**The Transformation of Yiguan Dao in Taiwan** Yunfeng Lu,2008-02-25 The most influential sect in the Chinese mainland in the 1940s, Yiguan Dao was largely destroyed in mainland China in 1953. Yiguan Dao not only survived, however, but developed into the largest sect in Taiwan, despite its suppression by the Kuomintang state. In 1987, through relentless efforts, the sect finally gained legal status in Taiwan. Today, Yiguan Dao not only thrives in Chinese societies, but has also become a world-wide religion which has spread to more than sixty countries. This book, based on fieldwork conducted in 2002 in Taiwan, is the first English-language scholarly study exclusively focusing on Yiguan Dao. Lu includes a history of Yiguan Dao in mainland China, but focuses on the sect's evolution in Taiwan in the past few decades. Specifically, he probes the operation of Yiguan Dao under suppression in the past twenty years, and examines the relationship between Yiguan Dao and its rivals in Taiwan's religious market. The Transformation of Yiguan Dao in Taiwan develops the religious economy model by extending it to Chinese societies.

*Teaching and Learning English Literature* Ellie Chambers,Marshall Gregory,2006-03-14 'It is scarcely possible to imagine a truly educated person who cannot read well. Yet it is not clear how or even if courses in literature actually work. How can teachers of English help students in their developmental journey toward becoming skillful readers and educated persons? This is the complex question that Chambers and Gregory address in *Teaching and Learning English Literature*. The authors consider practical matters such as course design and student assessment but do not shirk larger historical and theoretical issues. In a lucid and non-polemical fashion - and occasionally with welcome humor - Chambers and Gregory describe the what, why, and how of doing literature, often demonstrating the techniques they advocate. Veteran teachers will find the book rejuvenating, a stimulus to examining purposes and methods; beginning teachers may well find it indispensable' - Professor William Monroe, University of Houston 'The transatlantic cooperation of Ellie Chambers and Marshall Gregory has produced an outstanding book that ought to be on the shelves of anyone involved in the teaching of English Literature, as well as anyone engaged in the scholarship of teaching and learning in general or in any discipline. As they say, the teaching of English Literature plays a central role in human beings' search for meaning although others in other disciplines may make this claim for theirs too. If so, they will still learn a great deal from this book; anyone looking for no more than a means of satisfying the demands of governments that look for simplistic quality measures and economic relevance, let them look elsewhere. This is a book for now and for all times' - Professor Lewis Elton, Visiting Professor, University of Manchester, Honorary Professor, University College London This is the third in the series *Teaching and Learning the Humanities in Higher Education*. The book is for beginning and experienced teachers of literature in higher education. The authors present a comprehensive overview of teaching English literature, from setting teaching goals and syllabus-planning through to a range of student assessment strategies and methods of course or teacher evaluation and improvement. Particular attention is paid to different teaching methods, from the traditional classroom to newer collaborative work, distance education and uses of electronic technologies. All this is set in the context of present-day circumstances and agendas to help academics and those in training become more informed and better teachers of their subject. The book includes: - how literature as a discipline is currently understood and constituted - what it means to study and learn the subject - what 'good teaching' is, with fewer resources for teaching, larger student numbers, an emphasis on 'user-pay' principles and vocationalism. This is an essential text for teachers of English Literature in universities and colleges worldwide. The *Teaching & Learning in the Humanities* series, edited by Ellie Chambers and Jan Parker, is for beginning and

experienced lecturers. It deals with all aspects of teaching individual arts and humanities subjects in higher education. Experienced teachers offer authoritative suggestions on how to become critically reflective about discipline-specific practices.

