Subway Ceramics Lee Stookey, 1994

Old House Interiors, 1998 National architectural magazine now in its fifteenth year, covering period-inspired design 1700–1950. Commissioned photographs show real homes, inspired by the past but livable. Historical and interpretive rooms are included; new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising—all of it design-related, no “lifestyle” ads—is as important to them as the articles.

Companies and Their Brands, 2005

The Mosaic Tile Company Larisa Harper, 2022-03-24 Founded in 1894, the Mosaic Tile Company was the dream of two ceramic pioneers who intended to manufacture innovative ceramic mosaic murals while also dominating the utilitarian market. One of the largest such companies in the United States at the time, MTC's most significant contribution to the burgeoning Ohio pottery industry was the development of innovative and varied proprietary tile production and installation methods. Compared to its emphasis on mosaic murals, MTC's utilitarian and giftware goods were produced in limited quantities and were not well received at the time, making them rarer today. This book chronicles the history of ceramic creativity in Zanesville, Ohio, from its earliest days as a bustling town before the Great Depression through its recovery in the 1960s. It examines the Mosaic Tile Company's whole history, the bygone details of this long-lost business, its products and its employees, and incorporates images and postcards illustrating its products in each chapter.

Dwell, 2005-07 At Dwell, we're staging a minor revolution. We think that it's possible to live in a house or apartment by a bold modern architect, to own furniture and products that are exceptionally well designed, and still be a regular human being. We think that good design is an integral part of real life. And that real life has been conspicuous by its absence in most design and architecture magazines.

Global and Local Art Histories Celina Jeffery, Gregory Minissale, 2009-03-26 There are now many books on postcolonial theory, yet relatively few of them gather together sustained, dynamic and insightful analyses of visuality, art and art history outside of hegemonic Euro-American themes and concerns. *Global and Local Art Histories* explores what it means to have a global and local experience of art. The 15 essays published here suggest ways of interpreting works of art from a broad range of cultural perspectives, many of them transcultural. Here are voices contesting concepts of history and culture, evaluating and exploring global and local identities in a changing world. Because of the variety of different approaches and cultural perspectives that *Global and Local Art Histories* brings together, the book presents a unique opportunity to question what we mean by that dangerously globalising category: “the work of art” and “art history” exploring “g-local” approaches that challenge such falsely universalising rubrics.
