International Taxation of Energy Production and Distribution John Abrahamson, 2018-04-20 Energy is a major global industry with rapid ongoing changes in areas such as carbon taxes, emissions trading regimes, and the development of renewable energy. The cross-border nature of the industry calls for the thorough, expert, and up-to-date analysis provided in this timely and practical book. Taking a down-to-earth, problem-solving approach to policy and practice in the field worldwide, the author focuses on the international tax framework, and the tax regimes in leading energy producing and consuming countries. The book introduces and analyses significant international tax issues related to energy production and distribution, extending from the tax regime in the country where the oil, gas, or coal exploration and production activities are located, through to cross-border transportation using pipelines, tankers, and bulk carriers, to the taxation of power stations and electricity transmission and distribution networks. The taxation issues covered include the following: – upstream oil and gas and mining taxes; – incentives for renewable energy; – carbon taxes and emission trading regimes; – dividend, interest, and royalty flows; – foreign tax credits; – permanent establishments; – mergers and acquisitions; – taxation issues for derivatives and hedging; – transfer pricing; – regional purchasing, marketing, service, and intangible property structures; – free trade agreements and customs unions; – dispute resolution; and – tax administration and risk management. Detailed updates are included on the most recent international tax developments affecting the energy industry, including the OECD Action Plan on Base Erosion and Profit Shifting (BEPS) and the 2017 OECD Transfer Pricing Guidelines. Case studies offer an opportunity to apply international tax analysis to specific examples, and gain practice in identifying and discussing relevant international taxation issues. This book will be of significant value to corporate tax managers and in-house counsel, together with accountants, lawyers, economists, government officials, and academics connected with the energy industry and related international taxation issues.

Grand Theft Jesus Robert S. McElvaine, 2008-03-25 “Jesus never wrote a book, but I recognize his handwriting in *Grand Theft Jesus*. Like Jesus, McElvaine uses lively illustrations and a serious sense of humor to cleanse the temple of exclusive and exploitative religion.” –The Reverend Alan Storey, Calvary Methodist Church, South Africa “We’re mad as Heaven, and we’re not going to take it anymore!” declares historian Robert McElvaine in this passionate and often hilarious rallying cry for sincere Jesus Followers. He lets the rest of society know that the extreme right wing won’t be allowed to speak for all Christians any longer. His whip-smart, take-no-prisoners polemic lays bare the Christian Right’s “Easy Jesus” creed, in which people who claim to accept Jesus get a free pass to lie in his name. *Grand Theft Jesus* exposes the televangelists and the leaders of megachurches as the people Jesus warned us about—the wolves in sheep’s clothing of our day. The religion that McElvaine calls ChristianityLite resembles schemes that promise “Lose weight without diet or exercise!” Its leaders say, “Be saved without sacrifice or good works!” Run by a crew of politicians, megachurch preachers, televangelists, hypocrites, and snake-oil salesmen, it has hijacked true Christianity and distorted it into something Jesus wouldn’t recognize. Its leaders have taken the generous and loving ideals of Christ and twisted them into a religion that advocates war and intolerance, values money above charity, preaches hatred instead of brotherhood, and promises “true” believers the keys to the gates of the kingdom of God—and to the bank vault. Jesus’ radical message of love and peace has been drowned out by the bluster, the hate, and the selfishness that often passes for Christianity in America. McElvaine names names in his list of “Leading Lites” who have earned spots on Jesus’ Ten Most Unwanted List and exposes the hypocritical (Ted Haggard), the disgraceful (Pat Robertson), and the shocking (Ann Coulter). *Grand Theft Jesus* blends outrage and humor in a compelling argument that will help to resurrect the real Jesus, who has been crucified and interred by the “Right Reverends” who recite the Apostles’ Creed, are pro-choice on wars of choice, and preach the Greater Gory of Christ.

