Learn to Program with JavaScript John Smiley,2008-06-29 Javascript is a powerful, object-based scripting language;JavaScript programs can be embedded directly in HTML web pages. When combined with the Document Object Model (DOM) defined by a web browser, Javascript allows you to create Dynamic HTML (DHTML) content and interactive client-side web applications. JavaScript syntax is similar to that of other popular programming languages such as C, C++ and Java, which makes it easy to learn for experienced programmers. At the same time, JavaScript is an interpreted scripting language, providing a flexible, forgiving environment in which new programmers can learn. There's no need to buy a JavaScript compiler or interpreter---the JavaScript interpreter is shipped as part of your Internet Browser.

HTML5 Programming for ASP.NET Developers Bipin Joshi,2012-12-18 HTML5 Programming for ASP.NET Developers teaches you to harness the power and flexibility of HTML5 in your ASP.NET Web Forms and ASP.NET MVC applications. Focusing on the programmable features of HTML5 that will be most useful to you as an ASP.NET developer, this book will take you straight to the heart of what you can get out of this new technology. HTML5 is an emerging web standard that has received a great deal of attention from browser companies and the developer community, encompassing HTML, JavaScript enhancements and CSS3 specifications. But HTML5 isn't just about markup. A major part of HTML5 is its programmable features and APIs, which make up the core of this book. HTML5 Programming for ASP.NET Developers will show you how to: Add interactivity and media to your sites using the Canvas and Audio and Video APIs. Make your web applications work offline, understand client side storage options using web storage, and work with local files using the File API. Use the Communication API and Web Sockets for easier communication between server and client. Other topics include multithreading with Web Workers, understanding the new input types, using Geolocation, and enhancing your web forms and views with CSS3. All major browsers already support HTML5 to varying degrees and are aggressively working to provide full-fledged standardized support. Start using HTML5 in your projects today, and build future-ready web applications that take advantage of the exciting features that HTML5 has to offer.

Windows Media 9 Series by Example Nels Johnson,2013-07-18 Videographers can harness the potential that WM9 offers to deliver high-quality video and multimedia via DVD and over the Internet. Illustrated examples and tutorials demonstrate the basic functionality of WM9 as well as the options available to advanced users who wish to design new applications with the software development kit. Professional videographers will find this book to be a practical way to learn how to set up players, encoders, and servers and how to capture and compress video so they can use WM9 with the applications they use every day, including Powerpoint, Premiere, After Effects, and Avid.

Assistive Technology on the Threshold of the New Millennium Christian Bühler,Harry Knops,1999 The field of assistive technology is influenced by the ongoing and rapid development of mainstream technologies on the one hand and continuing changes to social systems in relation to societal events – such as the ageing of the population – on the other. The articles in this book provide a broad overview of developments in technical support for people with functional restrictions: key

technologies like telecommunications and IT are addressed, while low-tech practical solutions are also considered.

Writing Cross-Browser Dynamic HTML Heather Williamson,2000 Divided into three sections, the book first treats in detail the technologies, concepts, and standards needed to use dynamic HTML for users running all the popular late model browsers: version 4.0 and higher. This section also discusses the implementation and development of HTML, cascading style sheets, competing models of the DOM, and the JavaScript/JScript/ECMAScript techniques needed to control it. The second section teaches Web designers how to use DHTML to develop a dynamic site, focusing on implementation issues related to maintaining cross-platform compatibility. A tutorial in this section shows readers how to create a completely interactive Web site, ready to post on the Web. The third and final section provides alternate ways to use functions and features similar to those used in the second section.

A Doctor from Mesopotamia Malka Al Saadi,2014 From the land between two rivers, in a predominant Jewish neighborhood in the heart of the round city -Baghdad- where the author first saw light in 1941, begins this rich journey of life. Here the author tries to collect her thoughts about life and major events starting from her home country and ending with the country that is now called Home..... Iraq... a diverse country with an extraordinary history stretching back to more than 5000 years, the land of Prophets like Abraham and Daniel. Baghdad, once the center of the world and the capital of Iraq that fell more than 32 times in history and was reborn from Ashes....The cradle of civilization, the Kingdom of Iraq, the republic, the rule of Saddam Hussein and all the wars the country endured, the journey of learning, practicing and teaching medicine.... becoming an expatriate and carrying her country in her heart and luggage ... moving from one country to another until finally resettling in the United States which is now home..... A journey on paper that makes you feel as if you are cruising the world while sitting in a chair and reading this book....
