Comebacks Andrea Redmond, Patricia Crisafulli, 2010-04-26 Gold Medal Winner, Success and Motivation, 2011 Axiom Business Book Awards
Insight from leaders who experienced major setbacks and redefined success In tough economic times, when careers are derailed and leaders are forced to rewrite their professional plans, this book enlightens and uplifts. Comebacks features an all-star cast of ten leaders who endured setbacks-for some a public fall in the midst of media scrutiny-then reassessed and moved ahead with new purpose. Based on revealing interviews, the book presents a behind-the-headlines glimpse into the lives of leaders; how they drew upon resources, both internal and external, to move on; and the lessons that helped them redefine success. Leaders profiled include: Jacques Nasser, former CEO of Ford Motor Co., recently appointed Chairman of BHP Billiton, the world's largest natural resources company Patricia Dunn, former Chair of Hewlett-Packard, vilified for her alleged role in corporate espionage only to be exonerated from all charges, today active in philanthropy Jamie Dimon (JP Morgan), Herbert Pug Winokur (Enron Corp.), David Neeleman (JetBlue), and more Redmond, a top executive recruiter, and Crisafulli, author of The House of Dimon, show how all leaders face adversity, but true leaders turn adversity into success.

Listening to the Future Daniel W. Rasmus, Rob Salkowitz, 2009-08-11 Listening to the Future: Why It's Everybody's Business explores the challenges and opportunities facing organizations, the transformations that will ripple through the political, economic, and social environments, and the implications for different industries in the 21st century workplace. Written by Microsoft forecasters Daniel W. Rasmus and Rob Salkowitz, this important book equips your business to get out in front of new technology innovations in the consumer world with the knowledge, practices, and tools to differentiate your business in our competitive, fast-moving global economy.

Databases, Information Systems, and Peer-to-Peer Computing Wee Siong Ng, Beng Chin Ooi, Aris Ouksel, Claudio Sartori, 2005-02-25 Peer-to-peer (P2P) computing promises to offer exciting new possibilities in distributed information processing and database technologies. The realization of this promise lies fundamentally in the availability of enhanced services such as structured ways for classifying and registering shared information, verification and certification of information, content-distributed schemes and quality of content, security features, information discovery and accessibility, interoperation and composition of active information services, and finally market-based mechanisms to allow cooperative and non-cooperative information exchanges. The P2P paradigm lends itself to constructing large-scale complex, adaptive, autonomous and heterogeneous database and information systems, endowed with clearly specified and differential capabilities to negotiate, bargain, coordinate, and self-organize the information exchanges in large-scale networks. This vision will have a radical impact on the structure of complex organizations (business, scientific, or otherwise) and on the emergence and the formation of social communities, and on how the information is organized and processed. The P2P information paradigm naturally encompasses static and wireless connectivity, and static and mobile architectures. Wireless connectivity combined with the increasingly small and powerful mobile devices and sensors pose new challenges to as well as opportunities for the database community. Information becomes ubiquitous, highly distributed and accessible anywhere and at any time over highly dynamic, unstable networks with very severe constraints on the information management and processing capabilities.

The Future of Looking Back Richard Banks, 2011 What will we leave behind in this new digital age? As digital technology takes an ever-increasing role in our lives, one question is how we'll manage our collections after we're gone. What takes the place of shoeboxes full of pictures and dog-eared record albums? Get an inside look at Microsoft researcher Richard Banks's thinking about how we might manage the digital artifacts and

content we're creating now--and how we might pass on or inherit these kinds of items in the future. About the Microsoft Research Series At Microsoft Research, we're driven to imagine and to invent. Our desire is to create technology that helps people realize their full potential, and to advance the state of the art in computer science. The Microsoft Research series shares the insights of Microsoft researchers as they explore the new and the transformative.

Predictive Policing Walter L. Perry,Brian McInnis,Carter C. Price,Susan C. Smith,John S. Hollywood,2013-09-23 Predictive policing is the use of analytical techniques to identify targets for police intervention with the goal of preventing crime, solving past crimes, or identifying potential offenders and victims. These tools are not a substitute for integrated approaches to policing, nor are they a crystal ball. This guide assesses some of the most promising technical tools and tactical approaches for acting on predictions in an effective way.

