**The Cambridge Handbook of Technological Disruption in Labour and Employment Law** Marc De Vos, Gordon Anderson, Evert Verhulp, 2023-12-21 Whether through gig work, remote work, or platforms such as Uber, new technologies are reshaping the very fabric of employment relations. This handbook offers a comprehensive, international overview of how institutions, countries, and legal systems are responding to the technological disruption of the work world. Chapters outline the reform agendas driven by the International Labour Organization and the European Union and detail the public policy debates, litigation, and legal reforms that technological innovation has triggered around the world. This volume provides a post-pandemic assessment of how digitalization is affecting employment and employment relations and contextualizes current technological disruption with a long-term view of how labour and employment law could evolve further.

**Contested Liberalization** Jonah D. Levy, 2023-04-13 Economic liberalization has been contested and defeated in France to an unparalleled extent in comparison to other leading political economies in Western Europe. Levy offers a historical explanation, centered on the legacies of France's postwar statist or dirigiste economic model. Although this model was dismantled decades ago, its policy, party-political, and institutional legacies continue to fuel the contestation of liberalizing reforms today. Contested Liberalization offers a comprehensive analysis of French economic and social policy since the 1980s, including the Macron administration. It also traces the implications of the French case for contestation in East Asia and Latin America. Levy concludes by identifying ways that French liberalizers could diminish contestation, notably by adopting a more inclusive process and more equitable allocation of the costs and benefits of liberalizing reform. This book will interest scholars and students of political economy and comparative politics, especially those working on economic liberalization, French politics, and the welfare state.

Save Lives or Save the Rhetoric? David H. Goldenberg, 2021-01-28 *Save Lives or Save the Rhetoric?* is for independent thinkers who follow the logic, data, and evidence wherever it leads. The alternative is to accept at face value what other people tell you (and want you to believe) through the rhetoric—which is operative 24/7 in the media's echo chambers. This book will teach you how to tell the difference between these two approaches, and it will give you lots of current, real-world examples, and innovative discussion questions so you can practice and be actively involved. The second part of the book delves into critical concepts and methods that any intelligent citizen may apply in order to make informed decisions about policy proposals. Not another partisan screed, the objective throughout is pedagogy: to help the reader better understand current events, better identify the rhetoric in partisan debates, and better evaluate public policy.

*Entrepreneurship Theory and Practice* Francis J. Greene, 2020-02-22 This beautifully written and thoroughly modern core textbook provides a strong bridge between entrepreneurship theory and practice and looks at the entire life cycle of a business, including the often neglected area of business closure. Underpinned by strong academic rigour, the text takes a critical approach, yet is also highly accessible and readable, explaining complex concepts clearly and succinctly. Research-led yet practice oriented, it examines the latest evidence-based thinking in the field and applies this to the practice of entrepreneurship through a plethora of practical examples, global cases, useful tools, and engaging, multi-faceted pedagogy. Written by a recognised expert on entrepreneurship, *Entrepreneurship Theory and Practice* is the ideal textbook for undergraduate, postgraduate, and MBA students taking modules on entrepreneurship that blend theory and practice. It requires no prior knowledge of entrepreneurship.

The Strategic Management of Place at Work David B. Audretsch, Alice Civera, Erik E. Lehmann, Konstantin P. Leidinger, Jonah M. Otto, Laurenz Weiße, Katharine Wirsching, 2023-06-24 Global economic forces underpin political and social issues and have real impacts on the quality of life in local communities, cities, states and regions. In the face of potential volatility, leaders in every 'place' concern themselves with how they can ensure local economic resiliency for present and future generations. This book argues for the strategic management of places through intentional public policy that brings together stakeholders from the public, private and nonprofit sectors to create an inclusive and sustainable economic path forward. While many economists and political scientists have proposed one-size-fits-all approaches, this book puts forward a more holistic approach, giving local leaders and policymakers the tools to take inventory of their local contexts and providing case study examples of how to craft public policies that create prosperous and sustainable economic conditions.

**Higher Education Finance and Islamic Endowments** Nurul Adilah Hasbullah, Asmak Ab Rahman, 2023-11-09 Public debt pressures due to the global economic crisis in several countries have impacted higher education, compelling governments to curtail the funding of higher education institutions (HEIs). Various instruments have been proposed as a platform for the private sector to channel funding to HEIs. This book introduces readers to the issues surrounding the financing of HEIs, especially public universities, which are dependent on government budgets. It discusses the sources of funding for HEIs, focusing on philanthropic instruments through endowment and waqf funds. Since both forms of income are obtained via contributions from third parties, such as alumni, individuals, business corporations etc., it is essential that they are managed in such a way to ensure their sustainability and that their benefits can be accessed without interruption. It explains the theory of successful endowment and waqf at HEIs, namely appropriate investment planning, superior investment committees, highly skilled investment managers, alumni networks, diversity of income sources and effective fundraising. These elements have been studied empirically in this book through case studies of several selected Malaysian public universities. The book considers policy implications and offers recommendations of strategies that Universities can adopt, such as the appointment of fund managers. No specific guidelines currently exist for appointing fund managers to enable universities to invest in assets such as bonds, equities, and property. Therefore, the book encourages universities to grow the endowment and waqf funds through proper investment strategies executed by professional fund managers. The book contributes new knowledge to scholars, students and researchers, as well as informing university administrators how to collect, manage and invest funds from endowment and waqf.

