Each topic is arranged in alphabetical order under its section. Topics are all new to this title and include the Ancient World, Historic World Events, State and Local History, US History, Government and Citizenship, Sociology, Culture and Economics. The book includes the following sections in each Jumpstart: A cited quote about the topic, Related Jumpstarts, New Words, You are There, Topics to Consider, Books, Internet, For the Teacher, and a relevant activity. Each Jumpstart provides a helpful pathfinder that enables students to efficiently access information and learn new information literacy skills as they research topics of personal interest or gather information for school reports. Grades 3-8.

**The Labour Politics of App-Based Driving in Vietnam** Joe Buckley,2023-10-19 Over the past decade, app-based driving services like ride-hailing and delivery have become an integral part of business, employment and daily life in Vietnam. This growth, however, has been accompanied by tensions and conflicts between ride-hailing platforms and traditional taxi companies, xe ôm (motorbike taxi drivers), the authorities and the drivers working for these platforms. Most drivers on these services are male and work long hours for low wages. Their working conditions are precarious because platforms classify them as partners rather than employees, denying them basic rights and benefits. Although platforms offer bonuses, organize events to celebrate drivers' contributions, and provide training courses, these do not address the fundamental exploitation in the employment relationship. The Ministry of Labour, Invalids and Social Affairs (MOLISA) has not taken sufficient action to protect drivers or taken a stance on whether they should be classified as contractors or employees. The Vietnam General Confederation of Labour (VGCL) is working towards securing social protection for drivers and increasing their representation in labour associations. While some members of the VGCL have argued that app-based drivers are actually workers and should be afforded the same rights and benefits as all workers, this is as yet not the formal position of the confederation. Drivers have taken to organizing strikes and protests to demand better treatment from the platforms. Their methods of activism are rooted in both traditional Vietnamese labour activism and global trends of platform protest. The emergence of the gig economy in Vietnam is a challenge to sustainable development. Policymakers and practitioners are called upon to ensure that platform work contributes to improved livelihoods and decent lifestyles for all.

**Driving With Music: Cognitive-Behavioural Implications** Warren Brodsky,2017-03-02 This book, the first full-length text on the subject, explores the everyday use of music listening while driving a car. It presents the relationship between cars and music in an effort to understand how music behaviour in the car can either enhance driver safety or place the driver at increased risk of accidents. A great deal of work has been done to investigate and reduce driver distraction and inattention, but this book is the first to focus on in-cabin aural backgrounds of music as a contributing factor to human error and traffic violations. Driving With Music begins by outlining the automobile, its relationship to society, and the juxtaposition of music with the automobile as a complete package. It then highlights concepts from the fields of music perception and cognition, and, within this framework, looks at the functional use of background music in our everyday lives. Driver music behaviours - both adaptive and maladaptive - are explored, with the focus on contradictions and ill-effects of in-car music listening. To conclude, implications, applications and countermeasures are suggested.

Azerbaijan as a Regional Economic Driver Makgetlaneng, Sehlare,2016-10-15 The political economy of Azerbaijan has been interlinked in the internal and external relations of the country. This is exit for energy policy. It explains the qualitative socio-historical and political leap forward, referring to the efforts of President Heydar Aliyev, who signed the PSA with transnational energy corporations in 1994. According to this publication, the construction of multiple oil and gas pipelines represents the success of Azerbaijan's independent energy policy. Azerbaijan as a Regional Economic Driver: Opportunities and Challenges emphasises leading sectors of Azerbaijan's

economy such as transport, construction, agriculture, information and communications technology, tourism and banking. It is noteworthy that the book refers to 'Azerbaijan 2020' when explaining the country's policy to transform itself from an energy-based economy to a knowledge-based one. This publication serves to recognise Azerbaijan as a reliable partner in international relations. It also scrutinises advantages and disadvantages of trade-off between strategic choices oriented to the European Union and/or the Eurasian Union.
