Handbook of Avian Hybrids of the World Eugene M. McCarthy,2006-02-16 With more than 5,000 works cited, Handbook of Avian Hybrids of the World is the greatest compendium of information ever published on hybridization in birds. Worldwide in scope, it provides information on all reported avian crosses, not only those occurring in captivity, but also in a natural setting (approximately 4,000 crosses are covered). This book is a basic reference, intended both for the serious birder and the professional biologist. McCarthy's work fills a need for reference material that takes into account the last half century of data. It will be of interest to workers in a wide variety of fields, ranging from animal behavior to genetics, ecology, zoology, and systematics. In fact, it will make fascinating reading for anyone interested in birds and the natural world.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Studying Film Nathan Abrams,Ian A. F. Bell,Jan Udris,2011-03-15 Studying Film is an all-encompassing guide to cinema and film which explores the key concepts, terms and events that have shaped film study and criticism, all of which is illustrated by reference to classic and contemporary movies from around the world, from The Great Train Robbery to Pulp Fiction via Un Chien Andalou and Cinema Paradiso. This accessible introduction to the study of film aims to stimulate students' enjoyment and understanding of a wide range of different types of film, and to give them an awareness of the nature of cinema as a medium, as an art form, and as a social and economic institution. Contemporary film is seen in context by tracing its development from 1895 to the present, exploring film production in a variety of countries in a range of styles, and placing film next to other media.

The Global Quest for Sustainability Carlo Secchi, Alessandro Gili, 2021-10-05 In the aftermath of the pandemic, global demand for infrastructure is booming. National plans around the world show that infrastructure is likely to provide the backbone for a resurgence in public expenditure, and to support growth in economies badly hit by the pandemic. As all the biggest powers and blocs (the EU, the US, China, and Japan) have recently announced their plans for climate or carbon neutrality, the room and need for green and sustainable infrastructure are greatly expanding. Decarbonisation and digitalisation will be underpinning this latest investment drive in infrastructure, with sustainability and ESG principles at its core. However, infrastructure expenditure will not come without risk: after the pandemic, the world will be left with the highest levels of public and private debt since World War II, and the sustainability of key investment decisions must be carefully evaluated. How to foster quality and sustainable infrastructure investment? What role for the private sector? What future for sustainable mobility? What kind of policies will countries adopt to reach carbon neutrality?

Deepwater Horizon Accident Investigation Report Mark Bly, 2011-01 This is a print on demand edition of a hard to find publication. Macondo Well Deepwater Horizon Blowout National Research Council, National Academy of Engineering, Board on Environmental Studies and Toxicology, Marine Board, Committee on the Analysis of Causes of the Deepwater Horizon Explosion, Fire, and Oil Spill to Identify Measures to Prevent Similar Accidents to the Future, 2012-03-02 The blowout of the Macondo well on April 20, 2010, led to

enormous consequences for the individuals involved in the drilling operations, and for their families. Eleven workers on the Deepwater Horizon drilling rig lost their lives and 16 others were seriously injured. There were also enormous consequences for the companies involved in the drilling operations, to the Gulf of Mexico environment, and to the economy of the region and beyond. The flow continued for nearly 3 months before the well could be completely killed, during which time, nearly 5 million barrels of oil spilled into the gulf. Macondo Well-Deepwater Horizon Blowout examines the causes of the blowout and provides a series of recommendations, for both the oil and gas industry and government regulators, intended to reduce the likelihood and impact of any future losses of well control during offshore drilling. According to this report, companies involved in offshore drilling should take a system safety approach to anticipating and managing possible dangers at every level of operation-from ensuring the integrity of wells to designing blowout preventers that function under all foreseeable conditions-in order to reduce the risk of another accident as catastrophic as the Deepwater Horizon explosion and oil spill. In addition, an enhanced regulatory approach should combine strong industry safety goals with mandatory oversight at critical points during drilling operations. Macondo Well-Deepwater Horizon Blowout discusses ultimate responsibility and accountability for well integrity and safety of offshore equipment, formal system safety education and training of personnel engaged in offshore drilling, and guidelines that should be established so that well designs incorporate protection against the various credible risks associated with the drilling and abandonment process. This book will be of interest to professionals in the oil and gas industry, government decision makers, environmental advocacy groups, and others who seek an understanding of the processes involved in order to ensure safety in undertakings of this nature.

Global Neorealism Saverio Giovacchini,Robert Sklar,2011-10-11 Intellectual, cultural, and film historians have long considered neorealism the founding block of post-World War II Italian cinema. Neorealism, the traditional story goes, was an Italian film style born in the second postwar period and aimed at recovering the reality of Italy after the sugarcoated moving images of Fascism. Lasting from 1945 to the early 1950s, neorealism produced world-renowned masterpieces such as Roberto Rossellini's *Roma, città aperta* (Rome, Open City, 1945) and Vittorio De Sica's *Ladri di biciclette* (Bicycle Thieves, 1947). These films won some of the most prestigious film awards of the immediate postwar period and influenced world cinema. This collection brings together distinguished film scholars and cultural historians to complicate this nation-based approach to the history of neorealism. The traditional story notwithstanding, the meaning and the origins of the term are problematic. What does neorealism really mean, and how Italian is it? Italian filmmakers were wary of using the term and Rossellini preferred "realism." Many filmmakers confessed to having greatly borrowed from other cinemas, including French, Soviet, and American. Divided into three sections, *Global Neorealism* examines the history of this film style from the 1930s to the 1970s using a global and international perspective. The first section examines the origins of neorealism in the international debate about realist esthetics in the 1930s. The second section discusses how this debate about realism was "Italianized" and coalesced into Italian "neorealism" and explores how critics and film distributors participated in coining the term. Finally, the third section looks at neorealism's success outside of Italy and examines how film cultures in Latin

America, Africa, Asia, and the United States adjusted the style to their national and regional situations.

Postmodernism's Role in Latin American Literature H. Weldt-Basson, 2010-06-21 Augusto Roa Bastos (1917-2005), winner of the prestigious Cervantes prize, is one of the most important Latin American writers of the twentieth century. This commemorative collection consists of articles by nine scholars reflecting upon the postmodern nature of the Paraguayan author's literary production and his place in world literature. The volume includes articles on the author's screenplays, his masterpiece, the dictator novel *I The Supreme*, his short stories, feminist approaches to Roa Bastos's novels, reflections on the writer's Guaraní poetry, and a study of the complex, intertextual relationships between his novel *El fiscal* and his other texts.
