We Visit Iraq Claire O'Neal,2011-09-15 Welcome to Iraq, the birthplace of history! Iraq's Tigris and Euphrates rivers turned this Middle Eastern desert into the world's first farmland. Over six millenia, Iraq's civilizations have laid foundations for the rest of the world. They built great stone ziggurats and soaring mosques. They invented the wheel, the calendar, and the written word. With their riches, they also attracted war. Conqueror after conqueror—the bloodthirsty Assyrians, Alexander the Great, the Mongols, the British, and more—sought to claim Mesopotamia for their own. Today, Iraq's enormous oil deposits, the cheapest to produce in the world, interest outside powers most. From the Taurus and Zagros mountains in the north to marshy Basra in the south, Iraqis have suffered under oppressive rulers and dictators for a thousand lifetimes. Today they cry out for a chance at freedom and democracy. The country's lasting legacy in stone and thought hints that the determined Iraqi people will find their path to greatness once more.

The Nixon Effect Douglas E. Schoen,2016-01-19 The Nixon Effect examines the 37th president's political legacy in broad-ranging ways that make clear, for the first time, the breadth and duration of his influence on American political life. The book argues that Nixon is the key political figure in postwar American politics in multiple ways, some barely acknowledged until now. His legacy includes a generational shift in the ideological orientations of both the Republican and Democratic parties; the Nixon influence, both intentional and unintentional, was to push both parties further out to their ideological poles. So stark was Nixon's influence on party identities that it shaped the hardened

partisan polarization in Washington today and the evolution of what has come to be called Red and Blue America. Stemming in part from this, and also from Nixon's scorched-earth political warfare and eventually his Watergate scandal, we have also seen the evolution of politics as war, where adversaries and ideological opponents are seen as evil or unpatriotic. Finally, Nixon's pioneering tactics—from the identification of the Silent Majority to the Southern Strategy, from “triangulating” between both parties and claiming the political center to launching the culture war with attacks on “elites” in media, academia, and the courts—have shaped political communications and strategy ever since. Other books have argued for Nixon's importance, but Douglas E. Schoen's is the first to take into account the full range of this fascinating man's influence. While not discounting Nixon's many misdeeds, Schoen treats his presidency and its importance with the seriousness—and evenhandedness—that the subject deserves.

Reallocating Resources Allan Odden, Sarah Archibald, 2001 Chapter 1, Step 1: The Change Process, focuses on the change process and describes why and how schools engage in program restructuring and resource allocation. Chapter 2, Step 2: Defining a New Educational Strategy, discusses decisions that must be made about the regular education program and how the various schools adopted, adapted or created curriculum and instructional strategies. Chapter 3, Step 3: Organizing and Staffing the School to Support the New Educational Strategy, shows how core educational strategy decisions determine the cost structure of schools. It addresses such issues as student grouping, class size, planning and preparation time, and professional development. Chapter 4, Step 4: Deciding How to Serve Students Who Need Extra Help, describes the resource requirements of choices for serving special needs students, including expensive new strategies funded through resource allocation. Chapter 5, Step 5: Paying for the Changes, reviews the resource allocation strategies

to pay for expensive new educational programs by such staff categories as regular classroom teachers, regular education specialists, remedial specialists, pupil support specialists, instructional aides, and other staff. Chapter 6, Step 6: Effects of Resource Reallocation and District Roles to Support Such Change, examines how reallocation and restructuring strategies at two schools helped increase student achievement. For Him Who Has Eyes to See Edmund J.

Rybarczyk, 2016-09-30 Too many Christians are afraid of beauty. This fear disconnects these Christians from their larger culture, a culture that is increasingly visual, increasingly aware of the presence and power of images, and more commonly fascinated by the power of beauty and form. This historical-theological overview presents the thought of ten theologians and one philosopher in an attempt to give Christians helpful vocabulary concerning beauty and aesthetics. It is time to use beauty and aesthetics for the mission of Christ! And yet rather than simply parrot the larger post-Christian culture, Christians and churches need to employ beauty and aesthetics in a manner that echoes God's own revelation: creation and redemption through Jesus Christ. We need to develop a sensitivity that can perceive beauties ignored. We need theological framing that both respects the glory of God's handiwork and keeps it from becoming idolatrous. We need to live with wonder for the bounty that routinely surrounds us. In short,

we need eyes to see.

Camping Illinois Ted Villaire, 2010-05-04 Camping Illinois is the first campground guidebook to explore the Prairie State's surprising bounty of quiet, out-of-the-way parks replete with lakes, rivers, wetlands, rugged hills, and rocky cliffs - from every state park camping option to lesser-known county and village parks, as well as federal campgrounds. Ted Villaire gives us the lowdown as he covers northern Illinois and Chicagoland, the plains, the region between the Illinois and the Mississippi Rivers, the St. Louis area, and the Shawnee National Forest. If a campground is too close to an interstate or if there is little level ground to pitch a tent, you'll hear about it. If one is well maintained, with large campsites in a lovely landscape, you'll hear about that too. Look inside for information on: • Campground locations • Facilities and hookups • Fees and reservations • Recreational activities • What equipment and clothing to bring • Tips on wildlife and safety

