Grabbing Back Alexander Reid Ross, 2014-06-09

Land grabs are a global phenomenon of our times, driven by the ever increasing demands of both global corporations and the governments with which they are allied. But as this powerful and timely book demonstrates, ordinary citizens, small farmers and ordinary citizens around the world are standing up to defend their own with passion and ingenuity, and they are recording successes that are both extraordinary and inspiring. —Oliver Tickell, Editor, *The Ecologist*. Climate change ravages the earth, while wealthy elites try to grab as much of the world's diminishing resources as possible. As Vandana Shiva writes, land is life. But land, and the struggle to possess it, is also power—colonial and corporate power, to be sure, but also the power of the dispossessed to rise up and call for an end to the global land grab. *Grabbing Back* maps this struggle, bringing together analyses that uncover the politics of cultivation and control. In this unprecedented collection, on-the-ground activists join forces with critically acclaimed scholars to document the commodification and consumption of space, from foreclosed homes to annihilated rainforests, from ecotourism in Sri Lanka to the tar sands of Montana, and to outline the strategies and tactics that might the destruction. With contributions by Vandana Shiva, Noam Chomsky, Max Rameau, Grace Lee Boggs, Michael Hardt, Ahjamu Umi, Ben Dangl, and many others. More Praise for *Grabbing Back*: “Part of the reason that knowledge about the current global land grab is so uncertain is the paucity of perspectives and analysis in defining the problem. This book fills the gap admirably.” —Raj Patel, author of *Stuffed and Starved* The acquisition, control, and exploitation of land, as well as the simultaneous dispossession of land-based and peasant communities, is central to the processes

of both colonialism and capitalism. As Fanon reminds us, egalitarian governance and stewardship of land is fundamental to the struggle for liberation and self-determination for all oppressed peoples. This makes Grabbing Back a necessary study for anticapitalist and anticolonial movements. —Harsha Walia, author of Undoing Border Imperialism Grab back this sparkling mosaic of essays as a treasure of our new-old knowledge commons. Together these pieces replace dichotomies with dialectics, making explicit the inseparability of land and collective life. Together they restore the vital concept of social ecology in resistance to relentless and increasingly apocalyptic capitalism, with emphasis on its second contradiction: its impossibility on a finite resource base. —Maia Ramnath, author of Decolonizing Anarchism “As the forces of thanatos leave no stone unturned in their quest to dominate the entire planet, this anthology provides a much needed antidote. Weaving together accounts from around the world, the authors advocate building grassroots movements aimed at subverting capital’s incessant assault on our lives and land.”—George Katsiaficas, author of Asia’s Unknown Uprisings “Never perhaps has the land question been so crucial for anti-capitalist movements, as we are witnessing a global process of enclosure that privatizes lands, waters, forests, displacing millions from their homes, and placing monetary gates to what we rightly considered our commonwealth. It is essential then that we understand what motivates this drive and its effects in all their social and spatial dimensions. Grabbing Back takes us through this process, identifying the “reasons” and actors behind this global land-grab and, most important, introducing us to the struggles that people are making across the world to resist being evicted from their lands and to reclaim the earth. ”

Civil Wars of the World [2 volumes] Karl DeRouen Jr., Uk Heo, 2007-05-10 This unique two-volume reference is the most authoritative, up-to-date resource available for information and data on the most volatile civil wars around the globe since World War II. At a time when historians are devoting more and more research to conflicts within nations, *Civil Wars of the World: Major Conflicts since World War II* is an invaluable addition to the available resources. In two volumes, it ranges around the globe to cover the most volatile and deadly civil wars of the past 60 years, including the bloody impasses in the Middle East; devastating tribal warfare in Africa; Cold War-fueled conflicts in Eastern Europe and Asia; the seemingly unbreakable cycle of rebellion and repression in some regions of Latin America; and more. *Civil Wars of the World* moves country by

country to describe the causes, course, and consequences of internal conflicts within each nation. Coverage includes the historical background of each country, geographic and economic factors, descriptions of rebel groups and governments (e.g., regime type, size of military, capacity), terrorism, foreign and/or intergovernmental organization (IGO) intervention (UN, foreign support for rebels), foreign aid, and prospects for peace.

Evidence of a planned and systematically created giant infanticide is uncovered. US bombing in 1991 destroyed Iraq's water purification, sewages, and electricity plants to run them. Partition Urvashi Butalia, 2015-02-24 The dark legacies of partition have cast a long shadow on the lives of people of India, Pakistan and Bangladesh. The borders that were drawn in 1947, and redrawn in 1971, divided not only nations and histories but also families and friends. The essays in this volume explore new ground in

Partition research, looking into areas such as art, literature, migration, and notions of 'foreignness' and 'belonging'. It brings focus to hitherto unaddressed areas of partition such as the northeast and Ladakh.

