**Migration, Agrarian Transition, and Rural Change in Southeast Asia** Philip F. Kelly,2013-10-18 Rural life in Southeast Asia is being transformed by new and intensifying processes of migration and mobility. Migration out of rural areas creates new forms of class mobility, familial relations, production processes and income. Migration into rural areas creates a new and sometimes marginalized workforce, contestation over resource access, and the juxtaposition of culturally different groups. At the same time, everyday mobility stretches the spatial boundaries of village and family life. The bounded space of the village is no longer adequate to understand the dynamics that are driving (and resulting from) rural social change. This collection of original studies explores the cultural, economic and environmental dimensions of intensifying migration and mobility in rural Southeast Asia at multiple scales. Diverse processes are explored including rural-urban flows, rural-rural movement, everyday mobilities, and international migrations into regional and global labour markets. Drawing on fieldwork in six countries across the region, these essays also explore what migration means for our understanding of class, citizenship, gender and the state in a rapidly changing part of the world. This book was based on two parts of a special issue of *Critical Asian Studies*.

**Trade Is Not a Four-Letter Word** Fred P. Hochberg,2020-01-14 Trade myths, busted and debunked, with the help of six surprising everyday goods—the taco salad, the Honda Odyssey, the banana, the iPhone, the college degree, and the blockbuster HBO series *Game of Thrones* Trade allows us to sell what we produce at home and purchase what we don't. It lowers prices and gives us greater variety and innovation. Yet understanding our place in the global trade network is rarely so simple, and today's workers are wary of being taken advantage of. Trade has become an easy excuse for struggling economies, a scapegoat for our failures to adapt to a changing world, and—for many Americans on both the right and the left—nothing short of a four-letter word. But as Fred P. Hochberg reminds us, trade is easier to understand than we commonly think. In *Trade Is Not a Four-Letter Word*, you'll learn how NAFTA became a populist punching bag on both sides of the aisle. You'll learn how Americans can avoid the grim specter of the \$10 banana. And you'll finally discover the truth about whether or not, as President Trump once famously tweeted, "trade wars are good and easy to win." (Spoiler alert—they aren't.) Hochberg unravels the mysteries of trade by pulling back the curtain on six everyday products, each with a surprising story to tell: the taco salad, the Honda Odyssey, the banana, the iPhone, the college degree, and the smash hit HBO series *Game of Thrones*. Behind these six examples are stories that help explain not only how trade has shaped our lives so far but also how we can use trade to build a better future for our own families, for America, and for the world. There is no going back. *Trade Is Not a Four-Letter Word* is the antidote to today's acronym-laden trade jargon

pitched to voters with simple promises that rarely play out so one-dimensionally. It's time to read between the lines. Packed with colorful examples and highly digestible explanations, *Trade Is Not a Four-Letter Word* entertains as it dispels popular misconceptions and arms readers with a thorough grasp of the basics of trade.

**Administrative Justice in Context** Michael Adler, 2010-04-30 This book comprises a definitive collection of papers on administrative justice, written by a set of very distinguished contributors. It is divided into five parts, each of which contains articles on a particular aspect of administrative justice. The first part deals with the impact of 'contextual changes' on administrative justice and considers the implications of changes in governance and public administration, management and service delivery, information technology, audit and accounting, and human rights for administrative justice. The second part deals with conceptual issues and describes a number of competing approaches to the administrative justice. The third part deals with the application of administrative justice principles to private law disputes while the fourth part deals with the distinctive characteristics of administrative justice in three other jurisdictions. The final part deals with current developments in administrative justice and the book concludes with a discussion of legislative and policy developments in the UK. The general approach of the book is socio-legal and interdisciplinary. The chapters adopt a variety of disciplinary perspectives, including those derived from political science, public policy, social policy, accounting and information technology as well as from law. Although most of the contributors are academics, some are practitioners. For these reasons, the book should be of interest to lawyers, particularly those with interests in administrative law, and to social scientists, particularly those with interests in public administration, public policy and public management.

**Finding Reliable Information Online** Leslie F. Stebbins, 2015-09-16 *Finding Reliable Information Online: Adventures of an Information Sleuth* uses stories or "information adventures" to illustrate the best approaches to searching for information and to help us develop our aptitude for locating high quality resources in a rapidly changing digital environment that is becoming proficient at monopolizing our attention with useless or unreliable information. This book is about taking charge of the search process and not handing over the reins to search engines like Google, Bing, or Yahoo to dictate what information we consume.

