Blindsight Peter Watts,2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelect space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Sense of an Ending Julian Barnes,2011-10-05 BOOKER PRIZE WINNER • NATIONAL BESTSELLER • A novel that follows a middle-aged man as he contends with a past he never much thought about—until his closest childhood friends return with a vengeance: one of them from the grave, another maddeningly present. A novel so compelling that it begs to be read in a single setting, *The Sense of an Ending* has the psychological and emotional depth and sophistication of Henry James at his best, and is a stunning achievement in Julian Barnes's oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of her own. But when he is presented with a mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.

The Jungle Upton Sinclair,2010-08-19 A searing novel of social realism, Upton Sinclair's The Jungle follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

The Technology of Orgasm Rachel P. Maines,Rachel Maines,2001-06-15 The author explores hysteria in Western medicine throughout the ages and examines the characterization of female sexuality as a disease requiring treatment. Medical authorities, she writes, were able to defend and justify the clinical production of orgasm in women as necessary to maintain the dominant view of sexuality, which defined sex as penetration to male orgasm - a practice that consistently fails to produce orgasm in a majority of the female population. This male-centered definition of satisfying and healthy coitus shaped not only the development of concepts of female sexual pathology but also the instrumentation designed to cope with them.

Newspaperwoman of the Ozarks Susan Croce Kelly,2023-08-07 Lucile Morris Upton landed her first newspaper job out West in the early 1920s, then returned home to spend half a century reporting on the Ozarks world she knew best. Having come of age just as women gained the right to vote, she took advantage of opportunities that presented themselves in a changing world. During her years as a journalist, Upton rubbed shoulders with presidents, flew with aviation pioneer Wiley Post, covered the worst single killing of US police officers in the twentieth century, wrote an acclaimed book on the vigilante group known as the Bald Knobbers, charted the growth of tourism in the Ozarks, and spearheaded a movement to preserve iconic sites of regional history. Following retirement from her newspaper job, she put her experience to good use as a member of the Springfield City Council and community activist. Told largely through Upton's own words, this insightful biography captures the excitement of being on the front lines of newsgathering in the days when the whole world depended on newspapers to find out what was happening.

Confessions of a Recovering Environmentalist and Other Essays Paul Kingsnorth,2017-08-01 A provocative and urgent essay collection that asks how we can live with hope in “an age of ecocide” Paul Kingsnorth was once an activist—an ardent environmentalist. He fought against rampant development and the depredations of a corporate world that seemed hell-bent on ignoring a looming climate crisis in its relentless pursuit of profit. But as the environmental movement began to focus on “sustainability” rather than the defense of wild places for their own sake and as global conditions worsened, he grew disenchanted with the movement that he once embraced. He gave up what he saw as the false hope that residents of the First World would ever make the kind of sacrifices that might avert the severe consequences of climate change. Full of grief and fury as well as passionate, lyrical evocations of nature and the wild, Confessions of a Recovering Environmentalist gathers the wave-making essays that have charted the change in Kingsnorth's thinking. In them he articulates a new vision that he calls “dark ecology,” which stands firmly in opposition to the belief that technology can save us, and he argues for a renewed balance between the human and nonhuman worlds. This iconoclastic, fearless, and ultimately hopeful book, which includes the much-discussed “Uncivilization” manifesto, asks hard questions about how we've lived and how we should live.
