Fluent Forever Gabriel Wyner, 2014-08-05 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't

know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party

Praise for *Ask a Manager* “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's *Ask a Manager* column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “*Ask a Manager* is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of

Literary visions of multicultural Ireland Pilar Villar-Argaiz, 2016-05-16
Now available in paperback, this pioneering collection of essays deals with the topic of how Irish literature responds to the presence of non-Irish immigrants in Celtic-Tiger and post-Celtic-Tiger Ireland. The book assembles an international group of 18 leading and prestigious academics in the field of Irish studies from both sides of the Atlantic, including Declan Kiberd, Anne Fogarty and Maureen T. Reddy, amongst others. Key areas of discussion are: what does it mean to be 'multicultural' and what are the implications of this condition for contemporary Irish writers? How has literature in Ireland responded to inward migration? Have Irish writers reflected in their work (either explicitly or implicitly) the existence of migrant communities in Ireland? If so, are elements of Irish traditional culture and community maintained or transformed? What is the social and political efficacy of these intercultural artistic visions?

The Future of Chinese Manufacturing TACHIA Chin, Chris Rowley, 2018-05-24 *The Future of Chinese Manufacturing: Employment and Labour Challenges* gives context and analysis on employment and labor issues in contemporary China, specifically relating to manufacturing industries. With one fifth of the

world's workforce, China has taken advantage of its cheap labor to serve as the world's factory, achieving stunning growth for two decades. This book covers the appreciation of RMB, constant increases in minimum wage, shortages of skilled workers in China's labor-intensive manufacturing sector, and the fact that many large multinational corporations (MNCs) must cut costs, and are thus shifting their main production bases to other developing countries. Under such a tough situation, and coupled with the global economic slowdown, manufacturing employment in China confronts severe labor-related challenges, such as high turnover rates, recruitment difficulties for workers, and a series of high profile labor strikes and publicity concerning working conditions. Integrates human capital and cultural theories Analyzes looming labor unrest and related workforce issues in China through a unique context-specific lens Explores the roles that Chinese institutions and culture play in resolving problems related to these issues

Tracing Your Irish Family History on the Internet Chris Paton, 2013-10-19 "A thorough and informative guide . . . with as many references to websites for Northern Irish genealogy as for the Republic of Ireland." –Who Do You Think You Are Magazine Ireland has experienced considerably more tragedy when it comes to the preservation of resources for family historians than its close neighbor Britain. Many of the nation's primary records were lost during the civil war in 1922 and through other equally tragic means. But in this new book Chris Paton, the Northern-Irish-born author of the bestselling *Tracing Your Family History on the Internet*, shows that not only has a great deal of information survived, it is also increasingly being made available online. Thanks to the pioneering efforts of the Public Record Office of Northern Ireland, the National Archives of Ireland, organizations such as FindmyPast

Ireland, Ancestry.co.uk and RootsIreland, and the massive volunteer genealogical community, more and more of Ireland's historical resources are accessible from afar. As well as exploring the various categories of records that the family historian can turn to, Chris Paton illustrates their use with fascinating case studies. He fully explores the online records available from both the north and the south from the earliest times to the present day. Many overseas collections are also included, and he looks at social networking in an Irish context where many exciting projects are currently underway. His book is an essential introduction and source of reference for anyone who is keen to trace their Irish roots. "Chris Paton has produced this much-needed book for researchers tracing Irish roots, pulling together all the current online resources and expert advice into one handy guide." –Family Tree Magazine

Theological Interpretation of Culture in Post-Communist Context Ivana Noble,2016-12-05 Twenty years after the fall of Communism in Central and East Europe is an occasion to reevaluate the cultural and theological contribution from that region to the secularization - post-secularization debate. Czech theologian Ivana Noble develops a Trinitarian theology through a close dialogue with literature, music and film, which formed not only alternatives to totalitarian ideologies, but also followed the loss and reappearance of

belief in God. Noble explains that, by listening to the artists, the churches and theologians can deal with questions about the nature of the world, memory and ultimate fulfilment in a more nuanced way. Then, as partakers in the search undertaken by their secular and post-secular contemporaries, theologians can penetrate a new depth of meaning, sending out shoots from the stump of Christian symbolism. Drawing on the rich cultures of Central and East Europe and both Western and Eastern theological traditions, this book presents a theological reading of contemporary culture which is important not just for post-Communist countries but for all who are engaged in the debate on the boundaries between theology, politics and arts.

EU enlargement, the clash of capitalisms and the European social dimension Paul Copeland, 2015-11-01 At the heart of the European integration process is the political economy debate over whether the EU should be a market-making project, or if it should combine this with integration in employment and social policy. What has been the impact of the 2004 and 2007 rounds of enlargement upon the political economy of European integration? EU enlargement, the clash of capitalisms and the European social dimension analyses the impact of the 2004 and 2007 enlargements upon the politics of European integration within EU employment and social policy. This book analyses the main policy negotiations in the field and analyses the political

positions and contributions of the Central and Eastern European Member States. Through analyses of the negotiations of the Services Directive, the revision of the Working Time Directive and the Europe 2020 poverty target, the book argues that the addition of the Central and Eastern European states has strengthened liberal forces at the EU level and undermined integration with EU employment and social policy.

Tax Sovereignty in the BEPS Era Sergio André Rocha, Allison

Christians, 2016-04-24 The power of a country to freely design its tax system is generally understood to be an integral feature of sovereignty. However, as an inevitable result of globalization and income mobility, one country's exercise of tax sovereignty often overlaps, interferes with, or even impedes that of another. In this collection of essays, internationally respected practitioners and academics reveal how the OECD's Base Erosion and Profit Shifting (BEPS) initiative, although a major step in the right direction, is insufficient to resolve the tax sovereignty paradox. Each contribution deals with different facets of a single topic: How tax sovereignty is shaped in a post-BEPS world. The contributors provide in-depth analysis of such relevant issues as the following: by multilateral cooperation and soft law consensus are the preferred solutions to a loss of autonomy over national tax policy; – how digital commerce has upended traditional notions of source and residence; – why residence and source continue to be the two essential building blocks of tax sovereignty and the backbone of the international tax

system; – how developing countries can take advantage of the new international tax architecture to ensure that their voices are truly shaping the standards; and – transfer pricing reform. Collectively, the authors provide an authoritative commentary on the necessary preconditions for exercising the power to tax in today's world. Their perspectives and recommendations will prove of great value to all policymakers, legislators, practitioners, and academics in the international taxation arena.