Beyond Smart Cities José A. Ondiviela,2021-10-21 Cities are experiencing unprecedented times. In addition of managing the best possible post-pandemic recovery, Cities are at the beginning of the 4th industrial revolution, and all want to play a relevant role in it. To achieve this, they must retain and attract the necessary talent. There is a fierce competition where cities transform to become as attractive as possible. But what makes a city attractive (from emotional and rational sides) to talented citizens? For mayors and city directors: how can I prepare my city for this goal? What kind of transformations in the medium-long term should I develop? And in the short term, what processes and technologies (SmartCity) should I put in place? And from the point of view of citizens: how do I choose the best city to develop my full potential? Which one offers me the best citizenship contract? Where am I going to enjoy the best services with the highest quality of life and lower taxes/cost of life? In addition, the city must be attractive, with a strong identity and dynamism and promising future. Can I find the cities that best suit my aesthetic and emotional preferences, and that also offer me the services that I consider a priority at the lowest cost to my pocket? Find all the answers in this book.

The Innovation Biosphere Eunika Mercier-Laurent,2015-06-15 This book addresses those involved in research or R&D. It introduces the principles of eco-innovation and the importance of the impact of their activity. This topic is considered in the context of natural and digital ecosystems powered by intelligent assistants (technology). Chapter 1 positions the innovation as a process and component of ecosystems including

research, enterprises, technology (digital ecosystems) and environment. Sustainable success is a condition of survival and an expectation of those who invest in innovation. Chapter 2 describes the main elements to consider and gives some tips. Chapter 3 presents some selected initiatives at the national and European level and provides a way of measuring success.

Reinventando el periódico: Una estrategia para la supervivencia de la prensa diaria Plácido Moreno, 2009-09-02 Actualmente, los periódicos viven una crisis sin precedentes. Algo que podríamos denominar como una tormenta perfecta. La crisis económica global, los cambios en los hábitos de consumo de la información producidos por Internet, la crisis de confianza en el periódico y la irrupción de la era de la posverdad (Fake News) están forzando a esta industria a profundos cambios. Esta premonitoria obra escrita en 2009 y galardonada por la Fundación Europea para la Sociedad de la Información aborda el complejo proceso de transformación de la industria de los periódicos desde un punto de vista sistémico y riguroso. Una obra de recomendada lectura para los jóvenes estudiantes de Comunicación, profesionales del sector e investigadores académicos.

Microsoft Azure Essentials Azure Machine Learning Jeff Barnes, 2015-04-25 Microsoft Azure Essentials from Microsoft Press is a series of free ebooks designed to help you advance your technical skills with Microsoft Azure. This third ebook in the series introduces Microsoft Azure Machine Learning, a service that a developer can use to build predictive analytics models (using training datasets from a variety of data sources) and then easily deploy those models for consumption as cloud web services. The ebook presents an overview of modern data science theory and principles, the associated workflow, and then covers some of the more common machine learning algorithms in use today. It builds a variety of predictive analytics models using real world data, evaluates several different machine learning algorithms and modeling strategies, and then deploys the finished models as machine learning web services on Azure within a matter of minutes. The ebook also expands on a working Azure Machine Learning predictive model example to explore the types of client and server applications you can create to consume Azure Machine Learning web services. Watch Microsoft Press's blog and Twitter (@MicrosoftPress) to learn about other free ebooks in the Microsoft Azure Essentials series.

Visual Communication for Cybersecurity Nicole van Deursen, 2022-09-01 Cybersecurity needs a change in communication. It is time to show the world that cybersecurity is an exciting and diverse field to work in. Cybersecurity is not only about hackers and technical gobbledygook. It is a diverse field of work with a lot of collaboration with other disciplines. Over the years, security professionals have tried different awareness strategies to promote their work and to improve the knowledge of their audience but without much success. Communication problems are holding back advances in the field. Visual Communication for Cybersecurity explores the possibilities of visual communication as a tool to improve the communication about cybersecurity and to better connect with non-experts. Visual communication is useful to explain complex topics and to solve complex problems. Visual tools are easy to share through social media and have the possibility to reach a wide audience. When applied strategically, visual communication can contribute to a people-centric approach to security, where employees are encouraged to actively engage in security activities rather than simply complying with the policies. Cybersecurity education does not usually include communication theory or creative skills. Many experts think that it is not part of their job and is best left to the communication department or they think that they lack any creative talent. This book introduces communication theories and models, gives practical tips, and shows many examples. The book can support students in cybersecurity education and professionals searching for alternatives to bullet-point presentations and textual reports. On top of that, if this book succeeds in inspiring the reader to start creating visuals, it may also give the reader the pleasure of seeing new possibilities and improving their performance.

