The Film Handbook Mark de Valk,Sarah Arnold,2013-05-02 The Film Handbook examines the current state of filmmaking and how film language, technique and aesthetics are being utilised for today's 'digital film' productions. It reflects on how critical analysis' of film underpins practice and story, and how developing an autonomous 'vision' will best aid student creativity. The Film Handbook offers practical guidance on a range of traditional and independent 'guerrilla' film production methods, from developing script ideas and the logistics of planning the shoot to cinematography, sound and directing practices. Film professionals share advice of their creative and practical experiences shooting both on digital and film forms. The Film Handbook relates theory to the filmmaking process and includes: • documentary, narrative and experimental forms, including deliberations on 'reading the screen', genre, mise-en-scène, montage, and sound design • new technologies of film production and independent distribution, digital and multi-film formats utilised for indie filmmakers and professional dramas, sound design and music • the short film form, theories of transgressive and independent 'guerrilla' filmmaking, the avant-garde and experimental as a means of creative expression • preparing to work in the film industry, development of specialisms as director, producer, cinematographer, editor, and the presentation of creative work.

Asian Development Outlook 2012 Update Asian Development Bank,2012-10-01 According to the findings in the Asian Development Outlook 2012 Update, dimming global growth prospects and soft domestic demand in the region's two largest economies are slowing the pace of developing Asia's expansion. Growth is now expected to slide from 7.2% in 2011 to 6.1% in 2012, with a bounce back to 6.7% in 2013. The possibility of a shock emanating from the unresolved euro area sovereign debt crisis or a sharp fiscal contraction in the United States pose the biggest downside risks to the economy. Fortunately, most developing Asian economies have room to counteract such shocks with fiscal and monetary policy. However, there is currently no regionwide need for countercyclical policy intervention.

Intellectual Property Rights in China Zhenqing Zhang,2018-12-25 Over the past three decades, China has transformed itself from a stagnant, inward, centrally planned economy into an animated, outward-looking, decentralized market economy. Its rapid growth and trade surpluses have caused uneasiness in Western governments, which perceive this growth to be a result of China's rejection of international protocols that protect intellectual property and its widespread theft and replication of Western technology and products. China's major trading partners, particularly the United States, persistently criticize China for delivering, at best, half-hearted enforcement of intellectual property rights (IPR) norms. Despite these criticisms, Zhenqing Zhang argues that China does respect international intellectual property rights, but only in certain cases. In Intellectual Property Rights in China, Zhang addresses the variation in the effectiveness of China's IPR policy and explains the mechanisms for the uneven compliance with global IPR norms. Covering the areas of patent, copyright, and trademark, Zhang chronicles how Chinese IPR policy has evolved within the legacy of a planned economy and an immature market mechanism. In this environment, compliance with IPR norms is the result of balancing two factors: the need for short-term economic gains that depend on violating others' IPR and the aspirations for long-term sustained growth that requires respecting others' IPR. In case studies grounded in theoretical analysis as well as interviews and fieldwork, Zhang demonstrates how advocates for IPR, typically cutting-edge Chinese companies and foreign IPR holders, can be strong enough to persuade government officials to comply with IPR norms to achieve the country's long-term economic development goals. Conversely, he reveals the ways in which local governments protect IPR infringers because of their own political interests in raising tax revenues and creating jobs.

The Sense of an Ending Julian Barnes, 2011-10-05 BOOKER PRIZE WINNER • NATIONAL BESTSELLER • A novel that follows a middle-aged man as he contends with a past he never much thought about—until his closest childhood friends return with a vengeance: one of them from the grave, another maddeningly present. A novel so compelling that it begs to be read in a single sitting, *The Sense of an Ending* has the psychological and emotional depth and sophistication of Henry James at his best, and is a stunning achievement in Julian Barnes's oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of her own. But when he is presented with a mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.

Copyright and Fan Productivity in China Tianxiang He, 2017-10-13 This book takes a unique approach to mitigate the problem of massive online copyright infringement and justify fan activities. It argues for a cooperative approach that encourages copyright owners to exert a degree of control over their fan creators. In contrast to the current approach, which treats fan utilizations as theft, this book suggests that the copyright owners and the lawmakers should instead distinguish between fan creators and commercial pirates, allowing them to unleash their potential. This book offers a clear and comprehensive account of the fascinating aspects of legal problems created by fan activities in China, Japan and the United States, offering a valuable guide for students, practitioners, academics and entrepreneurs whose work involves or who are interested in cutting-edge legal issues in the creative industry. Tianxiang He introduces us to the world of fandom inhabited by 'fan-subbers', fan-dubbers', 'mash-uppers', and 'fan-fictionists' against the backdrop of copyright law and policy in China. His work is engaging in that it not merely describes the law, but also the political dimension where copyright and state media control converge into a reality where being an artist or a fan is not that straightforward. -- Prof. Anselm Kamperman Sanders, Institute for Globalization and International Regulation (IGIR), Faculty of Law, Maastricht University The tension between copyright holders and fan communities has been increasingly salient yet underexplored. This timely, insightful and deeply engaging book not only fills a niche, but also covers a country that has been rarely examined in this context. The book advances a promising model for the two groups to cooperate. It also explores complex issues concerning political culture, media regulation and civic engagement in China. A must read for anybody interested in copyright law, cultural production, digital technology or Chinese information policy. -- Prof. Peter K. Yu, Professor of Law and Director, Center for Law and Intellectual Property, Texas A&M University School of Law

