Digital Online Culture, Identity, and Schooling in the Twenty-First Century K. Rosenfeld,2015-01-15 Digital Online Culture, Identity and Schooling in the Twenty-First Century provides a cultural, ideological critique of identity construction in the context of virtualization. Kimberly Rosenfeld explores the growing number of people who no longer reside in one physical reality but live, work, and play in multiple realities. Rosenfeld's critique of neo-liberal practices in the digital environment brings to light the on-going hegemonic and counter-hegemonic battles over control of education in the digital age. Rosenfeld draws conclusions for empowering the population through schooling, and how it should understand, respond to, and help individuals live out the information revolution.

E-Life: Web-Enabled Convergence of Commerce, Work, and Social Life Michael J. Shaw,Dongsong Zhang,Wei T. Yue,2013-11-13 This book constitutes the refereed proceedings of the Workshop on E-Business (WEB 2011), held in Shanghai, China, on December 4, 2011. The 40 papers, which were selected from 88 submissions to the workshop, touch on topics that are diverse yet highly relevant to the challenges faced by today's e-business researchers and practitioners. They are organized in topical sections on social networks, business intelligence, and social computing; economics and organizational implications of electronic markets; and e-business systems and applications.

Criminal Investigation, Fourth Edition Michael J. Palmiotto,2012-06-25 Criminal investigators need broad knowledge of such topics as criminal law, criminal procedure, and investigative techniques. The best resource for these professionals will distill the needed information into one practical volume. Written in an accessible style, the fourth edition of Criminal Investigation maintains the same reader friendly approach that made its predecessors so popular with students, professionals, and practitioners. Beginning with an overview of the history of criminal investigation, the book explores current investigative practices and the legal issues that constrain or guide them. It discusses the wide range of sources of information available, including the internet, individuals, state and local sources, and federal agencies and commissions. Next, the book discusses other investigative techniques, including interviewing and interrogation, informants, surveillance, and undercover operations. A chapter on report writing provides explicit instructions on how to capture the most critical information needed in an investigation. Additional chapters cover the crime scene investigation and the crime laboratory. The remainder of the book delves into the specific investigative protocols for individual crimes, including sex offenses, homicide, mass and serial murder, assault and robbery, property crimes, cybercrime, and narcotics. Concluding chapters focus on the police/prosecutor relationship and investigative trends. Each chapter includes a summary, a list of key terms, and review questions so that readers can test their assimilation of the material. Clear and concise, this book is an essential resource for every criminal investigator's toolbox.

School and Community Interactions Andreas Brunold,Bernhard Ohlmeier,2012-11-01 Within the European and Asian context scientists from nine different countries are concerned with political and social interactional structures between schools as public institutions and the local political actors which influence the school environment. The contributions give answers to questions regarding the cooperation between school administrations and community, to civic education for sustainable development at the interface between school and community, to teachers as moderators for political and democratic educational processes and to models for successful cooperation between schools and local political actors.

Comparative Regional Integration Finn Laursen,2016-12-05 This volume features up-to-date studies of regional integration efforts in all major parts of the world, especially North America, South America, and East Asia.

Comparisons are drawn between these efforts and those made in the EU, where integration has progressed much further. The book asks: what explains the variation in achievements? What kind of agreements and institutions are needed to produce regional integration? Is 'pooling and delegation' of sovereignty necessary to overcome 'collective action problems'? How important is regional leadership? This work is a major new contribution to the literature on regional integration, and will appeal to theorists, policymakers, students and other readers concerned about world developments. It will also be of value to courses covering international political economy, international relations and regional integration, at both undergraduate and graduate level.

Building a Community of Self-Motivated Learners Larry Ferlazzo,2015-03-12 Award-winning teacher, blogger, and author Larry Ferlazzo is back with more insightful research and strategies for helping students want to care more about school and learning. In his previous books on motivation—Helping Students Motivate Themselves and Self-Driven Learning—he tackled ways to help students build intrinsic motivation by how you use class time, manage your class, encourage students to feel positive about learning, help them not feel burned out by testing, and more. In this book, he looks at how teachers can create classroom conditions that are needed for motivation to grow in the first place. Ferlazzo provides research-based suggestions on what you can do today to help students want to develop qualities like physical health, grit, flow, and a desire to transfer what they're learning to life outside of school. At the end of each chapter, you'll find high-interest lesson plans, correlated to the Common Core ELA/Literacy Standards, that set the stage for long-term positive impacts. Students will read about sports stars, how maintaining a healthy lifestyle can help them achieve their goals, and other engaging topics. They will integrate information from various texts and make connections to their own lives, hopes and dreams—a more powerful way to learn to care than being told they should. The readings for these lessons and other tools are available as free eResources on our website so you can easily print them for your students.

