*Improving Patient Treatment Adherence* Hayden Bosworth,2010-07-03 Despite its direct effect on a patient's health, the literature on treatment adherence does not yet include a summary of proven methods for identifying and addressing patient non-adherence. *Improving Patient Treatment Adherence Across Multiple Behaviors: A Clinician's Guide* differs significantly from many treatment adherence books on the market by focusing on clinicians and the practical tactics they need to improve patient adherence. The book is organized by behavior and special issues as opposed to other texts, which look at treatment adherence as a theoretical concept. Each chapter provides a summary of existing literature regarding the impact of patient non-adherence, including costs, clinical outcomes and health-related quality of life, as well as a review of patient factors related to treatment adherence across behaviors, diseases, and special populations. A discussion of methods for improving treatment adherence takes a look at both proven methods and new technological advances in the field. Each chapter includes a table listing 3-5 key bullets that a clinician could use to address treatment adherence. Actual questions and scoring algorithms for widely used measures of treatment adherence make this book a useful guide for practicing clinicians.

*Overcoming School Refusal* Joanne Garfi,2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. *Overcoming School Refusal* helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

**Aggression in Pornography** Eran Shor,Kimberly Seida,2020-07-21 Aggression in Pornography focusses on the issue of violence in mainstream pornography and examines what we know, what we think we know, and what are some surprising research findings and insights about the place of violence within pornography today. The authors first review the modern pornography industry, theoretical claims about pornography as violence, and the ways in which aggression has been defined and measured in previous research. Next, they review the findings of empirical research on violent content in pornographic materials and the potential effects of such content on audiences . The main part of the book relies on systematically collected empirical data, as the authors analyze the content of hundreds of pornographic videos as well as more than a hundred interviews with men and women who regularly watch pornography. These analyses provide surprising insights regarding the prevalence of and trends in violent content within mainstream pornography, the popularity of violent and non-violent content among viewers, and variations in aggression by race and sexual orientation. As such, Aggression in Pornography will be of interest to students and researchers in sociology, gender and sexuality studies, and media and film studies, as well as to wider audiences who are interested in today's pornography industry and to policymakers looking to devise empirically driven policies regarding this industry and its potential effects.

**Machine Hallucinations** Matias del Campo,Neil Leach,2022-07-13 AI is already part of our lives even though we

might not realise it. It is in our phones, filtering spam, identifying Facebook friends, and classifying our images on Instagram. It is in our homes in the form of Siri, Alexa and other AI assistants. It is in our cars and our planes. AI is literally everywhere. Artworks generated by AI have won international prizes, and have been sold at auction. But what does AI mean for the world of design? This issue of AD explores the nature of AI, and considers its potential for architecture. But this is no idle speculation. Architects have already started using AI for architectural design and fabrication. Yet – astonishingly – there has been almost no debate about AI within the discipline of architecture so far. Surely, nothing can be more important for the profession of architecture right now. The issue looks at all aspects of AI: its potential to assist architects in designing buildings so that it becomes a form of ‘augmented intelligence’; its capacity to design buildings on its own; and whether AI might open up an extraordinary new chapter in architectural design. Contributors: Refik Anadol; Daniel Bolojan; Alexa Carlson; Sofia Crespo and Feileacan McCormick; Gabriel Esquivel, Jean Jaminet and Shane Bugni; Behnaz Farahi; Theodoros Galanos and Angelos Chronis; Eduard Haiman; Wanyu He; Damjan Jovanovic and Lidija Kljakovic; Immanuel Koh; Maria Kuptsova; Sandra Manninger; Lev Manovich; Achim Menges and Thomas Wortmann; Wolf dPrix, Karolin Schmidbaur and Efilena Baseta; M Casey Rehm; and Hao Zheng and Masoud Akbarzadeh. Featured architects: Alisa Andrasek, Coop Himmelb(l)au, Lifeforms.io, Nonstandardstudio, SPAN, Kyle Steinfeld, Studio Kinch and Xkool Technology.

**Meat!** Sushmita Chatterjee, Banu Subramaniam, 2021-03-26 What is meat? Is it simply food to consume, or a metaphor for our own bodies? Can “bloody” vegan burgers, petri dish beef, live animals, or human milk be categorized as meat? In pursuing these questions, the contributors to Meat! trace the shifting boundaries of the meanings of meat across time, geography, and cultures. In studies of chicken, fish, milk, barbecue, fake meat, animal sacrifice, cannibalism, exotic meat, frozen meat, and other manifestations of meat, they highlight meat's entanglements with race, gender, sexuality, and disability. From the imperial politics embedded in labeling canned white tuna as “the chicken of the sea” to the relationship between beef bans, yoga, and bodily purity in Hindu nationalist politics, the contributors demonstrate how meat is an ideal vantage point from which to better understand transnational circuits of power and ideology as well as the histories of colonialism, ableism, and sexism. Contributors Neel Ahuja, Irina Aristarkhova, Sushmita Chatterjee, Mel Y. Chen, Kim Q. Hall, Jennifer A. Hamilton, Anita Mannur, Elspeth Probyn, Parama Roy, Banu Subramaniam, Angela Willey, Psyche Williams-Forsen

**Epic Win for Anonymous** Cole Stryker, 2011-09-01 A “sharp, witty, and well-researched” history of 4chan and its cultural impact (The Rumpus). Today it has millions of monthly users, and enormous social influence. Epic Win for Anonymous is the first book to tell 4chan's story.