**Japanese Infantryman 1937-45** Gordon L. Rottman,2012-09-20 This book examines in detail the Japanese Infantryman who was, despite comparisons with the notorious German Waffen SS, an enigma to Westerners. Brutal in its treatment of prisoners as well as the inhabitants of the areas that it conquered, the Imperial Japanese Army also had exacting standards for its own men strict codes of honor compelled Japanese soldiers to fight to the death against the more technologically advanced Allies. Identifying the ways in which the Japanese soldier differed from his Western counterpart, the author explores concepts such as Bushido, Seppuku, Shiki and Hakko Ichi-u in order to understand what motivated Japanese warriors.

The Last Days Are Left Behind James Ellis,2008-06 Have you been wondering as a Christian, or non-Christian, what many think -- and expect -- will happen in the last days or end times with all the talk and focus in the headlines -- and some churches -- about our future? And with all the events taking place in the Middle East, especially Israel? And Iran? Are you confused because of various end-time scenarios and conflicting opinions promoted through popular books on prophecy, the Left Behind series, televangelists, preachers, and others speaking of a great tribulation, rapture, Armageddon, Apocalypse, the destruction of the earth, a new heaven and earth, a second coming, and a millennium? There has been an overload of teaching and information about these things over the last century -- however sincere and cloaked in good intentions -- yet with long-held and deep-seated traditions and doctrines, all borne of a lack of accurate knowledge (particularly the Hebrew and Greek) and information based on compelling evidence. Would you like to know what the Bible actually says about all these issues? For God's Word itself -- Let Scripture Interpret Scripture -- and the Holy Spirit are the only necessary interpreters. The Last Days Are Left Behind will challenge your thinking, help to erase the confusion, and provide clarity regarding the present-day purpose of God. Author James Ellis demonstrates end-time truth based logically on solid evidence after a linguistically accurate, biblically consistent, and intellectually honest examination of the Bible's prophetic passages and verses, the original languages -- Hebrew and Greek, the social, cultural, and historical context of Scripture, and the relevance of the audience spoken or written to in God's Word.

**Intimate Rivals** Sheila A. Smith,2015-04-07 No country feels China's rise more deeply than Japan. Through intricate case studies of visits by Japanese politicians to the Yasukuni Shrine, conflicts over the boundaries of economic zones in the East China Sea, concerns about food safety, and strategies of island defense, Sheila A. Smith explores the policy issues testing the Japanese government as it tries to navigate its relationship with an advancing China. Smith finds that Japan's interactions with China extend far beyond the negotiations between diplomats and include a broad array of social actors intent on influencing the Sino-Japanese relationship. Some of the tensions complicating Japan's encounters with China, such as those surrounding the Yasukuni Shrine or territorial disputes, have deep roots in the postwar era, and political advocates seeking a stronger Japanese state organize themselves around these causes. Other tensions manifest themselves during the institutional and regulatory reform of maritime boundary and food safety issues. Smith scrutinizes the role of the Japanese government in coping with contention as China's influence grows and Japanese citizens demand more protection. Underlying the government's efforts is Japan's insecurity about its own capacity for change and its waning status as the leading economy in Asia. For many, China's rise means Japan's decline, and Smith suggests how Japan can maintain its regional and global clout as confidence in its postwar diplomatic and security approach diminishes.

**Akhyayikas II** Rajesh Seshadri,2022-12-24 We have all been brought up listening to stories from our grandparents, parents, and many others. Stories have an innate capacity to mould us, to shape our thinking, to inspire us, to motivate us, to coach us and impress our subconscious mind metaphorically. Storytelling is, and has always been, an important part of the solution for simulating positive behavioural changes. And when the stories are real-life stories, the benefits get amplified manifold. The emotional strings attached to real human stories bring credibility, engagement, and buy-in. The second book in the AKHYAYIKAS series (Akhyayika means a fable, a short episodic narrative, or an anecdote) is a compendium of 100 short stories of people who dared to dream. Given the rough twist of fate, they decided to pick themselves up and make successes of themselves in their chosen life purpose. All the characters in the stories have one thing in common: they believed in the power of their dreams. The purpose of life is to live a life of purpose!
