The Curse of Ham in the Early Modern Era David M. Whitford, 2017-07-05 For hundreds of years, the biblical story of the Curse of Ham was marshalled as a justification of serfdom, slavery and human bondage. According to the myth, having seen his father Noah naked, Ham's is cursed to have his descendants be forever slaves. In this new book the Curse of Ham is explored in its Reformation context, revealing how it became the cornerstone of the Christian defence of slavery and the slave trade for the next four hundred years. It shows how broader medieval interpretations of the story became marginalized in the early modern period as writers such as Annius of Viterbo and George Best began to weave the legend of Ham into their own books, expanding and adding to the legend in ways that established a firm connection between Ham, Africa, slavery and race. For although in the original biblical text Ham himself is not cursed and race is never mentioned, these writers helped develop the story of Ham into an ideological and theological defence for African slavery, at the precise time that the Transatlantic Slave Trade began to establish itself as a major part of the European economy

during the sixteenth and seventeenth centuries. Skilfully weaving together elements of theology, literature and history, this book provides a fascinating insight into the ways that issues of religion, economics and race could collide in the Reformation world. It will prove essential reading, not only for those with an interest in early modern history, but for anyone wishing to try to comprehend the origins of arguments used to justify slavery and segregation right up to the 1960s.

Authenticity Yolanda van Ede,2004

Authenticity James H. Gilmore,B. Joseph Pine,2007 The authors list the five factors that most directly influence customer perceptions: the operational essence of the enterprise, the nature of its offerings, the effects of the organization's heritage, its sense of purpose and its demonstrable body of values.

Cultural Tourism Milena Ivanovic,2008 Stressing the interconnectedness of tourism and culture, this valuable handbook explores what tourism industry professionals need to know to succeed. Globalization, landmark attractions, and cultural heritage are among the topics discussed from both international and local perspectives. Each chapter also concludes with a comprehensive series of self-assessment questions and a proposed task that professionals and students can do to enrich their cultural learning experience.

Prophecy Unfulfilled Wayne Talbot,2018-08-31 Prophecy Unfulfilled represents a continuation of the author's quest for the truth of God, by firstly uncovering the untruths that he had been taught

during his formative years as a Catholic. Earlier works focused on the claimed new (replacement) covenant, the rejection of the Sabbath, and the rejection of Torah. Using the rules of evidence as in a court of law, this study seeks to evaluate the claimed messianic prophecy fulfillment by Jesus, some two thousand years ago. The first part of the book discusses the nature of evidence and how the rules regarding written evidence vary significantly from those of oral evidence, the latter being used most often by biblical scholars and Christian apologists. The first step is to authenticate the extant documents by examining the chain of custody and, thus, establish authority. Next is to authenticate the attributed authorship of the writings, to determine whether the authors were firsthand witnesses of the events they described, or whether their narratives are hearsay, with or without corroboration. Where little verbal agreement is found, this is circumstantial evidence of separate traditions developing the resultant theology. The study proceeds by examining every verse in the NKJV (New King James Version) of the New Testament that is annotated as being in fulfillment of prophecy, comparing the wording against both the NKJV Old Testament and an English translation of the Hebrew scriptures.

Where significant variations exist, the author seeks an understanding from New Testament scholars, whom he frequently quotes. The eschatological temper of the early church is given due consideration, especially concerning the expectations of the Jews regarding the mission of the Messiah. Finally, the accomplishments of Jesus, as enshrined in Christian creeds, is compared with what is spoken of by the prophets. The author's conclusion is encapsulated in the book's title.

