Shifting to Online Learning Through Faculty Collaborative Support Crawford, Caroline M.,2021-06-18 As a result of the COVID-19 pandemic, most schools had to suddenly shift from traditional face-to-face courses to blended, synchronous, and asynchronous instructional environments. The impact upon the immediacy of remote learning was overwhelming to many faculty, instructional facilitators, teachers, and trainers. Many faculty and trainers have experience with the analysis, design, development, implementation, and evaluation of online and blended learning

environments, while many faculty and trainers also do not have this knowledge nor experience. As such, the collegial workspace has developed into a collaborative work environment wherein the faculty are helping faculty, partially because the instructional designer staff and learning advisors are overwhelmed with the number of course projects that must be moved from traditional face-to-face course environments into an online environment within a short period of time. The faculty are helping each other make this move, offering course design and development support and also instructional tips and tricks that will support successful blended and online experiences that enhance learning outcomes. Shifting to Online Learning Through Faculty Collaborative Support focuses on supporting and enhancing blended and distance learning course design and development, successful tips for course design and teaching, techniques for online learning, and embracing collegial mentorship and facilitative support for course and faculty success. This book highlights the strength of collegial bonds while discussing tools, methods, procedural efforts, styles of engagement, learning theories, assessment efforts, and even social learning engagement implementations in online learning. It provides information and lessons and embraces a long-term approach towards understanding institutional impact and collegial support. This book is valuable for school administrators, teachers, course designers, instructional designers, school faculty, business and administrative leadership, practitioners, stakeholders, researchers, academicians, and students interested in how faculty collaborative support is playing a critical role in improving and developing successful online learning.

Planning Support Systems in Practice Stan Geertman, John Stillwell, 2012-11-02 The first worldwide overview of Planning Support Systems (PSS) and their application in practice. PSS are geo-technology related instruments consisting of theories, information, methods, tools, et cetera for support of unique professional public or private planning tasks at any spatial scale. The aim is to advance progress in the development of PSS, which are far from being effectively integrated into the planning practice. The text provides an Internet-based worldwide inventory of innovative examples and successful applications of PSS in a number of different planning contexts. In-depth insights into the purposes, content, workings, and applications of a very wide diversity of PSS are given.

Director in a Nutshell Bruce A. Epstein, 1999 Director in a Nutshell is the most concise and complete guide available for Macromedia Director 7, the premier multimedia authoring tool. It addresses new features in Director 7 and Shockwave 7, but also covers earlier versions for those still working with Director 5, 6, and 6.5. Director in a Nutshell condenses hundreds of Director tips and techniques into a desktop quick reference that is a must-have addition to every Director developer's library. It covers Director's core components (the Cast, Score, Stage, sprites, and animation), delivery and optimization (Projectors, Shockwave, and the new System Player and ShockMachine), and media elements (video, audio, SWA, bitmaps, JPEG, GIFs, animated GIFs, texts, fonts, fields, buttons, menus, cursors, dialog boxes, film loops, Flash, and vector shapes). Director in a Nutshell is the only

book to integrate Director's multiple facets into a comprehensive discussion of each topic, including all related Lingo commands. The reader gets both the nitty-gritty details and the bigger context in which to use them. It highlights cross-platform differences for developers under both Windows (3.1/95/98/NT) and the Macintosh. It includes details on optimizing performance, memory usage, productivity tips, keyboard shortcuts, coordinate systems, palettes, the Paint window, Movies-in-a-Window, Xtras, Shockwave audio, QuickTime 3, and Director 7's new features, including dot notation, vector shapes, compressed fonts, sprite transformations (rotation, skew, quad, flip), new Lingo, and the Multiuser and XML Xtras. Director in a Nutshell is a high-end handbook, at a low-end price-an indispensable desktop reference for every Director user.

A Guide to Computer User Support for Help Desk & Support Specialists Fred Beisse, 2004 A standard for help desk professionals and those considering becoming support professionals, this text focuses on key information for user support professionals, including decision making, communicating successfully with a client, determining the client's specific needs, and writing for the end user. This text has been updated to reflect the latest in support industry trends, especially the use of Web and email-based support. For those considering entering the field, alternate career paths for user-support workers are described. This edition has retained and updated the CloseUp feature, which details real-life scenarios of working professionals and issues in the workplace. With balanced coverage of both people skills and technical skills, this book is an excellent resource for those in the technical-support field.
