and perspectives in the field, The Matrix of Race, Second Edition examines the intersecting, multilayered identities of contemporary society, and the powerful social institutions that shape our understanding of race. Leading scholars Rodney D. Coates, Abby L. Ferber, and David L. Brunsma use a storytelling approach to illustrate how racial inequality has produced drastically different opportunities, experiences, and outcomes within all aspects of life, from schools, housing, medicine, and workplaces to our criminal justice and political systems. Readers are equipped with a historical perspective, theoretical framework, and diverse view of race and racial ideologies

so that they can confidently participate and contribute to dialogues and practices that will ultimately dismantle race and racial structures. This title is accompanied by a complete teaching and learning package.

**Army Delta Force** Marcia Amidon Lusted,2013-09-01 The most secret and elite of special forces groups, U.S. Army Delta Force fights terrorism, hunts down war criminals, and performs dangerous surveillance missions. Delta Force soldiers cannot officially be part of the military because of their extremely high-risk, classified missions, so they often disguise themselves as civilians. The best of the best, Delta Force will take on any mission, no matter how risky.

**Aging** Harry R. Moody,Jennifer R. Sasser,2020-07-16 Winner of the 2022 Textbook & Academic Authors Association's The McGuffey Longevity Award *Aging: Concepts and Controversies* is structured to encourage a style of teaching and learning that goes beyond conveying facts and methods. This innovative text focuses on controversies and questions rather than on assimilating facts or creating a single correct view about aging or older people. Drawing on their extensive expertise, authors Harry R. Moody and Jennifer R. Sasser first provide an overview of aging in three domains: aging over the life course, health care, and socioeconomic trends. Each section then includes data and conceptual frameworks, helping students to make sense of the controversies and understand their origin, engage in critical thinking, and develop their own views. The Tenth Edition of this hallmark textbook includes amplified discussions focused on differences, diversity, structural inequalities, and inclusion, as well as contemporary issues, including climate change and immigration. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides.

**Reference Manual To Mitigate Potential Terrorist Attacks Against Buildings** Department of Homeland Security. Federal Emergency Management Agency,2003

**Education Facility Security Handbook** Don Philpott,Michael Kuenstle,2007-10-29 In the last decade, more than 300 violent deaths have occurred in or near school campuses. This handbook seeks to help anyone connected with the design, construction, or administration of schools protect our schools and those within them by providing easy-to-follow guidelines for building safer school environments.

**Reference Manual to Mitigate Potential Terrorist Attacks Against Buildings** Michael Chipley,2003 The text provides guidance to the building science community of architects and engineers, to reduce physical damage to buildings, related infrastructure, and people caused by terrorist assaults. It presents incremental approaches that can be implemented over time to decrease the vulnerability of buildings to terrorist threats. Many of the recommendations can be implemented quickly and cost-effectively. The manual contains many how-to aspects based upon current information contained in Federal Emergency Management Agency (FEMA), Department of Commerce, Department of Defense, Department of Justice, General Services Administration, Department of Veterans Affairs, Centers for Disease Control and Prevention/National Institute for Occupational Safety and Health, and other publications. It describes a threat assessment methodology and presents a Building Vulnerability Assessment Checklist to support the assessment process. It also discusses architectural and engineering design considerations, standoff distances, explosive blast, and chemical, biological, and radiological (CBR) information. The appendices includes a glossary of CBR definitions as well as general definitions of key terminologies used in the building science security area. The appendices also describe design considerations for electronic security systems and provide a listing of associations and organizations currently working in the building science security area.

**Air War Over Kosovo** Albert Atkins,2000 The Air War over Kosovo opens with an exploration of the ethnic conflict in the Balkans. From this foundation, the book examines the weapons systems that were utilized. The author scrutinize the missiles employed, review the diverse bomber systems used, and highlight the nuances of the air lift operations. Additionally, the author explores the tactics and strategies that the American military administration designed and implemented over the Balkans. The author studied specific missions and scrutinize the memories and experiences of Lt. General Michael Short, General Charles Horner and General Wesley K. Clark to proffer an overview of the scope of this air-directed campaign.

**The Palgrave Handbook of Development Cooperation for Achieving the 2030 Agenda** Sachin Chaturvedi,Heiner Janus,Stephan Klingebiel,Xiaoyun Li,André de Mello e Souza,Elizabeth Sidiropoulos,Dorothea Wehrmann,2021 This open access handbook analyses the role of development cooperation in achieving the 2030 Agenda in a global context of 'contested cooperation'. Development actors, including governments providing aid or South-South Cooperation, developing countries, and non-governmental actors (civil society, philanthropy, and businesses) constantly challenge underlying narratives and norms of development. The book explores how reconciling these differences fosters achievement of the Sustainable Development Goals. Sachin Chaturvedi is Director General at the Research and Information System for Developing Countries (RIS), a New Delhi, India-based think tank. Heiner Janus is a researcher in the Inter- and Transnational Cooperation programme at the German Development Institute. Stephan Klingebiel is Chair of the Inter- and Transnational Cooperation programme at the German Development Institute and Senior Lecturer at the University of Marburg, Germany. Xiaoyun Li is Chair Professor at China Agricultural University and Honorary Dean of the China Institute for South-South Cooperation in Agriculture. Prof. Li is the Chair of the Network of Southern Think Tanks and Chair of the China International Development Research Network. André de Mello e Souza is a researcher at the Institute for Applied Economic Research (IPEA), a Brazilian governmental think tank. Elizabeth Sidiropoulos is Chief Executive of the South African Institute of International Affairs. She has co-edited *Development Cooperation and Emerging Powers: New Partners or Old Patterns* (2012) and *Institutional Architecture and Development: Responses from Emerging Powers* (2015). Dorothea Wehrmann is a researcher in the Inter- and Transnational Cooperation programme at the German Development Institute.

**Secrets and Power in Myanmar** Andrew Selth,2019-09-06 No external observer knows more about Myanmar's security and intelligence apparatus than Andrew Selth. In this book he presents an account of the structure and functions of Myanmar's deep state, along with a tale of personal ambition, rivalry and ruthless power politics worthy of John Le Carre. A thoroughly educative, entertaining and intriguing read. – Professor Michael Wesley, Dean, College of Asia and the Pacific, The Australian National University Andrew Selth has once again amply illustrated the depth and penetration of his study of Myanmar/Burma and its institutions. This work on the more recent aspects of the country's intelligence apparatus goes beyond a masterful and comprehensive analysis of the Burmese intelligence community, and probes the social and

institutional bases of the attitudes giving rise to that critical aspect of power. We are once again in Dr Selth's debt. This is required reading for serious observers of the Burmese scene. – David I. Steinberg, Distinguished Professor of Asian Studies Emeritus, Georgetown University By lifting the lid on a pervasive yet secretive intelligence apparatus, Andrew Selth makes an outstanding contribution to Myanmar Studies. For scholars and practitioners alike, this book provides an essential history of a security state that remains powerful even during the transition away from overt authoritarian rule. – Professor Ian Holliday, Vice-President (Teaching and Learning), The University of Hong Kong
