Foundation ActionScript for Macromedia Flash MX Ben Renow-Clarke, Sham Bhargal, 2013-11-11 With the release of Flash MX, scripting in Flash moved from being a desirable asset to an essential skill in the world of web design. ActionScript is, quite simply, the center of power in Flash, and it's no surprise that most of the advances in Flash MX are script-centric. Flash is a design tool, and ActionScript can easily scare designers. This book is for anyone who has ever looked in awe at a cutting-edge Flash site, then taken a look at some code, and run in the other direction. Learning ActionScript with friends of ED will not turn you into a boring programmer, it will turn you into someone who finally has the power to achieve what they want with their web design. This book will take you from knowing nothing about ActionScript to a firm knowledge that will allow you to exercise a previously unimaginable amount of power over your flash movies. It does this with fully-worked examples throughout, and a case study that will leave you with a cutting-edge Flash site by the end of the book. The book assumes no previous knowledge of code or ActionScript, but does assume that you know the basics of the Flash interface, and have maybe created some basic timeline-based movies with tweens and so on. (If you're totally new to Flash, then you might want to take a look at friends of ED's acclaimed Foundation Flash MX, or at the more visually-oriented Flash MX Express.) This is no simple re-write of the first edition of iFoundation ActionScript

Blindsight Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

*Chinese Merger Control Law* Tingting Weinreich-Zhao, 2014-11-19 On 1 August 2008 the Chinese Anti-Monopoly Law entered into force, introducing a comprehensive framework for competition law to the Chinese market. One set of the new rules pertains to merger control. China's Ministry of Commerce (MOFCOM) was nominated as the authority responsible for enforcing merger control in China and has been actively doing so ever since. Recent years have established China as one of the most important merger filing jurisdictions for cross-border mergers alongside the EU and USA. This work evaluates the Chinese merger control law regime and MOFCOM's decision-making practice after more than five years of application. In particular, it assesses which policy goals (competition policy goals or industrial policy considerations) prevail in the written law and its application and provides suggestions for a further improvement of the law – with the aim to develop a transparent merger control regime that promotes long-term economic growth in China.