South Asia Dhananjay Tripathi, Sanjay Chaturvedi, 2021-11-24 Post-colonial and post-partition South Asia, one of the fastest-growing and yet one of the least integrated regions of the world, is marked by both optimism and pessimism. This intriguing dichotomy of strength and weakness, security and insecurity, hope and fear, connections and disconnects underpins South Asia's regionalism conundrum and gives birth to borders and boundaries – both material and mental – with a complex territoriality. The Janus-faced nature of South Asian borderlands – the inward nationalizing impulses entangled with the outward regional frontier-orientations – is a stark reminder that history of mobility in this eco-geographical region is much older than the history of territoriality and colonial cartography and ethnography. This collection of meticulously researched, theoretically informed, case studies from South Asia provides useful insights into bordering, ordering and othering narratives as practices and performances that are intricately entangled with identity politics and security discourses. It shows how a sharper focus on subterranean subregionalism(s), border communities, popular geopolitics of enmity, and transborder challenges to sustainability, could open up spaces for new multiple (re)imaginings of borders at diverse scales and sights including sub-urban neighbourhoods, school textbooks/cinema and trans-border conservation initiatives. The chapters in this edited volume have been contributed by both renowned as well as young

emerging scholars, looking into the borders and boundaries in South Asia. Each chapter offers new perspectives and insights into themes like trans-Himalayan borderlands, India-Pakistan physical and mental borders, Afghanistan-Pakistan border and numerous social boundaries that we see in everyday South Asia. The chapters in this book were originally published as a special issue of the Journal of Borderlands Studies.

The History of Jihad Robert Spencer, It is taken for granted, even among many Washington policymakers, that Islam is a fundamentally peaceful religion and that Islamic jihad terrorism is something relatively new, a product of the economic and political ferment of the twentieth century. But in *The History of Jihad: From Muhammad to ISIS*, Islamic scholar Robert Spencer proves definitively that Islamic terror is as old as Islam itself, as old as Muhammad, the prophet of Islam, who said “I have been made victorious through terror.” Spencer briskly traces the 1,400-year war of Islamic jihadis against the rest of the world, detailing the jihad against Europe, including the 700-year struggle to conquer Constantinople; the jihad in Spain, where non-Muslims fought for another 700 years to get the jihadi invaders out of the country; and the jihad against India, where Muslim warriors and conquerors wrought unparalleled and unfathomable devastation in the name of their religion. Told in

great part in the words of contemporary chroniclers themselves, both Muslim and non-Muslim, The History of Jihad shows that jihad warfare has been a constant of Islam from its very beginnings, and present-day jihad terrorism proceeds along exactly the same ideological and theological foundations as did the great Islamic warrior states and jihad commanders of the past. The History of Jihad: From Muhammad to ISIS is the first one-volume history of jihad in the English language, and the first book to tell the whole truth about Islam's bloody history in an age when Islamic jihadis are more assertive in Western countries than they have been for centuries. This book is indispensable to understanding the geopolitical situation of the twenty-first century, and ultimately to formulating strategies to reform Islam and defeat radical terror.

Shinners, Dissos and Dissenters: Irish republican media activism since the Good Friday Agreement Paddy Hoey, 2018-01-17 Shinners, dissos, and dissenters is a long-term analysis of the development of Irish republican media activism since 1998 and the tumultuous years that followed the end of the Troubles. It is the first in-depth analysis of the newspapers, magazines and online spaces in which strands of Irish republicanism developed and were articulated in a period in which schism and dissent underscored a return to violence for dissidents. Based on an analysis of Irish republican media outlets as well as interviews with the key activists that produced them, this book provides a compelling snapshot of a political ideology in transition as it is moulded by the forces of the Peace Process and often violent internal ideological schism that threatened a return to the 'bad old days' of the Troubles.

Diplomacy And The Independence Of Bangladesh: Portrayal Of Mujib's Statesmanship Abul

Kalam, 2022-09-16 Diplomacy and the Independence of Bangladesh is unique in itself, penned by a social scientist with extensive upbringing in studies on diplomacy, strategic fields, peace research, modern history, and international relations. A witness to the momentous events of Bangladesh's struggle for emancipation, as they unfolded during Pakistani rule in East Pakistan, the author also sets in conceptual designs for objective appraisals of the farsighted statesmanship of its founder, Sheikh Mujibur Rahman, with added reflections on shifting dimensions of diplomacy and their ramifications for mankind's waning civilizational journey.

Nonviolent Activism in Islam Hayat

Alvi, 2021-08-18 The purpose and focus of this study are to illustrate the legal basis for nonviolent activism in Islam, as Maulana Abul Kalam Azad promoted. Maulana Azad's practice of