**Making Diplomacy Work** Paul Webster Hare, 2015-02-11 *Making Diplomacy Work: Intelligent Innovation for the Modern World* takes a fresh look at the practice of diplomacy, setting it in its contemporary context and analyzing the major factors that have changed the nature of the way it is conducted. The book is built on the premise that diplomacy must adapt some of its ritualistic and stale procedures to become more effective in the modern world. It provides a thorough examination of current issues from a diplomatic perspective and offers an extensive array of real-world examples. Author Paul Webster Hare brings 30 years of diplomacy experience to this title; it is a must-have volume for any student of diplomacy.

**The Hardest Job in the World** John Dickerson, 2021-03-23 NEW YORK TIMES BESTSELLER • From the veteran political journalist and 60 Minutes correspondent, a deep dive into the history, evolution, and current state of the American presidency, and how we can make the job less impossible and more productive—featuring a new post-2020–election epilogue “This is a great gift to our sense of the actual presidency, a primer on leadership.”—Ken Burns Imagine you have just been elected president. You are now commander-in-chief, chief executive, chief diplomat, chief legislator, chief of party, chief voice of the people, first responder, chief priest, and world leader. You're expected to fulfill your campaign promises, but you're also expected to solve the urgent crises of the day. What's on your to-do list? Where would you even start? What shocks aren't you thinking about? The American presidency is in trouble. It has become overburdened, misunderstood, almost impossible to do. “The problems in the job unfolded before Donald Trump was elected, and the challenges of governing today will confront his successors,” writes John Dickerson. After all, the founders never intended for our system of checks and balances to have one superior Chief Magistrate, with Congress demoted to “the little brother who can't keep up.” In this eye-opening book, John Dickerson writes about presidents in history such as Washington, Lincoln, FDR, and Eisenhower, and in contemporary times, from LBJ and Reagan and Bush, Obama, and Trump, to show how a complex job has been done, and why we need to reevaluate how we view the presidency, how we choose our presidents, and what we expect from them once they are in office. Think of the presidential campaign as a job interview. Are we asking the right questions? Are we looking for good campaigners, or good presidents? Once a candidate gets the job, what can they do to thrive? Drawing on research and interviews with current and former White House staffers, Dickerson defines what the job of president actually entails, identifies the things that only the president can do, and analyzes how presidents in history have managed the burden. What qualities make for a good president? Who did it well? Why did Bill Clinton call the White House “the crown jewel in the American penal system”? The presidency is a job of surprises with high stakes, requiring vision, management skill, and an even temperament. Ultimately, in order to evaluate candidates properly for the job, we need to adjust our expectations, and be more realistic about the goals, the requirements, and the limitations of the office. As Dickerson writes, “Americans need their president to succeed, but the presidency is set up for failure. It doesn't have to be.”

**The Placentia Area - A Changing Mosaic** Lee K.M. Everts, 2016-02-27 Touching on the wide array of people and events who have brought life to the history of the Placentia area, *The Placentia Area - A Changing Mosaic* offers a glimpse of the deep history that has transformed this part of Newfoundland and Labrador. The history is a collection of interconnected stories. Geological processes forged a landscape that would feature in later

actions and activities. Geology created a wide expansive beach that Basque fish harvesters discovered was perfect for drying fish. This attribute, along with its deep harbour, then ensured that Placentia would go on to function in the struggles between the French and English. And from this period, the Placentia area has evolved, playing a role in the lives of well-known characters such as Pierre le Moyne d'Iberville or Roger F. Sweetman, as well as the less known, yet equally important, women and men who simply came to make a life for themselves. To the present day, the latter has remained a defining quality of the region.

**The National Security Doctrines of the American Presidency [2 volumes]** Lamont C. Colucci,2012-08-08 This two-volume set provides a chronological view of the foreign policy/national security doctrines of key American presidents from Washington to Obama, framed by commentary on the historical context for each, discussions of major themes, and examinations of the lasting impact of these policies. *The National Security Doctrines of the American Presidency: How They Shape our Present and Future* provides a chronological examination of the foreign policy and national security doctrines of key American presidents from Washington to Obama, covering everything from our missionary zeal and our pursuit of open navigation of the seas, to our involvement in the ongoing political and military conflicts in the Middle East. It addresses the multiple sources behind the doctrines: real, rhetorical, and ideological. Arranged chronologically, each chapter offers commentary on the historical evolution of these doctrines, identifies the major themes, and highlights unique revelations. Ideal for universities, colleges, libraries, academics, classroom teachers, policy makers, and the educated electorate, this two-volume set represents a compendium of national security doctrines that explains how these first doctrines have constrained, restrained, and guided every American president regardless of party, providing comprehensive information that cannot be found in any other single source. Further, the work presents the reader with examples and explanations of precisely how these doctrines from long ago as well as those from recent history directly affect our present and future.

