Solidarity in Strategy Lyn Spillman,2012-07-27 Popular conceptions hold that capitalism is driven almost entirely by the pursuit of profit and self-interest. Challenging that assumption, this major new study of American business associations shows how market and non-market relations are actually profoundly entwined at the heart of capitalism. In *Solidarity in Strategy*, Lyn Spillman draws on rich documentary archives and a comprehensive data set of more than four thousand trade associations from diverse and obscure corners of commercial life to reveal a busy and often surprising arena of American economic activity. From the Intelligent Transportation Society to the American Gem Trade Association, Spillman explains how business associations are more collegial than cutthroat, and how they make capitalist action meaningful not only by developing shared ideas about collective interests but also by articulating a disinterested solidarity that transcends those interests. Deeply grounded in both economic and cultural sociology, *Solidarity in Strategy* provides rich, lively, and often surprising insights into the world of business, and leads us to question some of our most fundamental assumptions about economic life and how cultural context influences economic.

Renaissance Lawman Martin Alan Greenberg,2020-02-03 *Renaissance Lawman: The Education and Deeds of Eliot H. Lumbard* details the life, education, and public service career of Eliot Howland Lumbard. A lawyer, who most of his life, lived and worked in Manhattan and whose legal career spanned more than fifty years beginning in the early 1950s. Lumbard is easily identified as a renaissance lawman for having gained considerable expertise in the operations of the political and justice systems, and for proceeding to capitalize on this knowledge to become both an advocate and initiator of progressive reforms for criminal justice. His contributions on behalf of public safety have been largely forgotten but throughout this intriguing biography Martin Alan Greenberg successfully juxtaposes many of Lumbard's professional activities with many of the major historical developments and challenges of his time. The chronicled events emphasize what motivated the people in his generation to behave as they did since the world today is a much different place than what Americans were experiencing in the first three decades after WW II. Cultural and technological changes have combined to make our present-day world quite different from over a half-century ago. *Renaissance Lawman* proves to be especially rewarding to a wide-range of readers interested in police work, criminal justice history, public service leadership, and legal ethics. There are no other comparable books on the market. Lumbard certainly had a unique legal career and his impactful contributions have seldom, if ever, been duplicated – even if his contributions, on behalf of public safety, have been largely forgotten.

New Perspectives on CALL for Second Language Classrooms Sandra Fotos,Charles M. Browne,2013-06-17 This practical handbook is designed to help language teachers, teacher trainers, and students learn more about their options for using computer-assisted language learning (CALL) and develop an understanding of the theory and research supporting these options. The chapters in *New Perspectives on CALL for Second Language Classrooms* synthesize previous CALL theory and research and describe practical applications to both second and foreign language classrooms, including procedures for evaluating these applications. The implementation of CALL at the institutional level is also addressed, with attention to designing multimedia language laboratories and creating collaborative CALL-based projects between educational institutions. Although many chapters locate their descriptions of CALL activities and projects within the ESL/EFL setting, the principles and activities described are equally useful for other language settings. The book does not require prior knowledge of CALL, computers, or software. To assist readers, a glossary of CALL terms and

an appendix of CALL Web sites are provided. The book also has its own accompanying Web site (<http://www.erlbaum.com/callforL2classrooms>) presenting chapter abstracts, author contact information, and regularly updated links to pedagogical, research, and teacher development sites. By integrating theoretical issues, research findings, and practical guidelines on different aspects of CALL, this book offers teachers multiple levels of resources for their own professional development, for needs-based creation of specific CALL activities, for curriculum design, and for implementation of institutional and inter-institutional CALL projects.

Contempt of Court Great Britain: Law Commission,2012-11-28 A number of high-profile cases involving contempt of court have recently highlighted the need for a review of this area of the law. These include: a juror who was found to have researched the defendant on the internet; the first internet contempt by publication, which concerned the posting of an incriminating photograph of a defendant on a website; contempt proceedings for the vilification of Chris Jefferies during the investigation into the murder of Joanna Yeates; and proceedings for contempt by publication following the collapse of the prosecution of Levi Bellfield. Contempt of court covers a wide variety of conduct which undermines or has the potential to undermine the course of justice, and the procedures which are designed to deal with them. This consultation paper focuses on four specific areas of contempt: 1. contempt by publication; 2. the new media; 3. contempts committed by jurors; and 4. contempt in the face of the court. The new media pose a number of challenges to the existing laws on contempt of court, which pre-date the internet age. In addition, there are concerns that some aspects of the law or procedure relating to contempt of court may be unclear or incompatible with the European Convention on Human Rights. The consultation considers whether the law and procedure for dealing with the contempts outlined above are adequate. It proposes a number of reforms, which are intended to make the law fair, understandable, practicable and future-proof.

Interfaith Dialogue Edmund Kee-Fook Chia, 2016-09-15 This book addresses issues central to today's Catholic Church, focusing on the relationship between various religions in different contexts and regions across the world. The diverse array of contributors present an inclusively interfaith enterprise, investigating a wide range of encounters and perspectives. The essays include approaches from the Jewish, Muslim, Buddhist, and Bahá'í traditions, in a variety of geographic contexts. Contributors reflect on Muslims in the West, Christian-Buddhist social activism, and on Chinese, Indian, and Japanese religions. The volume also explores the experiences of communities that are often marginalized and overlooked such as the Aborigines and Torres Strait Islanders of Australia and the Karen tribal peoples of Thailand. Contributors examine the works of the Focolare, Gülen, and Risshō Kōsei-kai movements, and integrate the vision of Raimon Panikkar and Ken Wilber. Chapters incorporate discussions of dialogue documents such as Nostra Aetate and Dabru Emet, and methodologies such as Receptive Ecumenism, Comparative Theology, and Scriptural Reasoning. Among other goals, the book seeks to offer glimpses into interfaith dialogues across the world and examine what Christians can learn from other religions and global contexts.