The Twilight of the Gothic? Joseph Crawford, 2014-05-15 This book explores the history of the paranormal romance genre; from its origins in the revisionist horror fiction of the 1970s, via its emergence as a minor sub-genre of romantic fiction in the early 1990s, to its contemporary expansion in recent years into an often-controversial genre of mainstream fiction. Tracing the genre from its roots in older Gothic fiction written by and for women, it explores the interconnected histories of Gothic and romantic fiction, from Ann Radcliffe and Jane Austen in the eighteenth century to Buffy, Twilight, True Blood and The Vampire Diaries in the present day. In doing so, it investigates the extent to which the post-Twilight paranormal romance really does represent a break from older traditions of Gothic fiction – and just what it is about the genre that has made it so extraordinarily divisive, captivating millions of readers whilst simultaneously infuriating and repelling so many others.

Occupational Outlook Handbook United States. Bureau of Labor Statistics, 1957

On the Move Geetha Ganapathy-Doré, Helga Ramsey-Kurz, 2012-12-18 In the postcommunist world of organized mobility, commodified hospitality and portable devices, the category of people labelled as migrants, the displaced and refugees symbolize a different kind of movement. Among them, the postnational figure of the refugee stands out. Fleeing their land alone or in a group, on foot or on buses and trains, or via makeshift boats and commercial flights, dressed in unfamiliar clothes and borrowed identities, the refugees travel "to dare a future from the taken roads." Their journey of escape is fraught with danger and despair, their survival complicated by the politics of suspicion, and their right to return compromised by the power game between sovereign states. Waiting for ever in transit zones or living underground like animals but exploited for their labour, the refugees are the "untouchables" of the 21st century who put to test the universal and moral duty of hospitality. When the international legal regime of human and humanitarian rights does not come to their rescue, refugee women and children feel twice abandoned. This volume of collected essays tries to explore the journey of refugees as represented in New Literatures in English. Who are these refugees? What circumstances triggered their movement? At what point in history? Where do they go? How do they cope? What are their dreams? When does the refugees' silence break into speech and story? How does life assert itself in spite of impending death? Could the death of a refugee be as insignificant as her bare life of exile? Scholars from Europe, Africa, India and Sri Lanka give here a comprehensive picture of the refugee movement across the globe since the Second World War. The refugee narratives highlight the need to extend the logic of protection from persecution to asylum from economic crisis and ecological imbalance, in order to offset the after effects of imperial outreach and industrial expansion. With a short story by Chika Unigwe by way of a foreword and contributions from Petra Tournay-Theodotou, Helga Ramsey-Kurz, Marta Cariello, Stavros Karayanni, Jean-Marie Sountoua, Federico Fabris, Evelyne Hanquart-Turner, Annie Cottier, Geetha Ganapathy-Doré, G. Sujatha and V. Vinod Kumar.

Producing Mark Lynn Anderson, 2016-01-14 Of all the job titles listed in the opening and closing screen credits, producer is certainly the most amorphous. There are

businessmen (and women)-producers, writer-director- and movie-star-producers; producers who work for the studio; executive producers whose reputation and industry clout alone gets a project financed (though their day-to-day participation in the project may be negligible). The job title, regardless of the actual work involved, warrants a great deal of prestige in the film business; it is the credited producers, after all, who collect the Oscar for Best Picture. But what producers do and what they don't or won't do varies from project to project. Producing is the first book to provide a comprehensive overview of the roles that producers have played in Hollywood, from the dawn of the twentieth century to the present day. It introduces readers to the colorful figures who helped to define and reimagine the producer's role, including inventors like Thomas Edison, moguls like Darryl F. Zanuck, entrepreneurs like Walt Disney, and mavericks like Roger Corman. Readers also get an inside look at the less glamorous jobs producers have often performed: shepherding projects through many years of development, securing financial backers, and supervising movie shoots. The latest book in the acclaimed Behind the Silver Screen series, Producing includes essays written by seven film scholars, each an expert in a different period of cinema history. Together, they give readers a full picture of how the art and business of producing films has changed over time—and how the producer's myriad job duties continue to evolve in the digital era.

Communication, Public Opinion, and Globalization in Urban China Francis L.F. Lee,Chin-Chuan Lee,Mike Z. Yao,Tsan-Kuo Chang,Fen Jennifer Lin,Chris Fei Shen,2013-10-08 As China is increasingly integrated into the processes of economic, political, social, and cultural globalization, important questions arise about how Chinese people perceive and evaluate such processes. At the same time, international communication scholars have long been interested in how local, national, and transnational media communications shape people's attitudes and values. Combining these two concerns, this book examines a range of questions pertinent to public opinion toward globalization in urban China: To what degree are the urban residents in China exposed to the influences from the outside world? How many transnational social connections does a typical urban Chinese citizen have? How often do they consume foreign media? To what extent are they aware of the notion of globalization, and what do they think about it? Do they believe that globalization is beneficial to China, to the city where they live, and to them personally? How do people's social connections and communication activities shape their views toward globalization and the outside world? This book tackles these and other questions systematically by analyzing a four-city comparative survey of urban Chinese residents, demonstrating the complexities of public opinion in China. Media consumption does relate, though by no means straightforwardly, to people's attitudes and beliefs, and this book provides much needed information and insights about Chinese public opinion on globalization. It also develops fresh conceptual and empirical insights on issues such as public opinion toward US-China relations, Chinese people's nationalistic sentiments, and approaches to analyze attitudes toward globalization.
