Us-Christians-For-Wars V.C. Thomas,2013-08-26 This is a compilation of articles found on the Internet which looks at who is mainly responsible for terrorism, death, destruction and genocide around the world today. Based on the numbers killed in Asia & the Middle East, the United States of America is responsible for terrorism and genocide on a colossal scale. Ground war with modern weapons and aerial bombing (4 years in Korea, 10 years in Vietnam, & 10 years each in Iraq & Afghanistan) is terrorism resulting in the deaths of millions. In wars before WWI the combatants could see who they were killing. US aerial bombing since WWII involves no risks to the US military while terrorizing & killing innocent civilians and destroying cities. The suicide bombing by a few Muslims youths get a lot of publicity in the US, so this document concentrates on the atrocities of Jews and so-called Evangelical Christian Right in the US. Jews, Christians and Muslims believe in the same God described in the Old Testament Bible (OTB) by God himself (the Bible is the Word of God) as a petty, retarded, vindictive genocidal maniac. Israel was created in 1948 by Eastern European Jews (converts to Judaism 1,000 years ago with no Semitic, genetic or ancestral connection to Palestine) because of the Holocaust in Europe. It was created by eradicating Palestinians from their ancestral homeland by armed robbery & genocide. Palestinians had nothing to do with the Holocaust. The most zealous supporters of US wars since WWII (particularly on behalf of Israel created in 1948) are the Right Wing Evangelical Fundamentalist Conservative Christians (RWEFCC). In the 1950s and 1960s the evil enemy (Satan & Anti-Christ) was communism. When communism disappeared, the RWEFCC switched to condemning, hating & attacking the evil Muslims. RWEFCC people believe that once Palestine & Palestinians have been eradicated and replaced with God's new only chosen people of Eastern European origin, Armageddon, the end of the world, and the Second Coming of Christ are imminent. They ignore the spiritual message of Christ. The moral and ethical justification by Zionists Christians for creating Israel by armed robbery and mass murder in 1948 is the Old Testament Bible (OTB) and Revelations in the New Testament Bible (NTB). It is supposed to be fulfillment of Biblical prophecy. The Old Testament Bible (OTB) is historical mythology, and teaches hatred, cruelty, murder, genocide, sexism, homophobia & racism. Revelations is ridiculous science & horror fiction by primitive & ignorant people of ancient times. It is nearly impossible for a politician to get elected to office in the US Bible-Belt today without the support of Zionist Christians and if they do not affirm that they also worship Jews as God's only chosen people and Israel as a country created by God.

Americans in Egypt, 1770-1915 Cassandra Vivian,2012-08-15 The voices of Americans have long been absent from studies of modern Egypt. Most scholars assume that Americans were either not in Egypt in significant numbers during the nineteenth century or had little of importance to say. This volume shows that neither was the case by introducing and relating the experiences and attitudes of 15 American personalities who worked, lived, or traveled in Egypt from the 1770s to the commencement of World War I. Often in their own words, explorers, consuls, tourists, soldiers, missionaries, artists, scientists, and scholars offer a rare American perspective on everyday Egyptian life and provide a new perspective on many historically significant events. The stories of these individuals and their sojourns not only recount the culture and history of Egypt but also convey the domination of the country by European powers and the support for Egypt by a young American nation.

Enclave Ann Aguirre, 2011-04-12 New York City has been decimated by war and plague, and most of civilization has migrated to underground enclaves, where life expectancy is no more than the early 20's. When Deuce turns 15, she takes on her role as a Huntress, and is paired with Fade, a teenage Hunter who lived Topside as a young boy. When she and Fade discover that the neighboring enclave has been decimated by the tunnel monsters--or Freaks--who seem to be growing more organized, the elders refuse to listen to warnings. And when Deuce and Fade are exiled from the enclave, the girl born in darkness must survive in daylight--guided by Fade's long-ago memories--in the ruins of a city whose population has dwindled to a few dangerous gangs. Ann Aguirre's thrilling young adult novel is the story of two young people in an apocalyptic world--facing dangers, and feelings, unlike any they've ever known.