Gender, ageing and extended working life Ni Leime, Aine, Street, Debra, 2019-01-23 Nations that are raising retirement ages appear to work on the assumption that there is appropriate employment available for people who are expected to retire later. 'Gender, ageing and extended working life' challenges both this narrative, and the gender-neutral way the expectation for extending working lives is presented in most policy-making circles. The international contributors to this book – part of the Ageing in a Global Context series – apply life-course approaches to understanding evolving definitions of work and retirement. They consider the range of transitions from paid work to retirement that are potentially different for women and men in different family circumstances and occupational locations, and offer solutions governments should consider to enable them to evaluate existing policies. Based on evidence from Australia, Germany, Ireland, Portugal, Sweden, the United Kingdom and the United States, this is essential reading for researchers and students, and for policymakers who formulate and implement employment and pensions policy at national and international levels.

**Work in Challenging and Uncertain Times** Patricia Leighton, Tui McKeown, 2020-07-12 This book was written as the Coronavirus (COVID-19) pandemic began to have a devastating effect on employment across the globe. The crisis has served to highlight many deepseated, often longstanding challenges to employment relationships. These include uncertainties and fears about the impact of technological advances, concerns about safety and wellbeing and controversies around emerging business and employment models. It is difficult to avoid the fear that the combination of these and other practices will lead to a 'race to the bottom'. The book calls for a radical rethink and reassessment of the core values underlying employment relationships. In *Work in Challenging and Uncertain Times*, the authors take a refreshingly realistic view of how contemporary work relationships are managed and look to how they will need to change in the future. Some key questions are posed, such as 'who is the employer in complex skills supply chains?'; 'how do we ensure a skilled workforce in a context of fragmentation and increasing individualization?'; 'in a context of AI, robots etc., what does it mean to be human?' and 'how do we achieve change and improvement'? Based on extensive research presented in an accessible and engaging style, the book provides insights valuable to students of employment relationships, HRM and employment law as well as to practitioners and policy-makers. It draws on a range of academic disciplines and thoughts from interviews with key practitioners and commentators on workplace as well as students.

The Oxford Handbook of Contextual Approaches to Human Resource Management Dr. Emma Parry, Dr. Michael J. Morley, Dr. Chris Brewster, 2021-05-25 In recent years scholars and practitioners have increasingly recognized that human resource management (HRM) has paid insufficient attention to the impact of context. While research has been devoted to examining the impact of national context on HRM systems, this literature has been largely separate from that focused on other levels of context affecting organizational choices in HRM strategies, such as the impact of the organizational environment, industry sector, occupation or workforce characteristics. In addition, research has tended to consider elements of context in isolation rather than considering its impact at different levels. The goal of *The Oxford Handbook of Contextual Approaches to Human Resource Management* is to provide a more holistic approach to developing a contextual understanding of HRM. This Handbook offers a comprehensive understanding of the influence of contextual characteristics on the design and implementation of HRM systems. Rather than focusing on a single level or approach to examining context, the Handbook provides both conceptual and empirical analyses of different elements of context using a range of different lenses and measures. In order to explore the influence of contextual factors at multiple levels, the volume assembles a range of detailed accounts of how context affects the design, implementation and impact of HRM activities.

*Fundamentals of Human Resource Management* Robert N. Lussier, John R. Hendon, 2023-01-17 *Fundamentals of Human Resource Management: Functions, Applications, and Skill Development*, Third Edition helps students of all majors build the skills they need to recruit, select, train, and develop people. The Third Edition includes 13 new case studies and new coverage of virtual and flexible work resulting from the COVID-19 pandemic, the long-lasting effects the pandemic has had on women in the workforce, artificial intelligence use within HR, and diversity and inclusion.

*Dualisation of Part-Time Work* Nicolaisen, Heidi, Kavli, Hanne Cecilie, 2019-06-26 This book brings together leading international authors from a number of fields to provide an up to date understanding of part-time work at national, sector, industry and workplace levels. The contributors critically examine part-time employment in

different institutional settings across Europe, the USA, Australia and Korea. This analysis serves as a prism to investigate wider trends, particularly in female employment, including the continued increase in part-time work and processes that are increasingly creating dualization and inequality between ‘good’ and ‘bad’ jobs.

**South Korea’s Democracy in Crisis** Gi-Wook Shin,2022-12-27 Like in many other states worldwide, democracy is in trouble in South Korea, entering a state of regression in the past decade, barely thirty years after its emergence in 1987. **Shrimp to Whale** Ramon Pacheco Pardo,2022-05-23 South Korea has a remarkable history. Born from the ashes of imperial domination, partition and a devastating war, back in the 1950s there were real doubts about its survival as an independent state. Yet South Korea endures: today it is a boisterous democracy, a vibrant market economy, a tech powerhouse, and home to the coolest of cultures. In just seventy years, this society has grown from a shrimp into a whale. What explains this extraordinary transformation? For some, it was individual South Koreans who fought to change their country, and still strive to shape it. For others, it was forward-looking political and business leaders with a vision. Either way, it’s clear that this is the story of a people who dreamt big, and whose dreams came true. Shrimp to Whale is a lively history of South Korea, from its millennia-old roots, through the division of the Peninsula, dictatorship and economic growth, to today’s global powerhouse.