Global Strategic Developments The Emirates Center for Strategic Studies and Research, 2012-06-19 The world today faces numerous challenges, including the ongoing fallout from the financial crisis and varied and diverse examples of violence and conflict across the globe. Combined with the many changes affecting both the regional and global balance of power - such as the apparent decline of the United States, the growing influence of the East, and the evolving role of international organizations - these challenges have led some to question how global power will be distributed in the coming two decades. All nations are exposed to the influences of international policy and ongoing developments in the world order. Understanding these developments, as well as the associated implications for international security and stability, enables national policy makers to identify and capitalize on strategic opportunities. A future strategic vision for the Gulf must encompass a range of issues, including internal, regional and global aspects. The states

of the region must develop stronger domestic resilience by binding citizens to the state in a way that reduces its vulnerability to malign transnational forces. Gulf states will wish to further deepen their links to the countries of the East—particularly states such as South Korea, Japan, Australia, China and India, all of whom have different ways that they can contribute to regional stability. They may also wish to be exporters rather than merely importers of security, contributing to international missions authorized by the UN and other international bodies. States that have this sense of international social responsibility become more vital to the global system as a whole. The GCC states will also wish to revive and increase the flexibility of their regional security apparatus, perhaps to engage Iran, Iraq and Yemen, and gain more control of immediate regional dynamics. Driving regional security in this way will partly insulate the GCC countries from the diplomatic initiatives of others that may not be consistent with GCC interests. Furthermore, the GCC states will seek to build stronger institutional links among themselves, deepening the co-operation and contacts between the civil servants of the member countries so that diplomacy between them is derived from disciplined organizational procedures. Just as each state has to develop its domestic resilience, so through institution-building should the GCC strengthen its corporate resilience. Overall the Gulf states need to develop an increasingly global outlook, even as they deal with internal challenges. They must find more ways to engage productively in the broader security dialogue of the region, with outside actors from Europe, North America and Asia. In the age of globalization, the states of the region need to be very mindful of the place good governance has in ensuring that the rest of international society is able to effectively engage with the Gulf states.

Dynamics of Political Violence Chares Demetriou,2016-04-29

Dynamics of Political Violence examines how violence emerges and develops from episodes of contentious politics. By considering a wide range of empirical cases, such as anarchist movements, ethno-nationalist and left-wing militancy in Europe, contemporary Islamist violence, and insurgencies in South Africa and Latin America, this pathbreaking volume of research identifies the forces that shape radicalization and violent escalation. It also contributes to the process-and-mechanism-based models of contentious politics that have been developing over the past decade in both sociology and political science. Chapters of original research emphasize how the processes of radicalization and violence are open-ended, interactive, and context dependent. They offer detailed empirical accounts as well as comprehensive and systematic analyses of the dynamics leading to violent episodes. Specifically, the chapters converge around four dynamic processes that are shown to be especially germane to radicalization and violence: dynamics of movement-state interaction; dynamics of intra-movement competition; dynamics of meaning formation and transformation; and dynamics of diffusion.

Social Studies Content for Elementary and Middle School Teachers Penelope Joan Fritzer,2002 We live in a world where our mobile devices have become extensions of ourselves. We depend on them for instant connections to entertainment, social media, news, and deals. The phone has become our ticket, loyalty card, and catchall wallet. Networks are faster, phones are smarter, and the mobile shopper is ready to spend money now. What can a business do to maximize the mobile buying power of the new impulse consumer? Gary Schwartz has written a

groundbreaking book that outlines the history of the mobile industry and shows just how businesses can build up their mobile platforms to maximize online sales. He'll explain: - How to minimize barriers between the shopper and a sale. - How marketers can connect and, more important, reconnect with loyal shoppers. - The technology available now-and what's coming soon-and how to pick a solution that will deliver results. But like Blink or Freakonomics, this isn't just a book for businesses. It's also an eye-opening look into the ways our economy is changing every second of every day. Gary Schwartz analyzes a phenomenon that's modifying people's actions and challenges our assumptions about our behavior as consumers. Anyone interested in the ways our behavior as shoppers is changing-and what we can do to better harness this opportunity-will find this book to be essential reading.

Pop Culture Shirley Fedorak,2009-01-01 This text is important for any introductory anthropology course, particularly in conveying to students the relevance of anthropology by engaging with the very aspects of popular culture that are significant in their everyday lives. - Kristin L. Dowell, University of Oklahoma

Bloggng in Beirut Sarah Jurkiewicz,2018-01-31 Unlike previous media-analytic research, Sarah Jurkiewicz's anthropological study understands blogging as a social field and a domain of practice. This approach underlines the significance of blogging in practitioners' daily lives and for their self-understanding. In this context, the notion of publicness enables a consideration of publics not as static 'spheres' that actors merely enter, but as produced and constituted by social practices. The vibrant media landscape of Beirut serves as a selection of samples for an ethnographic exploration of blogging.

Pilgrim Prayers for Single Fathers David Albert Farmer, 2010-01-01 *Gracious God, Thank you for helping us single fathers learn the lesson that acquiring new skills--in particular--is*

a required and ongoing part of being a single parent. All the manuals we read will never get us to the nitty-gritty advice about many practical realities. Little girls need their hair combed until they learn to do it for themselves. We are grateful, O God, when we can let go of the illusion that all parenting skills are innate. Amen. --sample prayer excerpt

Pilgrim Prayers for Single Fathers is a collection of conversations with God based on heart-felt, real-life situations. Growing out of the author's experience as a single father and the experiences of other single fathers known to him as friends and parishioners, Farmer finds God's loving presence squarely in the middle of all the extra challenges of single parenthood. Whether life goes haywire, hopeful, or hilarious, he finds God's nearness as his source of strength and insight. Farmer, in forming his prayers as part of devotional moments for busy single fathers, intertwines Hebrew and Christian scriptures, other great documents of spirituality, and all sources of news and information in the modern media. Each entry begins with a letter addressing a specific issue and continues with a Scripture passage and prayer, concluding with an interesting or informative passage. The book consists of 30 prayers.