Crime and Deviance in Cyberspace David S. Wall, 2017-07-05 This volume presents the reader with an interesting and, at times, provocative selection of contemporary thinking about cybercrimes and their regulation. The contributions cover the years 2002-2007, during which period internet service delivery speeds increased a thousand-fold from 56kb to 56mb per second. When combined with advances in networked technology, these faster internet speeds not only made new digital environments more easily accessible, but they also helped give birth to a completely new generation of purely internet-related cybercrimes ranging from spamming, phishing and other automated frauds to automated crimes against the integrity of the systems and their content. In order to understand these developments, the volume introduces new cybercrime viewpoints and issues, but also a critical edge supported by some of the new research that is beginning to challenge and surpass the hitherto journalistically-driven news stories that were once the sole source of information about cybercrimes.

Glazed America Paul R. Mullins,2008-09-07 Everybody loves a good doughnut. The magic combination of soft dough, hot oil, and sugar coating--with or without sprinkles--inspires a wide range of surprisingly powerful memories and cravings. Yet we are embarrassed by our desire; the favorite food of Homer Simpson, caricatured as the dietary cornerstone of cops, a symbol of our collective descent into obesity, doughnuts are, in the words of one California consumer, a food of shame. Paul Mullins turns his attention to the simple doughnut in order to learn more about North American culture and society. Both a breakfast staple and a snack to eat any time of day or night, doughnuts cross lines of gender, class, and race like no other food item. Favorite doughnut shops that were once neighborhood institutions remain unchanged--even as their surrounding neighborhoods have morphed into strip clubs, empty lots, and abandoned housing. Blending solid scholarship with humorous insights, Mullins offers a look into doughnut production, marketing, and consumption. He confronts head-on the question of why we often paint doughnuts in moral terms, and shows how the seemingly simple food reveals deep and complex social conflicts over body image and class structure. In Mullins's skillful hands, this simple pastry provides surprisingly compelling insights into our eating habits, our identity, and modern consumer culture.

Transnational Corporations and Local Innovation Jose Cassiolato,Graziela Zucoloto,Dinesh Abrol,Xielin Liu,2020-11-29 This series of books brings together results of an intensive research programme on aspects of the national systems of innovation (NSI) in the five BRICS countries — Brazil, Russia, India, China, and South Africa. It provides a comprehensive and comparative examination of the challenges and opportunities faced by these dynamic and emerging economies. In discussing the impact of innovation with respect to economic, geopolitical, socio-cultural, institutional, and technological systems, it reveals the possibilities of new development paradigms for equitable and sustainable growth. This volume explores the relationship between transnational corporations (TNCs) and NSI across BRICS economies. The essays highlight the role of foreign direct investment (FDI), the evolution of TNCs and examine local factors — such as government policies, human resources, market structures, and technological capabilities — that affect collaborative efforts with indigenous firms towards innovation and development. The authors approach the thesis of technological globalisation with some caution, refuting the idea that research and development (R&D) activities have been inexorably internationalised. Original and detailed data, together with expert analyses on wide-ranging issues, make this book an invaluable resource for researchers and scholars in economics, development studies and political science, in addition to policy makers and development practitioners interested in the BRICS countries.

Europe and Iran's Nuclear Crisis Riccardo Alcaro, 2018-04-09 This book investigates the European involvement in managing the nuclear dispute with Iran, shedding new light on EU foreign policy-making. The author focuses on the peculiar format through which the EU managed Iran's nuclear issue: a 'lead group' consisting of France, Germany and the UK and the High Representative for EU foreign policy (E3/EU). The experience of the E3/EU lends credibility to the claim that lead groups give EU foreign policy direction and substance. The E3/EU set up a negotiating framework that worked as a de-escalating tool, a catalyst for Security Council unity and a forum for crisis management. They inflicted pain on Iran by adopting a comprehensive sanctions regime, but did so only having secured US commitment to a diplomatic solution. Once the deal was reached, they defended it vigorously. The E3/EU may have been supporting actors, but their achievements were real.