Public Health and Welfare: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2016-09-12 The prevention and treatment of diseases is a primary concern for any nation in modern society. To maintain an effective public health system, procedures and infrastructure must be analyzed and enhanced accordingly. Public Health and Welfare: Concepts, Methodologies, Tools, and Applications provides a comprehensive overview of the latest research perspectives on public health initiatives and promotion efforts. Highlighting critical analyses and emerging innovations on an international scale, this book is a pivotal reference source for professionals,

researchers, academics, practitioners, and students interested in the improvement of public health infrastructures.

Reference and Information Services Kay Ann Cassell, Uma Hiremath, 2013 Search skills of today bear little resemblance to searches through print publications. Reference service has become much more complex than in the past, and is in a constant state of flux. Learning the skill sets of a worthy reference librarian can be challenging, unending, rewarding, and-- yes, fun.

Stable Nuclear Zero Sverre Lodgaard, 2016-08-12 This volume examines the conditions necessary for a stable nuclear-weapons-free world and the implications for nuclear disarmament policy. The Nuclear Non-Proliferation Treaty (NPT) is a road map to nuclear zero, but it is a rudimentary one and it says nothing about the kind of zero to aim for. Preferably, this would be a world where the inhibitions against reversal are strong enough to make it stably non-nuclear. What then are the requirements of stable zero? The literature on nuclear disarmament has paid little attention to this question. By and large, the focus has been on the next steps, and discussions tend to stop where the NPT stops: with the elimination of the weapons. This book seeks to fill a lacuna by examining the requirements of stable zero and their implications for the road map to that goal, starting from the vision to the present day. The volume highlights that a clear conception of the goal not only is important in itself, but can shed light on what kind of disarmament process to promote. This book will be of much interest to students of nuclear proliferation, global governance, security studies and IR.

That's Just How It Was Mary Thorpe, 2014-02-21 “That’s Just How It Was is a moving family tale through which much can be gleaned about life during the push for Irish independence... This is a satisfying, emotionally involving read.”- Clarion Review “Authors of family memoirs often overload their narratives with minutiae that puts nonfamily members to sleep. There are no such encumbrances in Mary Thorpe’s biography of her remarkable grandmother, Bridget O’Rourke. Thorpe...carefully blends Bridget’s story with the events of her day, some of the most pivotal events in Ireland’s history.”- Blueink Review

Comics and Conflict Cord A Scott, 2014-09-15 Illustration has been an integral part of human history. Particularly before the advent of media such as photography, film, television, and now the Internet, illustrations in all their variety had been the primary visual way to convey history. The comic book, which emerged in its modern form in the 1930s, was another form of visual entertainment that gave readers, especially children, a form of escape. As World War II began, however, comic books became a part of propaganda as well, providing information and education for both children and adults. This book looks at how specific comic books of the war genre have been used to display patriotism, adventure through war stories, and eventually to tell of the horrors of combat—from World War II through the current conflicts in Iraq and Afghanistan in the first decade of the twenty-first century. This book also examines how war-and patriotically-themed comics evolved from soldier-drawn reflections of society, eventually developing along with the broader comic book medium into a mirror of American society during times of conflict. These comic books generally reflected patriotic fervor, but sometimes they advanced a specific cause. As war comic books evolved along with American society, many also served as a form of protest against United States foreign and military policy. During the country’s most recent wars, however, patriotism has made a comeback, at the same time that the grim realities of combat are depicted more realistically than ever before. The focus of the book is not only on the development of the comic book medium, but also as a bell-weather of society at the same time. How did they approach the news of the war? Were people in favor or against the fighting? Did the writers of comics promote a perception of combat or did they try to convey the horrors of war? All of these questions were important to the research, and serve as a focal point for what has been researched only in limited form previously. The conclusions of the book show that comic books are more than mere forms of entertainment. Comic books were also a way of political protest against war, or what the writers felt were wider examples of governmental abuse. In the post 9/11 era, the comic books have returned to their propagandistic/patriotic roots.

Revolution, Representation, and Authoritarianism Sarah Wessel, 2021-11-29 This book examines Egypt’s turbulent and contradictory political period (2011-2015) as key to understanding contemporary politics in the country and the developments in the Arab region after the mass protests in 2010/11, more broadly. In doing so, it breaks new ground in the study of political representation, providing analytical innovation to the study of disenchantment with politics, democracy fatigue and social cohesion. Based on five years of intense fieldwork, the author provides rare insights into local and national ideas on politics, justice and identity, and on how people situate themselves and Egypt in the regional and global context. It analyzes how the creation of an alternate, political system was discussed and negotiated among the Egyptian population, the military, the government, public figures, the media, and international actors, and yet nevertheless today, Egypt has a new political regime that is the most repressive in the countries’ modern history. Finally, it recalls the emotions and perceptions of individuals and collectives and interlinks these local perspectives to national events and developments through time. This book will be of key interest to scholars and students of democratization and authoritarianism, Middle East Studies, political representation and informality, collective action, and more broadly to cultural studies and international relations.

