**Directory of Global Professional Accounting and Business Certifications** Lal Balkaran, 2007-02-16 Praise for Directory of Global Professional Accounting and Business Certifications In a globalized world, employers are confronted by a bewildering variety of professional qualifications, some valid, some less weighty and some spurious and fraudulent. This excellent compilation enables the reader to touch base with such organizations and explore their true credentials through access to their whereabouts including Web sites. It is additionally pleasing that updates will be provided via the publisher's own Web site. -- Professor Dr. Gerald Vinten Deputy Principal, Thames Graduate School, Ilford, London Past president, chairman and committee chair, and member of several professional bodies (including the Institute of Internal Auditors, Royal Society of Health, CIPFA, and AAT) I've often wondered what the 'alphabet soup' after some colleagues' names means and how impressed I really should be. Now I can find out!... This directory will be a valuable reference guide for human resource professionals and anyone else who wants to know what those letters mean and how seriously to take them. -- James Roth, PhD, CIA, CCSA President, AuditTrends The Directory of Global Professional Accounting and Business Certifications by Lal Balkaran is an indispensable reference source for anyone involved in the international accounting, auditing, and business professions. It is global, comprehensive, accurate, and

easy to use. It is like having a personal contact book to all the world's professional organizations. --Belverd E. Needles Jr. Ernst & Young Alumni Professor, DePaul University Organized as a directory for easy reference of accounting and business designations, designatory letters, and contact information of all disciplines, Directory of Global Professional Accounting and Business Certifications contains over 960 bodies administering well in excess of 2000 designations and designatory letters in 145 countries. This handy, yet comprehensive, directory also provides an index with a country-by-country listing of the professional designations that exist there.

## ASP Web Development with Macromedia Dreamweaver MX

2004 Rachel Andrew, Alan Foley, Rob Turnbull, Drew

McLellan, 2008-01-01 \* Teaches Web development using real world tutorials. \* Approach to subject is no nonsense, wastes little time on history and unnecessary information; therefore it is very concise and results driven. \* Covers vital Web development subjects such as Web standards principles and implementation. \* Several authors are members of Team Macromedia and the Web Standards project.

*The V-chip Debate* Monroe E. Price, 2013-11-26 The V-chip is a highly significant part of the discussion about whether television (or broadcasting in general) deserves some special attention in terms of its accessibility to children, its particular power to affect conduct, and its invasiveness. But as this notion of filtering and labeling has caught the imagination of the regulator, the legislator, and all those who wish to consider new ways to alter bargaining over imagery in society, the very idea of the V-chip or its equivalent is moving across other technologies, including the Internet. The V-chip issue has also fueled the ongoing debate about violence and sexual practices in society, and how representations on television relate to those practices. Although the initial concept of the V-chip is simple, its flow into the public realm raises so many extraordinary questions that the introduction and production of the chip virtually serves as a case study in problems of law and public policy. The very conceptualization of speech in society is being affected by this issue. Accordingly, the place of the V-chip in this debate is increasingly important; indeed, it may be argued that the V-chip's contribution to legal argumentation may be greater than its ultimate contribution to the relationship between children and imagery. Among the questions the contributors address are: \*What research basis is necessary to require a framework for labeling and rating? \*What relationship between government and the image-producing industries can be characterized--for constitutional and other reasons--as voluntary

as opposed to coercive? \*Who should evaluate these images? \*To what extent should the evaluation process be centralized and/or distributed? \*What assessment is appropriate to evaluate whether the experiment is successful? In addition to the V-chip's origin's in Canada and its further evolution in the United States, this book discusses the development of the V-chip and television rating systems in Europe, Australia, and throughout the world. It also includes essays which contrast the very different approaches in Canada and the United States in terms of the role of regulatory agency, industry, and government.