*Welfare Reform in California* Jacob Alex Klerman,Joe Hotz,Elaine Reardon,Amy G. Cox,Donna O. Farley,2003-09-19 Examines the effects of the California Work Opportunity and Responsibility to Kids (CalWORKs) program on work activity participation rates of welfare recipients, welfare caseloads, and outcomes for welfare leavers. While the CalWORKs reforms appear to have been responsible for some of the uniform improvement in outcomes shown by the analysis, the robust economy and other policy changes were probably also important.

*Foreign Direct Investment and Regional Development in East Central Europe and the Former Soviet Union* David Turnock,2017-11-28 With the achievement of further EU and NATO enlargement, a critical political and economic lens is now focused on East Central Europe and, to a lesser extent, the other former communist states. Economic growth in each transition state - and more broadly the region - pivots around the prospects for foreign direct investment (FDI), with decisions on where foreign investors will locate their projects now vitally important. This book - the first one devoted to a geographical survey concentrating specifically on FDI in the region - brings together a wide range of prominent authors from the US and Europe, including the late Frank Carter, to provide a timely and critical examination of the importance of foreign investment. It presents a detailed analysis of location patterns and their significance for regional development, with particular emphasis given to the important socioeconomic and political consequences of uneven distribution of FDI across the region and its constituent countries. Divided into two parts, the book first deals with general overarching themes and issues before applying these to more specific country case studies. The second part deals with regional studies, focusing broadly on the Western Balkans and Bulgaria, before looking at specific economic sectors in individual countries.

**Regional Security in the Asia Pacific** Marika Vicziany,David P. Wright-Neville,Peter Lentini,2004-03-25 The September 2001 terrorist attacks shocked the world. But what did they change? In this book Asia specialists from academe and policy think tanks assess the impact of 9/11 on the Asia Pacific. Drawing on unique fieldwork, access to a wide range of documents and inside expertise, the authors consider how old geo-strategic and cultural fault lines have been overlaid with new security threats from state and non-state actors. With chapters on specific countries and regions, defense policies, terrorism, and current and potential conflict zones, this collection critically examines the Asia Pacific region's post-9/11, as well as post-Iraq war, security architecture.

**Of Papers and Protests: Hong Kong responds to Occupy Central Volume 3** Guy Breshears,2018-01-20 The folklore of ancient China considered the dragon a symbol of power and goodness that was used for the benefit of all. However, over the course of time the dragon has taken on a more apprehensive attribute as it tries to restrain various thoughts and ideas that it considers dangerous. Will Hong Kong defend itself first or will it succumb to the will of the dragon?

**Targeting Terrorist Financing** Arabinda Acharya,2009-09-11 This book examines the dynamics of terrorist financing, including a discussion about the

importance of money from both the terrorist and the counter-terrorist perspective. Targeting Terrorist Financing argues that it is not the institutions that have failed the war on terrorist financing; rather it is the states that have failed the institutions. The measures contemplated by the world community to interdict terrorists and their financial infrastructures are sufficient to debilitate the terrorists both militarily and financially. However, what has been increasingly lacking is political will among the states, and this has overwhelmed the spirit of cooperation in this very critical front against terrorism. This volume assesses the need for international cooperation and the role of institutions and regimes in targeting terrorist financing. After the 9/11 attacks, there was an expression of global willingness to target terrorism generally, and terrorist financing in particular. The institutional mechanisms that grew out of this are explored in detail here, with a critical examination of the progress made by the international community. The impact of these measures is considered with respect to changes in the nature of the terrorist threat, money confiscated, adoption of international conventions, and global standards by states, and levels of compliance, among others. This book will be of great interest to students of terrorism, international organisations, international security, and IR in general. Arabinda Acharya is Research Fellow, Manager of Strategic Projects and Head of the Terrorist Financing Response Project at the International Centre for Political Violence and Terrorism Research in the S. Rajaratnam School of International Studies, Nanyang Technological University, Singapore.