Internet, Mobile Devices und die Transformation der Medien Ulrich Dolata, Jan-Felix Schrape, 2013 Neue Online- und Mobiltechnologien setzen klassische Mediensektoren wie die Musikindustrie, den Buchhandel oder die Presse zum Teil massiv unter Druck. Sie stellen eingespielte

Produktions- und Vertriebsweisen infrage, verlangen nach veränderten Regeln und Geschäftsmodellen, fördern das Auftreten neuer Akteure und tragen zum allgemeinen Strukturwandel der Öffentlichkeit bei. In diesem Buch wird danach gefragt, wie sich Mediensektoren, Wertschöpfungsprozesse und Öffentlichkeitsstrukturen durch das Internet und durch Mobile Devices verändern: Wie tiefgreifend ist dieser Wandel und welche Verlaufsformen nimmt er an? Wie reagieren etablierte Akteure auf diese Herausforderungen und welche Rolle spielen neue Akteure in diesen Transformationsprozessen? Stehen alte und neue Medienstrukturen in einem konkurrierenden oder in einem komplementären Verhältnis zueinander? Die Beiträge des Bandes zeigen, dass sich der einschneidende mediale Wandel nicht als radikaler Bruch in kurzer Frist fassen lässt, sondern als schrittweiser und diversifizierter Restrukturierungsprozess begriffen werden sollte: Weit typischer als der fundamentale Austausch von Akteuren, Strukturen und Arenen medialer Öffentlichkeit sind Formen graduellen Wandels, der Koexistenz und wechselseitigen Ergänzung alter und neuer Medienstrukturen. - Dieser Band ist auch als E-Book (PDF) erhältlich

The effects of AI on the working lives of women Collett, Clementine, Gomes, Livia Gouvea, Inter-American Development Bank, Neff, Gina, Organisation for Economic Co-operation and Development, UNESCO, 2022-03-08 The development and use of Artificial Intelligence (AI) continue to expand opportunities for the achievement of the 17 United Nations Sustainable Development Goals (SDGs), including gender equality. Taking a closer look at the intersection of gender and technology, this collaboration between UNESCO, the Inter-American Development Bank (IDB) and the Organisation for Economic Co-operation and Development (OECD) examines the effects of AI on the working lives of women. This report describes the challenges and opportunities presented by the use of emerging technology such as AI from a gender perspective. The report highlights the need for more focus and research on the impacts of AI on women and the digital gender gap, in order to ensure that women are not left behind in the future of work.

Great Global Grid Robert Marcus, 2002 Emerging Technology Strategies and the Great Global Grid The next generation of the Internet will produce dramatic economic and social changes exceeding even the World Wide Web. Several emerging technologies are converging to create a Great Global Grid infrastructure where universal connectivity to large computing resources will be available for consumers and enterprises. The goal of this book is to provide a systematic survey of the full spectrum of Great Global Grid technologies from an enterprise viewpoint. The Great Global Grid - The range of technologies comprising the Great Global Grid is very wide. One of the main contributions of the book is to categorize these technologies in detail and to explain the dependencies among them. The technologies include: Application Servers and Portals Enterprise Application Integration and B2B Middleware Web Services and XML Messaging Peer-to-Peer Collaboration Pervasive Computing: Middleware and Software Platforms Distributed Resource Managers, Clusters and Grids Global Grid Middleware Conclusions for the Future Emerging Technology Strategies - The book does not hype these technologies or their benefits. Section 1 of the book describes examples of past emerging technologies that failed to realize their initial vision. Based on the lessons learned from these experiences, a pragmatic technology evaluation template is created that includes: Overview of the technology Relationships to other technologies Important technical and business trends Specific applications Industry and official standards Vendor overview by application area Leading implementation approaches Advice on deployment Future technical and business directions Recommendations Audience - The information collected in this book is not available from any other single source. The broad range of technologies, standards and vendors covered is necessary to understand the future enterprise applications of the Internet. The following groups should find the contents of this book especially valuable. Decision makers for the evaluation strategy and discussions of current products, standards and open issues Developers and architects for the overview of many advanced software technologies and their relationships Consultants for the industry analysis of vendors and business applications Futurists for the trends and research that are the basis of the next generation Internet Students for the industrial

applications and open source projects

Microsoft Future.htm: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the captivating narratives that have charmed audiences this year. The Must-Read : Colleen Hoovers "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Microsoft Future.htm : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