Health Promotion Throughout the Life Span - E-Book Carole Lium Edelman, Elizabeth Connelly Kudzma, Carol Lynn Mandle, 2013-10-01 With the advent of health care reform and an emphasis on reducing health care costs, health promotion and disease prevention is a priority in nursing care. Be prepared with *Health Promotion Throughout the Life Span*, 8th Edition, your comprehensive guide to major health promotion concepts. Featuring practical guidance – including boxes on diversity awareness, evidence-based practice, innovative practice, hot topics, and quality and safety as well as case studies and care plans – our experienced authors give you all the tools you need to stay current on the latest research and trends in health promotion. Extensive coverage of growth and development throughout the lifespan emphasizes the unique problems and health promotion needs of each age and stage of development. Separate chapters on each population – group, individual, family, and community – stress the unique issues faced when providing care to each group. Evidence-Based Practice boxes emphasize current research efforts and opportunities in health promotion. Hot Topics and Innovative Practice boxes engage students’ interest by introducing significant issues, trends, and creative programs and projects in health promotion practice. Diversity Awareness boxes address various cultural perspectives and provide important information that needs to be considered in planning care. Case studies and care plans present realistic situations that challenge students to reflect upon important health promotion concepts. Think About It boxes dig deeper into the chapter topic and encourage critical thinking. Numerous pedagogical features such as objectives, key terms, and textual summaries highlight the most important concepts and terms in each chapter. Updated nutrition coverage includes MyPyramid from the FDA, as well as the latest information on food safety and fad diets. Expanded health policy coverage focuses on global health, historical perspectives, financing healthcare, concierge medical practices, and the hospitalist movement. *Health Promotion for the Twenty-First Century* explores current and future health promotion challenges and research initiatives. Updated Healthy People 2010 data includes midcourse review objectives and an introduction to Healthy People 2020. Case Studies and Care Plans summarize key concepts and show how they apply to real-life practice.

Economic Integration in South Asia Rizwanul Islam, 2012-03-28 This book analyses the South Asian preferential trade agreements with reference to the WTO jurisprudence. It offers a comprehensive analysis of the factors undermining economic integration in South Asia and recommends possible ways for confronting them.

On the End of Privacy Richard E. Miller,2019-02-19 On the End of Privacy explores how literacy is transformed by online technology that lets us instantly publish anything that we can see or hear. Miller examines the 2010 suicide of Tyler Clementi, a young college student who jumped off the George Washington Bridge after he discovered that his roommate spied on him via webcam. With access to the text messages, tweets, and chatroom posts of those directly involved in this tragedy, Miller asks: why did no one intervene to stop the spying? Searching for an answer to that question leads Miller to online porn sites, the invention of Facebook, the court-martial of Chelsea Manning, the contents of Hillary Clinton’s email server, Anthony Weiner’s sexted images, Chatroulette, and more as he maps out the changing norms governing privacy in the digital age.

Asia Pacific Trade and Investment Report 2011 ,2012-02 This Report identifies the challenges and opportunities for trade and investment in the Asia-Pacific region and concludes that with the right policies and strengthened regional cooperation, the region will be able to continue strong trade- and investment-led growth. With the continued stalling of the Doha Round, regional trade agreements remain an important approach to controlling protectionism. A fresh look at negotiations of the rules under these agreements in order to make them perform their enabling role is recommended. The Report emphasizes that governments need to step up efforts to improve the environment for business and investment.

After Charlie Hebdo Gavan Titley,Des Freedman,Gholam Khiabany,Aurélien Mondon,2017-11-15 As the world looked on in horror at the Paris terror attacks of January and November 2015, France found itself at the centre of a war that has split across nations and continents. The attacks set in motion a steady creep towards ever more repressive state surveillance, and have fuelled the resurgence of the far right across Europe and beyond, while leaving the left dangerously divided. These developments raise profound questions about a number of issues central to contemporary debates, including the nature of national identity, the limits to freedom of speech, and the role of both traditional and social media. After Charlie Hebdo brings together an international range of scholars to assess the social and political impact of the Paris attacks in Europe and beyond. Cutting through the hysteria that has characterised so much of the initial commentary, it seeks to place these events in their wider global context, untangling the complex symbolic web woven around 'Charlie Hebdo' to pose the fundamental question - how best to combat racism in our supposedly ‘post-racial’ age?

China-Taiwan Rapprochement Min-Hua Chiang,2015-10-30 This book examines how since about 2008 the economy of Taiwan has become ever more deeply integrated into the economy of China. It goes beyond a consideration of trade and investment flows, and discusses also the large population flows, the growing integration of the two financial systems and the nature of the deep economic integration at the industry and firm level. It considers the impact of growing economic integration on society and politics, assesses how China-Taiwan economic integration is affecting the East Asian region more widely, and explores the implications for international relations, including the United States dominance in the region. Overall, the book presents a comprehensive analysis of all the issues.
