The South China Sea Maritime Dispute Leszek Buszynski, Christopher B. Roberts, 2014-09-25 The South China Sea is a major strategic waterway for trade and oil shipments to Japan, Korea as well as southern China. It has been the focus of a maritime dispute which has continued now for over six decades, with competing claims from China, Vietnam, the Philippines, Indonesia and Brunei. Recently China has become more assertive in pressing its claims – harassing Vietnamese fishing vessels and seizing reefs in the Philippine claim zone. China has insisted that it has indisputable sovereignty over the area and has threatened to enforce its claim. All of this is unsettling and draws in the United States which is concerned about freedom of navigation in the area. The US has been supporting the Philippines and has been developing security ties with Vietnam as a check upon China. This book examines the conflict potential of the current dispute, it discusses how the main claimants and the United States view the issue, and assesses the prospects for a resolution of the problem.

Death in Rocky Mountain National Park Randi Minetor, 2020-04-01 Colorado's Rocky Mountain National Park welcomes more than 4 million visitors every year, but this jewel of America's parks has seen more than its fair share of deaths among its tourists. More than 70 people have perished attempting to climb Longs Peak, the park's tallest mountain—some of whom vanished into the wilderness, never to be found. Thousand-foot falls from high rock ledges, hypothermia, avalanches that bury climbers, lightning strikes, a historic flood, and even plane crashes are among the ways that park visitors have met a bad end. Author Randi Minetor also provides tips for staying alive and safe in the Rocky Mountains.

Growing Up In Grace Murray Brett, 2009-01-01 Christianity as possession is not simply an experience of salvation in the past, nor simply a status once for all bestowed. It is a high and holy vocation to be fulfilled in all who name Christ's name. We dare not rest until we attain to the prize of the high calling of God in Christ Jesus. This book addresses our consciences about the character of our Christian way. Is there credible godliness? Is there a deepening, growing relationship with our Lord? Is the Love of Jesus Christ constraining our behavior – love so amazing, so divine demanding our souls, our lives, and our all – and are we giving the Lord affectionate obedience in return?

Dog Whistles, Walk-Backs, and Washington Handshakes Chuck McCutcheon, David Mark, 2014-09-02 To the amusement of the pundits and the regret of the electorate, our modern political jargon has become even more brazenly two-faced and obfuscatory than ever. Where once we had Muckrakers, now we have Bed-Wetters. Where Blue Dogs once slept peaceably in the sun, Attack Dogs now roam the land. During election season--a near constant these days--the coded rhetoric of candidates and their spin doctors, and the deliberately meaningless but toxic semiotics of the wing nuts and backbenchers, reach near-Orwellian levels of self-satisfaction, vitriol, and deceit. The average NPR or talk radio listener, MSNBC or Fox News viewer, or blameless New York Times or Wall Street Journal reader is likely to be perplexed, nonplussed, and lulled into a state of apathetic resignation and civic somnolence by the rapid-fire incomprehensibility of political pronouncement and commentary--which is, frankly, putting us exactly where the pundits want us. Dog Whistles, Walk-Backs, and Washington Handshakes is a tonic and a corrective. It is a reference and field guide to the language of politics by two veteran observers that not only defines terms and phrases but also explains their history and etymology, describes who uses them against whom, and why, and reveals the most telling, infamous, amusing, and shocking examples of their recent use. It is a handbook of lexicography for the Wonkette and This Town generation, a sleeker, more modern Safire's Political Dictionary, and a concise, pointed, bipartisan guide to the lies, obfuscations, and helical constructions of modern American political language, as practiced by real-life versions of the characters on House of Cards.

US Policies in Central Asia Ilya Levine, 2016-06-10 Democracy promotion, security and energy are the predominant themes of US policy in Central Asia after the Cold War. This book analyses how the Bush administration understood and pursued its interests in the Central Asia states, namely Kyrgyzstan, Tajikistan, Kazakhstan, Uzbekistan, Turkmenistan. It discusses the shift in US interests after September 11 and highlights key ideas, actors and processes that have been driving US policy in Central Asia. The author examines the similarities between the Bush and Obama administrations' attitudes towards the region, and he points to the inadequacy of the personality focused, partisan accounts that have all too often been deployed to describe the two presidential administrations. To understand US Central Asian policy, it is necessary to appreciate the factors behind its continuities as well as the legacies of the September 11 attacks. Using case studies on the war on terror, energy and democracy, drawing on personal interviews with Americans and Central Asians as well as the fairly recent releases of declassified and leaked US Government documents via sources like the Rumsfeld Papers and Wikileaks, the author argues that the US approached Central Asia as a non-unitary state with an ambiguous hierarchy of interests. Traditionally domestic issues could be internationalised and non-state actors were able to play significant roles. The actual relationships between its interests were neither as harmonious nor as conflicted as the administration and some of its critics claimed. Shedding new light on US relations with Central Asia, this book is of interest to scholars of Central Asia, US Politics and International Relations.

Challenging US Human Rights Violations Since 9/11 Ginger Ann Fagan, 2011-04-29 Activists, students, teachers, lawyers, government officials, and judges will welcome this thoroughly researched, comprehensive examination of human rights violations in the wake of 9/11. Meiklejohn Civil Liberties Institute Executive Director Ann Fagan Ginger has created an accessible, well-organized reference work divided into six parts:· Part I, The Mobilization of Shame, describes executive orders violating basic rights, and citizen reactions, emphasizing that reporting violations has brought about many new programs in various areas, from new treatments for AIDS to new practices in South Africa to stop apartheid practices.· Part II, What the People and their Lawyers Can Do in the U.S., spells out the complaint process through the little known offices of Inspector General, and in U.S. federal and state courts.· Part III, What the Government Is Committed and Required To Do in the United Nations and Organization of American States, begins the unique discussion of the reports the U.S. Government is now required to make under three human rights treaties ratified by the U.S., and how the reporting process has brought about improvements in many countries.· Part IV, Report on Human Rights Violations, forms the bulk of the book. It describes all the relevant facts in 160 reports on 28 types of violations, from the Right Not To Be Killed or Disappeared to the Government's Duty to Count the Votes Accurately and Report to the People Honestly. Activists will find all the facts they need in each report: who did what to whom and when. Lawyers will also find the specific laws being violated by the actions, and inactions, of government officials, military personnel, agents, and contractors.· Part V, Text of Petitions, Resolutions, Ordinances, spells out what has been proposed, and adopted, since 9/11 to stop violations.· Part VI, Text of Laws Violated and Ignored, provides the language of the U.S. Constitution, Bill Of Rights, Articles in the UN Charter, the Convention Against Torture, the Geneva Conventions, and other human rights and international law treaties the U.S. has ratified or signed. This is an indispensable tool for citizens' awareness and defending civil liberties in the era of the Patriot Act and the War against Terror. Ann Fagan Ginger (San Francisco, CA) is the former president (1964-1988) and the current executive director of the Meiklejohn Civil Liberties Institute. She lectures frequently on human rights for the ACLU, National Lawyers Guild committees, United Nations Association, and many other organizations.