Turkey Bernard M. Hoekman, Subidey Togan, 2005-06-20 What requirements must Turkey the largest country among the candidate and accession countries meet to join the European Union? What progress has been made toward meeting them? This timely volume analyzes the economic challenges confronting Turkey in its quest to accede to the European Union (EU). It focuses on the extent to which Turkey is ready to join the Single Market, comply with the EU's body of economic regulations and directives, the 'Acquis Communautaire', and meet the Maastricht criteria for fiscal, monetary, and exchange rate policies. This book also provides an assessment of Turkey's national program to meet the accession requirements. It describes briefly what Turkey needs to achieve on the economic policy front to satisfy the conditions for accession, the progress to date, and the likely consequences of implementing the full body of EU requirements. The book is divided into four parts: An analysis of the macroeconomic policies for EU accession An analysis of the effects of integration on key sectors: agriculture; manufacturing; services industries, including banking, telecommunications, transportation, and natural gas; and network industries An exploration of key economic policy challenges, including labor market regulation, foreign direct investment challenges, and the costs and benefits of meeting the EU environmental 'Acquis' The quantification of the impact of EU accession and consideration of the welfare effects of integration While the focus is on the specific situation of Turkey, the subject will be of value to all researchers with an interest in the challenges of deeper integration through regional agreements.

Power, Faith, and Fantasy Michael B. Oren, 2007 Will shape our thinking about America and the Middle East for years.--Christopher Dickey, Newsweek

Very, Very, Very Dreadful Albert Marrin, 2018-01-09 From National Book Award finalist Albert Marrin comes a fascinating look at the history and science of the deadly 1918 flu pandemic--and its chilling and timely resemblance to the worldwide coronavirus outbreak. In spring of 1918, World War I was underway, and troops at Fort Riley, Kansas, found themselves felled by influenza. By the summer of 1918, the second wave struck as a highly contagious and lethal epidemic and within weeks exploded into a pandemic, an illness that travels rapidly from one continent to another. It would impact the course of the war, and kill many millions more soldiers than warfare itself. Of all diseases, the 1918 flu was by far the worst that has ever afflicted humankind; not even the Black Death of the Middle Ages comes close in terms of the number of lives it took. No war, no natural disaster, no famine has claimed so many. In the space of eighteen months in 1918-1919, about 500 million people--one-third of the global population at the time--came down with influenza. The exact total of lives lost will never be known, but the best estimate is between 50 and 100 million. In this powerful book, filled with black and white photographs, nonfiction master Albert Marrin examines the history, science, and impact of this great scourge--and the possibility for another worldwide pandemic today. A Chicago Public Library Best Book of the Year!

Contemporary Environmental Problems in Nepal Keshav Bhattarai, Dennis Conway, 2020-11-23 This monograph examines contemporary environmental challenges facing Nepal, this landlocked country's representativeness in the wider South Asian context is both distinct and generalizable. In large part, this is because of its extremes of physiographical structure- plains, hill ranges, mountainous massifs - and wide range of altitudinal terrains, which represent and replicate South Asian and East Asian continental conditions differing as markedly as humid tropical lowlands, sub-tropical hill ranges and temperate to sub-arctic mountainous environments. Associated forest regimes, in which deforestation and reforestation patterns have evolved in recent times, and differing densities of settlement and cleared agricultural landscapes in each of these altitudinal zones, add to the environmental diversity of Nepal. Associated fauna and exotic species are in various states of endangerment especially Bengal tigers, one horned rhinos, wild elephants, crocodile, musk deer, and peacocks, to name a few- so that their forested and

mountainous habitats as ‘Wild Life Reserves’ also deserve our attention, and are featured in this monograph’s remit.
