Bringing together emotional, relational, vocational, intellectual, and civic health through the seamless thread of vocation, Jeff Haanen offers a way out of the disintegration of our culture and toward a reintegrated life lived in response to God's voice. Government support towards the additional living costs of working-age disabled people Great Britain: Parliament: House of Commons: Work and Pensions Committee, 2012-02-19 The Government's Welfare Reform Bill includes measures to introduce a new benefit in 2013: the Personal Independence Payment (PIP) will replace Disability Living Allowance (DLA) for working-age claimants, to help meet the additional living costs of disabled people. A new eligibility assessment process will also be brought in. But this report finds that the Government should not introduce Personal Independence Payment (PIP) assessments nationally until it has satisfied itself, in the planned initial roll-out of the new assessment in a limited geographical area, that the assessment is empathetic and accurate. The report highlights a number of areas of concern. The current draft criteria on which the assessment will be based are still too reliant on a medical model of disability, and may fail to take sufficient account of the impact of social, practical and environmental factors, such as housing and access to public transport, on disabled people's ability to participate in society and the additional costs they therefore incur. The Committee believes that the Government should listen to the views of disabled people and their representative organisations and conduct a further trial before the criteria are adopted and the new assessment is introduced. Once the initial assessments for PIP have been completed in the first geographical area, the Government should look again at the value of face-to-face assessments for PIP claims where claimants' conditions are severe and unlikely to change. It is also important that DWP gets the contracting process with the private suppliers right.

*Transitions in Energy Efficiency and Demand* Kirsten E.H. Jenkins, Debbie Hopkins, 2018-12-07 The Open Access version of this book, available at <http://www.tandfebooks.com/doi/view/10.4324/9781351127264>, has been made available under a

Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license. Meeting the goals enshrined in the Paris Agreement and limiting global temperature increases to less than 2°C above pre-industrial levels demands rapid reductions in global carbon dioxide emissions. Reducing energy demand has a central role in achieving this goal, but existing policy initiatives have been largely incremental in terms of the technological and behavioural changes they encourage. Against this background, this book develops a sociotechnical approach to the challenge of reducing energy demand and illustrates this with a number of empirical case studies from the United Kingdom. In doing so, it explores the emergence, diffusion and impact of low-energy innovations, including electric vehicles and smart meters. The book has the dual aim of improving the academic understanding of sociotechnical transitions and energy demand and providing practical recommendations for public policy. Combining an impressive range of contributions from key thinkers in the field, this book will be of great interest to energy students, scholars and decision-makers.

**Tackling Youth Unemployment** Francesca Fazio, Anthony Forsyth, 2014-03-17 Youth have always had higher unemployment rates – about twice or more than the average – as they are usually the last to be hired in an expansion and the first to be let go in a recession. In addition, young people engage in extensive job searching in their early years, and this can imply considerable job churning as both youth and employers look for a good match. This highlights the importance of facilitating the school-to-work transition and having early interventions to assist such youth before negative conditions set in. It also highlights the potential importance of determining those young people most “at risk” of long-term unemployment, and of targeting or streaming them into programmes that will yield the largest incremental net benefits given their characteristics. Unemployed youth without previous work experience often are not eligible for unemployment insurance benefits when they first enter the labour market. When they do receive job search assistance, they often face a bewildering array of programmes that are available to assist them, often with little guidance to help them select

the programs that best meet their needs. Consequently, ensuring that today's youth do not become a "lost generation" is an urgent matter. George Bernard Shaw once said that it is too bad that "youth is wasted on the young", implying that youth do not realize the opportunities they have as youth and only see them as they get older. There is a danger, however, that many of today's youth may be never have those opportunities and hence not even see them with hindsight. This book and others in the ADAPT Labour Studies Book-Series are intended to deal with these challenges, to make sure that youth is not wasted on the young.

**Following Jesus in a Culture of Fear** Scott Bader-Saye, 2020-11-03 Fear has taken on an outsized role in our current cultural and political context. Manufactured threats are advanced with little to no evidence of danger, while real threats are exaggerated for self-interested gain. This steady diet of fear produces unhealthy moral lives, leading many Christians to focus more on the dangers we wish to avoid than the goods we wish to pursue. As a fearful people, we are tempted to make safety our highest good and to make virtues of suspicion, preemption, and accumulation. But this leaves the church ill-equipped to welcome the stranger, love the enemy, or give to those in need. This timely resource brings together cultural analysis and theological insight to explore a Christian response to the culture of fear. Laying out a path from fear to faithfulness, theologian Scott Bader-Saye explores practices that embody Jesus's call to place our trust in him, inviting Christian communities to take the risks of hospitality, peacemaking, and generosity. This book has been revised throughout, updated to connect with today's readers, and includes new discussion questions.