The Authentic Constitution Arthur E. Palumbo, 2009 We've strayed far from the original intent of the Framers of the Constitution and founders of the American republic. Art Palumbo discusses the origin and purpose of America's great foundational document in conjunction with the Declaration of Independence and explores the founding principles of the American republic. He details and clarifies the US Constitution's provisions for the proper powers of Congress, monetary policy and taxation, the government's role in regulating commerce, in war, and in foreign policy, the right to bear arms, immigration and other hot-button issues in a way that cuts through misconceptions that leave many US citizens confounded. The book strictly supports originalism, which is the idea that the Constitution

should be understood in accordance with the meanings advanced by those who wrote and ratified it. However, it also takes account of how far we have gone off course and recognizes that the changes required to get us back on track again cannot be made all at once

Authenticity in Contemporary Theatre and Performance Daniel Schulze, 2017-03-23 Authenticity is one of the major values of our time. It is visible everywhere, from clothing to food to self-help books. While it is such a prevalent phenomenon, it is also very evasive. This study analyses the 'culture of authenticity' as it relates to theatre and establishes a theoretical framework for analysis. Daniel Schulz

argues that authenticity is sought out and marked by the individual and springs from a culture that is perceived as inherently fake and lacking depth. The study examines three types of performances that exemplify this structure of feeling: intimate theatre seen in Forced Entertainment productions such as Quizoola! (1996, 2015), as well as one-on-one performances, such as Oentroerend Goed's Internal (2009); immersive theatres as illustrated by Punchdrunk's shows The Masque of the Red Death (2007) and The Drowned Man (2013) which provide a visceral, sensate understanding for audiences; finally, the study scrutinises the popular category of documentary theatre through various examples such as Robin Soan's Talking to Terrorists (2005), David Hare's Stuff Happens (2004), Edmund Burke's Black Watch (2007) and Dennis Kelly's pseudo-documentary play Taking Care of Baby (2007). It is specifically the value of the document that lends such performances their truth-value and consequently their authenticity. The study analyses how the success of these disparate categories of performance can be explained through a common concern with notions of truth and authenticity. It argues that this hunger for authentic, unmediated experience is characteristic of a structure of feeling that has

superseded postmodernism and that actively seeks to resignify artistic and cultural practices of the everyday.

Persuasion: The Real Process of Imaginative Thinking Randall Auxier,

Authenticity in the Kitchen Richard Hosking, 2006 The Oxford Symposium on Food and Cookery is a premier English conference on this topic. The subjects range from the food of medieval English and Spanish Jews; wild boar in Europe; the identity of liquamen and other Roman sauces; the production of vinegar in the Philippines; the nature of Indian restaurant food; and food in 19th century Amsterdam.

We are at War Simon Garfield, 2006 Includes portions of the diaries of: Pam Ashford, Christopher

The Authenticity of the Gospel of Barnabas Ibn Yasin, 2011-02-15 The main premise on which this book rests is that the belief that all prophets including Jesus and all divine revelations including the Injil had basically the same beliefs – Islam. Thus, this work examines whether the Gospel of Barnabas actually promotes Islamic beliefs about Jesus and the Injil. The method used is that of comparing the beliefs of Islam using the Qur'an and Hadith to that stated in the gospel. The major area which this book examines is the isnad of the gospel to establish whether it is authentic according to Islam. This work covers new ground as it critically explores the Islamic credentials of the gospel.

Cultures and Globalization Helmut K Anheier,Yudhishtir Raj Isar,2011-04-06 'This volume of one of the most comprehensive in the field. Its three themes are critical for the study of culture and globalization with its condensation of space, time and memory. Exploring the intersection between these three processes, the essays are learned, deeply researched and insightful, and the comparative range is impressive. The volume is certain to become a standard reference text for scholars and the

general reader alike' - Professor Stuart Hall, Emeritus Professor of Sociology, The Open University

Heritage, memory and identity are closely connected keywords of our time, each endowed with considerable rhetorical power. Different human groups define certain objects and practices as 'heritage'; they envision heritage to reflect some form of collective memory, either lived or imagined; and they combine both to construct cultural identities. Today, the three terms raise conjoined issues of practice, policy and politics in an increasingly globalized world. Bringing together a truly global range of scholars, this volume explores heritage, memory and identity through a diverse set of subjects, including heritage sites, practices of memorialization, museums, sites of contestation, and human rights.
